subject: Authorization of work

In reference to our telephone conversation of January 14, this is to authorize the work being done by Bonnie Sadler Takach for the Advisory Committee on Women's Studies. The account to be charged is 30-44850.

Please feel free to contact me should you require further information.

*Leslie Stewart*

December 16, 1986

Bonnie Sadler Takach  
398 Fine Arts

Dear Bonnie, (7328)

I hope that this is straight-forward enough. Everything the same as last time would be great - i.e. same colours, typeface, lecture titles in bold italics, etc. We'd like 100 of the large size (11" x 20") and 1,000 of the small ones (4" x 9"). As I said on the phone, it'd be great if we could have them by the third week in January, but I realize that we may not have allowed enough time for that.

Since there is only one lecturer this time, I thought the date and location of each talk could probably be listed down the right-hand side (where the dates were listed on the first poster). If space starts getting tight, I have put in parentheses the things that could be omitted.

The small posters may be a problem, given the amount of information we'd like to go on them. Would it be possible to reduce the size of the drawing and "Women's Studies Lecture Series"? If there are any problems - and for proofreading, etc. - please contact me (except I'm away from the 22nd to the 30th), Jean Lauber (5490) or Marilyn Assheton-Smith (2556, 437-2269).

Thanks Bonnie. Have a good holiday.

*Leslie Stewart*

(3093, 439-2142)

P.S. The university crest does not need to be on the posters.

Library card for Dr. Ursula Franklin

As per my conversation with your office on February 19, I am writing to request that a library card be issued to Distinguished Visitor Dr. Ursula Franklin, Professor of Metallurgy and Materials Science, University of Toronto.

Dr. Franklin will be a Distinguished Visitor at the University of Alberta from February 22 - March 7, 1987. Her visit is cosponsored by the Vice-President's (Academic) Advisory Committee on Women's Studies and WISEST (Women in Scholarship, Engineering, Science and Technology). While at the University of Alberta, Dr. Franklin will give four public lectures as well as several smaller seminars to individual classes.

Please send the library card to me at the above address, so that I can give<sub>λ</sub> it to Dr. Franklin upon her arrival.

Thank you.

*Leslie Stewart*

Phone Call from Dr. Zelmer's office Feb. 2, 1987

- re honorarium, payroll is bound by Revenue Canada to take off standard deductions, unless person writes + says the taxes will be paid by a business or something.
- re honorarium + airfare
  - as soon as Ursula arrives, fill out VISITING SPEAKER form to request these two
    - attach photocopy of airline ticket
    - must have her S.I.N.
  - send this to Dr. Zelmer's office
- if have it in by Wed. 25, should receive cheque following week.

Please R.S.V.P. to Leslie (3093) by Friday, February 13.

PUBLIC SERVICE ANNOUNCEMENT

DR. URSULA FRANKLIN

DISTINGUISHED GUEST LECTURER AT UNIVERSITY OF ALBERTA

Ursula Franklin, Professor of Metallurgy and Materials Science at the University of Toronto, will be a Distinguished Guest Lecturer at the University of Alberta from February 22 to March 7.

Dr. Franklin has pioneered the application of modern materials science techniques to the study of archaeological materials. She is concerned with the social impact of technology and has provided technical advice and background information to many community groups on subjects such as pollution, radiation and the use of aluminum in home wiring. Dr. Franklin has participated in many public activities related to peace, international understanding, and the role of women in society.

While at the University of Alberta, Dr. Franklin will give four free public lectures:

- 1) A Feminist Critique of Peace Research
- 2) Women in Extra-parliamentary Opposition
- 3) Looking into the Future of Scientific Enquiries
- 4) Looking into the Future of the Women's Movement

For further information, please contact the Advisory Committee on Women's Studies at 432-3093.

subject: Article re: Ursula Franklin

Would you please print the enclosed article in the February 12 edition of Folio. Please do not hesitate to contact me if you have any questions. Thank you.

