# Appendix IX

## Log Framework – Alberta On-reserve Shelters Regional Office

**Alberta On-Reserve Shelters Regional Office (RO)**
**Development of On-reserve Shelter Logframe Outcome #5: Strong shelter organization built**
Logframe last updated 8 December 2008                                    Page: 1

**Evaluation indicators (contribution)**

| Project goal | Programme Hypothesis |
|---|---|

Families, children, and communities can live in happiness if:

▸ Everyone has an adequate livelihood (physical)

▸ Everyone is guided by "love thy neighbour" (spiritual)

▸ There is equality for everyone (social/emotional)

▸ World leadership is caring and works for people (social/mental)

The collage to the right shows this vision in graphic form. These visual images communicate integral aspects of this logframe in a non-verbal and non-linear way.

On-reserve shelters contribute to building up healthy communities.

This contribution is according to the paradigm described in the programme hypothesis, above: therefore, the work of on-reserve shelters needs to be wholistic and not focused only (or even primarily) on the prevention of violence.

**Outcomes contributing towards the Goal**
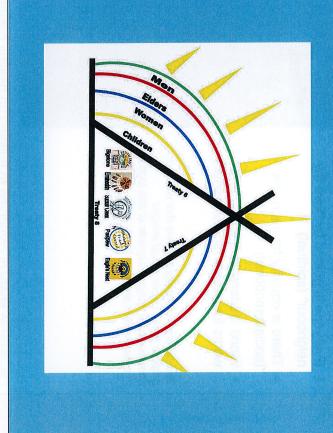

5. Strong shelter organization built.[1]

As a result of increased shelter stability on-reserve communities will be stabilized; fewer children will be in care; crime statistics will decrease. In short, on-reserve social capital will be developed as the shelter becomes rooted and contributes to building up a healthy community around it.

---

[1] Please note that Outcome 5 derives from the identified outcomes in the *On-reserve shelters logframe*: 1. Spirituality built; 2. Community healing fostered; 3. Life skills built; 4. Leadership support attained for the on-reserve project of building-up healthy communities. Note: *Violence is a symptom of unhealthy community. In order to address it, the whole community, in all its aspects, needs to be healthy. That is why these outcomes (behaviour changes; changes in condition to which the on-reserve shelters contribute) focus on healthy community and not on the prevention of violence, per se.*

**2.3.8 Monitoring indicators (attribution)**

**Outputs contributing towards Outcome 5: Strong shelter organization built[2]**

| Summary of objectives | Indicators | MOV | Assumptions |
|---|---|---|---|
| 5.1 Stable, multi-year funding attained as a result of RO leadership. | | | It is understood that the on-reserve shelters concurrently build their own organizational capacity for each of the four outcomes identified here.<br><br>The risk is that if the shelters don't work towards these outcomes independently, the RO is not a sufficient response to the identified needs. The RO contributes to the realization of these outputs, through the activities outlined in this logframe.<br><br>Finally, it is necessary that the RO be set up according to best practise, with respect to: RO Board; Organization status; Terms of Reference; Partnership mandate with ACWS, etc.<br><br>Logframe for RO is needed to outline the above. |

---

[2] NB: outputs for outcomes 2 (Community healing fostered) and 4 (Leadership support attained for the on-reserve project of building up healthy communities) contribute strongly to this outcome, too.

| | | | |
|---|---|---|---|
| 5.2 Shelter infrastructure strengthened as a result RO leadership. | | | |
| 5.3 Access to shelter programs and services increased as a result of RO leadership. | | | |
| 5.4 Collaborations with Community Partners developed as a result of RO leadership. | | | Increased visibility of on-reserve shelters programs and need, as a result of the awareness raising work of the RO will result in durable funding for the RO and the shelters. |

| **Activities** | | | |
|---|---|---|---|
| **Activities to accomplish Output 5.1: Stable, multi-year funding attained through RO leadership.** | | | |
| 5.1.1 Liaise with INAC to negotiate funding agreement. | -development plan created and followed | -meetings held -events planned | Increased visibility of on-reserve shelters programs and need, as a result of the awareness raising work of the RO will result in durable funding for the RO and the shelters. |
| 5.1.2 Identify funding sources and follow-through | -support lists created and used | -growing support lists | |
| 5.1.3 Develop individual donor list. | | | |
| 5.1.4 Develop corporate support list | -INAC contact meetings and funding plan | | |
| 5.1.5 Prepare and submit proposals to funders | -proposals submitted | | |
| 5.1.6 Develop and implement annual branded fundraiser | -branded fundraiser | | |
| 5.1.7 Develop RO fee-for-service initiatives | | | |
| 5.1.8 Set up database for fund tracking | -database established | | |
| 5.1.9 Develop annual funding development plan | | | |