Ursula Franklin, Professor of Metallurgy and Materials Science at the University of Toronto, will be a Distinguished Guest Lecturer at the University of Alberta from February 22 to March 7, 1987. Dr. Franklin obtained her PhD in experimental physics from the Technical University Berlin, and continued her studies with post-doctoral research in the Departments of Physics and Metallurgical Engineering at the University of Toronto.

In addition to her appointment in the Department of Metallurgy and Materials Science, Dr. Franklin is an Affiliate of the University's Institute for the History and Philosophy of Science and Technology, and a Research Associate of the Royal Ontario Museum. She has pioneered the application of modern materials science techniques to the study of archaeological materials and has published and taught extensively in this field. Dr. Franklin also took part in the development of courses on the social impact of technology for undergraduates in the Faculty of Engineering.

Since 1980, Dr. Franklin has been director of the University of Toronto's Collegium Archaeometricum, an interdisciplinary group of scholars from the University and the Royal Ontario Museum engaged in joint teaching and research in Archaeometry. Supported by a development grant from the Connaught Fund, the Collegium is at present the only such group in Canada.

In addition to her productive scholarly life, Dr. Franklin, a Quaker by religious affiliation, has participated in many public activities related to peace, international understanding, and the role of women in society. She is an active member of Voice of Women, a national organization of women whose main focus is against war or the threat of war as the accepted method of exercising power.

Because of her concern about democratic decision making on questions relative to heavy technological components, Dr. Franklin has provided technical advice and background information to many community groups, particularly on subjects such as pollution, radiation and, most recently, the use of aluminum in home wiring. She has written and co-produced radio programs on science, technology and public policy.

Dr. Franklin will be giving four public lectures while at the University of Alberta (see "Talks" section for detailed listings). Her visit is sponsored by the Vice-President's (Academic) Advisory Committee on Women's Studies and WISEST, with financial assistance from the Distinguished Visitor's Fund.

To be listed in "Talks" section:

Advisory Committee on Women's Studies and WISEST

Lectures by Dr. Ursula Franklin:

*23 February, 7:30 p.m.* "A Feminist Critique of Peace Research"

Cosponsored by UNDO and the Women's Program, Faculty of Extension

Dr. Ursula Franklin,  
Department of Metallurgy & Materials Science  
University of Toronto  
Toronto, Ontario M5S 1A4

Dear Ursula,

Here at last is a schedule for your forthcoming visit. I should have had it to you before this, but I was waiting to fill in a few details, such as room numbers. As you see, I didn't quite get them all, but at least you'll know where you're expected on the first couple of days. I've also given you the phone numbers of key people, in case you should need them.

Mike Wayman said that you were anxious to know your address and phone number while here: they are indicated at the top of the schedule. Housing is in one of the fourplex (I think) units built by the University for athletes to stay in during Universiade. The apartments are supposed to be self contained and fully equipped, so you can make a cup of tea, or a pizza, if you wish. The units are at the NE edge of the campus, a short and pleasant walk (given reasonable weather). I'll pick up the key ahead of time, and Mike will have it when he meets you at the airport.

I've arranged for an office for you on campus --it's a room that happens to be free for the moment in my building. At least it will provide a place to hang your hat, it has a phone and a typewriter, and you may want some quiet time between lectures. I hope I haven't overloaded you, by the way, with places to be and speeches to give.

A word about finances: we'll have to make a xerox of your airline ticket, early in your visit, and then we can initiate a cheque requisition to reimburse you for your return airfare, ASAP thereafter. I'll have a per diem cheque ready for you when we first meet on the Monday (23d). The housing bill will be taken care of by an intra-university indent, which I'll do when I go to pick up the key.

That's all I can think of at the moment. Please don't hesitate to call me (403-432-5490) if you have any unanswered questions.

We're all looking forward to your visit.

Sincerely,

Jean K. Lauber

from: Leslie Stewart  
Administrative Coordinator  
subject: Advisory Committee on Women's Studies  
Distinguished Visitor funds

your file:

Further to our conversation of December 8, I am writing regarding the administering of funds for Dr. Ursula Franklin, Distinguished Visitor, February 22 - March 7, 1987. The committee would like to pay Dr. Franklin her per diem (\$700) upon arrival, and her honorarium of \$2,000 at the end of her two-week stay.

Remaining to be paid then, are accommodation in Garneau Housing (\$275), and the cost of airfare (estimated at \$820) and ground transportation (estimated at \$75).

Could you please let me know if I have a role in administering these funds, or if everything will be handled from your office. Also, could you let me know as well what, if any, deductions will be taken off of the honorarium.

Thank you.

Dr. Ursula M. Franklin  
Distinguished Visitor

Calendar of Events

Feb 22 '87 - arrival from Toronto, Internat'l airport

time: \_\_\_\_\_? who will meet her? \_\_\_\_\_

Feb. 23 (Mon) - 7:30 PM Public lecture: "A Feminist Critique of Peace Research" sponsored by Coordinating Committee on Women's Studies and UNDO (Univ. Nuclear Disarmament Organization). Humanities \* I. (J. Lauber, L. Hepler)

Feb. 23 (Tue) - afternoon: informal Symposium on Archeometry  
(convener: M. Wayman) Time? \_\_\_\_\_ Place? \_\_\_\_\_

Feb. 25 (Wed) - Lunch meeting with UAYs (students in science) Dr. Franklin will be asked to discuss her own research.  
(M.A. Armour) Time? \_\_\_\_\_ Place? \_\_\_\_\_

Feb. 26 (Th) - Brown bag lunch with academic staff in Biosciences:  
informal discussion of Federal funding policies. (J. Lauber)  
CW 312F BioSci. noon- 1:30 PM

7:30 PM Public Lecture: "Women in Extra-parliamentary Opposition" sponsored by Coordinating Committee on Women's Studies and Edmonton VOW (Voice of Women).  
Hum.I (M. Assheton-Smith, J. Trudeau).

Feb. 27 (Fri) - 8:00 - 8:50 AM: possible meeting with class "Man and the Biosphere" (Zool. 360) M-141 BioSci (J.K. Lauber).  
Noon - 2 PM: lunch with WISEST, University House (M.A. Armour)

Mar. 2 (Mon) - 4:00 PM Public Lecture: "Complexity and Context: Looking into the Future of Scientific Enquiries" sponsored by Coordinating Comm. on Women's Studies and WISEST (Women in Scholarship, Engineering, Science & Technology )  
Hum.I (M.A. Armour)

Please announce change of time for second lecture this series: Thurs., Mar. 5 at 4PM (instead of evening)

Mar. 3 (Tue) - Public Lecture at Athabasca University:  
Time ? \_\_\_\_\_ Place ? \_\_\_\_\_ Pickup at \_\_\_\_\_  
Title ? \_\_\_\_\_ ( R. Coulter)

Mar 4 (Wed) - 6:30 for 7:00: Dinner with Academic Women's Assn. Faculty Club, Saskatchewan Room. (no speech). (H. Olsen).

Mar 5 (Th) - NB change of time for this lecture, from evening to afternoon.  
4:00 PM, Public Lecture: "Complexity & Context: Looking into the Future of the Women's Movement" sponsored by Coordinating Comm. on Women's Studies and AWA (Academic Women's Assn.) Hum. 1. Coffee & cookies (courtesy AWA) available before and after the lecture. ( J.K. Lauber, H. Olsen)

Mar 6 (Fri) - (tentative), 10 AM, meeting with Coordinating Comm. on Women's Studies, Women's Program Centre, continuing to lunch for anybody who can go. Re: science component in women's studies. (M.A-S & JKL)

Mar. 7 (Sat) Dr. Franklin leaves. Who will transport her to the airport?  
\_\_\_\_\_ Pickup at: \_\_\_\_\_

Still to schedule:

-- [session(s) with media ? radio/ TV interviews ?]

12/10/86

Memo to: M. Assheton-Smith, Cathy Bray, L. Hepler, J. Trudeau (VOW), M.A. Armour, R. Coulter (Ath.U.), H. Olsen, D. Cullen, & other members of the Coordinating Comm.

From: Jean Lauber (Zoology, or tel. 5490) via Leslie (3093)

Herewith a tentative agenda for Ursula Franklin's visit. Please check to ensure that we're on the same wavelength with respect to the event you're especially involved in, and let me know if anything should be changed before the final agenda is printed. Also please call me or drop a note if you'd like our visitor to attend a class (informally, not to give a full lecture): [Name of class ? \_\_\_\_\_ Where ? \_\_\_\_\_ When ? \_\_\_\_\_ (contact person)].

Dr. A.E. Zelmer  
Associate Vice President (Academic)

April 11, 1986

Dr. Margaret Ann Armour, Coordinator Women  
in Scholarships, Engineering, Science and Technology (WISEST)

Dr. Dallas Cullen, Chair, Advisory Committee on Women's Studies

**Nominations for Distinguished Visitor**

On behalf of WISEST and the Advisory Committee on Women's Studies, we wish to nominate Dr. Ursula Franklin, University Professor, University of Toronto as a Distinguished Visitor for the 1986-87 academic year.

A copy of Dr. Franklin's curriculum vitae is enclosed. As can be seen, Dr. Franklin is both a distinguished scientist and a distinguished Canadian. Her scientific research is of interest to a number of departments on campus. Her ability to address issues regarding women in science is of particular interest to WISEST, while her ability to address women's issues in general is of particular interest to the Advisory Committee. Finally, Dr. Franklin will also talk on the role of women's organizations as extra-parliamentary opposition. This would be of interest to both the University and general community.

Dr. Franklin would be able to come in February or March of 1987. WISEST and the Advisory Committee are particularly honoured that such a truly distinguished Canadian scientist is willing to accept our invitation.

The budget for Dr. Franklin's visit would be:

Economy airfare (Toronto/Edmonton)	\$ 820.00
Ground transportation	75.00
Accommodation (14 days)	275.00
Per diem (14 days @ 50.00)	700.00
Honorarium	2000.00
	<hr/>
Total	3870.00

If you need further information, please contact either one of us.

DC/km  
Encl.

CC Dr. P. Meekison, Vice President (Academic)  
Dr. G. Kaplan, Vice President (Research)

April 11, 1986

Dr. Ursula Franklin  
Dept of Metallurgy & Materials Science  
University of Toronto  
Toronto, Ontario  
M5S 1A4

Dear Ursula:

Thank you for your letter. I assume (and hope!) you were victorious in your encounter with the Kidney Stone.

We have submitted our letter nominating you as a Distinguished Guest Lecturer. On the assumption that the University will award us the funds, we can make some preliminary arrangements now. Our Reading Week in 1987 is February 16-22; we could thus schedule your visit for February 22 to March 7. Are those dates suitable for you? I assumed you would come on Sunday and leave on Saturday two weeks later. Deciding on the actual dates now is desirable, because we could then book your accommodation as soon as we receive formal approval for your visit.

The accommodation we have in mind is in the Garneau Housing Complex on campus. It would be a fully furnished and equipped one bedroom apartment. In addition to the honorarium of \$2000.00, we have also requested a per diem of \$50.00. This is over and above your airfare and apartment rental, both of which we would also provide.

We indicated in our letter of application to the University that we were very honoured that you were willing to accept our invitation. As soon as we have approval of our application, I will let you know. In the meantime, if you have any questions please phone me at (403)432-5721.

Sincerely

Dallas Cullen, Ph.D.  
Chair  
Advisory Committee on Women's Studies

Professor Jean K. Lauber  
Professor of Zoology  
University of Alberta  
11019 - 90 Avenue  
Edmonton, Alberta  
T6G 2E1

Dear Jean,

Thank you so much for your letter of October 28, reminding me of my promise for the lecture titles.

Please feel free to schedule them at times and places that seem appropriate to you. I put myself entirely into your good hands.

Numbers three and four should follow chronologically, but the other two are independent of each other:

1. "A Feminist Critique of Peace Research". In this lecture I would like to trace the history of the peace research movement, particularly in Canada, which now spans 25 -30 years. I would like to show how the concept of "peace", as well as the concept of "research", has changed over these decades and how peace research, seen from a feminist perspective, has not and could not yield the results that were promised or anticipated.

2. "Women in Extra-parliamentary Opposition - Reflections on 25 years of Voice of Women in Canada." In this lecture I would like to bring out two points; one is that the extra-parliamentary opposition, that is, people outside rather than inside parliament, has been the source of new thought and policy intervention far more than the official parliamentary opposition. I would like to illustrate the changing dynamics of the interaction between the parliamentary and the extra-parliamentary opposition. In doing so, I hope to illustrate the changing relationship between the citizens of Canada and their governments on municipal, provincial and federal levels. Furthermore, I

U400  
723

Th 26  
Ed. Sci  
VYW ?  
PPeace Group?

always  
would like to show the place of Voice of Women not only in the Canadian peace movement, but also in the women's movement and particularly the links between the two. There is and/has been a role of women's organizations (and again, particularly of Voice of Women) in providing leadership training for women who then moved into either the environmental movement, the feminist movement or into human rights and development concerns.

I think this is an interesting subject, not just because of one organization but, because of the role of women in this extra-parliamentary opposition. Since there is much to be said on this, we may want to think of follow-up in smaller discussions, (through the small group meetings that you mentioned)

UAGS  
4PM mm  
30th  
The other two lectures I would put together under the title "Complexity and Context". The first would have the subtitle "Looking into the Future of Scientific Enquiries" and the second would be subtitled "Looking into the Future of the Women's Movement".

Th.  
Both lectures would be concerned with new ways of posing either research questions or political and social questions in full awareness of the need to answer these questions in the context from which they arose.

In these two lectures I would like to explore the widening circle of participation, both in scientific and in social issues, that I foresee. It would also be the place to talk about the structure of groups that would carry out such endeavors.

Maybe you could let me know your reaction to these subjects and the comments of my friends such as Margaret Ann and Dallas. In the meantime, I remain with my best personal regards,

Yours sincerely,

Krsula

U.M. Franklin

Dr. Ursula Franklin  
Department of Metallurgy & Materials Science  
University of Toronto  
Toronto, Ontario  
M5S 1A4

Dear Ursula,

Just a note to remind you that when we talked on the phone a few weeks ago, I asked if you could send me about four titles for public lectures, which you would be prepared to give (with breathing spaces between), during your visit to this campus in February '87. Is it all right with you if these are (early) evening sessions? We can probably schedule several informal small-group meetings for you (eg., with classes, committees, etc.), but there's no need for ceremony on those.

I'm targetting for mid-November to get some advance publicity started, and of course we'll cover the campus with posters in January. Do you have a picture we could use for media coverage (small B&W, glossy)? If so, please send.

We are really looking forward to your visit - in fact, we can hardly wait!

Hoping to hear from you soon. Sincerely,

A handwritten signature in cursive script that reads 'Jean K. Lauber'.

Jean K. Lauber

M5S 1A4

Dear Ursula:

I have some excellent news: the University has approved our request for funds to invite you as a Distinguished Visitor during the next academic year. Your visit is thus officially confirmed.

Given that you will not be coming until February, we can leave the detailed planning of your schedule until this fall. However, we have reserved your accommodation for February 22 - March 7, 1987.

Again, we are both pleased and honoured that you have accepted our invitation. We will be in touch with you in September to start planning your visit; in the meantime, if you have any questions, please phone either Margaret Ann Armour at (403)432-5566 or me at (403)432-5721. Have a very good summer.

Sincerely,

Dallas Cullen, Ph.D.

subject: Distinguished Visitors

The Distinguished Visitors Committee has approved the following application submitted by your Faculty:

1. Dr. Ursula Franklin from the University of Toronto, to visit Women in Scholarship, Engineering, Science and Technology (WISEST) and the Advisory Committee on Women's Studies for two weeks in February or March 1987 for \$3,870.

The expenses for this project should be submitted for payment to this Office in the usual way.

I am also enclosing a copy of a memo from Eva Cherniavsky with regard to the charges which Canada Employment and Immigration is now making for the processing of applications for employment authorizations. Distinguished Visitors requiring such employment authorizations should be asked to submit their receipts so that the expenses can be reimbursed to them.

Yours sincerely,

Amy E. Zelmer  
Associate Vice-President (Academic)

subject: Cost Recovery Program - Canada Employment and Immigration

Further to my memo of January 3, 1986, enclosed is a copy of the newly ratified Cost Recovery Fee Schedule which will become effective February 3, 1986. Canada Employment & Immigration will charge fees for the processing of applications for permanent resident status, employment authorizations, extensions of visitor status and verifications and amendments of landing. Fees for the issuance and extension of student authorizations are still under discussion by Cabinet - any decision will be communicated to you promptly.

Please note that the fees are to be paid for the processing, not the issuance, of these documents.

For ease of reference, the following groups of temporary staff require employment authorizations (Form 1102):

- |  |                                     |
|--|-------------------------------------|
| Chinese Scholar  | Post-Doctoral Fellow                |
| Consultant*  | Research Associate*                 |
| Eminent Individual   | Seminar Leader*                     |
| Exchange Professor   | Sessional Instructor (winter term)* |
| Graduate Assistant   | Spring/Summer Instructor*           |
| Guest Lecturer   | Visiting Professor                  |
| "Heritage" Scholar/Fellow*                                 | Visiting Professor (Research)       |
| Holders of Academic Awards                                 | [Visiting Scientist/Scholar]        |
| Non-Academic Staff* (foreign),<br>e.g. Research Assistants |                                     |

Several of the above categories also require advance validation of employment (Form 2151) — these have been marked with an asterisk. However, no separate charge is made for that Immigration form.

We have been advised that the cost recovery fees will be payable either at the Canadian Consulate/Embassy abroad where the application for permanent resident status/employment authorization is filed or at port-of-entry for those visitors whose applications may be processed directly on arrival in Canada provided they are exempted from advance validation of employment. Payment of these fees may be made in cash, certified cheque, money order, or by VISA or MasterCard (NOT American Express).

University procedures relating to the cost recovery program will be as follows:

- (1) Full-Time Continuous Faculty Appointments - The fee will be reclaimable as part of the maximum removal allowance. The Comptroller's Office has been consulted and agrees. Charges should be indicated on the relevant travel claim voucher.
- (2) Temporary Staff - Temporary faculty appointments who are eligible for a removal grant may also claim the \$50.00 fee which they must pay for an employment authorization as part of the maximum allowance.
- (3) Visiting Professors/Guest Lecturers and Other Short-Term Appointments from Abroad who Require Employment Authorizations - There is no established University policy regarding reimbursement of the cost recovery fee. It is suggested that depending on the case the fee may be reimbursed by the Faculty, department or trust holder, or in some cases it may have to be borne by the visitor. Faculties are free to set their own policies in that regard. If in doubt, please call this office to discuss the situation.

As far as student authorizations are concerned, please consult with the Office of International Student Affairs.

  
Eva M. Cherniavsky,

EMC/bh

Enclosure

cc: Mr. A.S. Knowler  
Mr. J.B. Caunt  
Mr. W.H. Allan

FEES FOR IMMIGRATION SERVICES

Fees to be charged for the following immigration services have been established and will be levied beginning February 3, 1986.

Application for Permanent Residence	\$125.00
Employment Authorization: Issuance	50.00
* Visitor Extension	50.00
Verification of Landing Record	25.00
Amendment of Landing Record	25.00
* Visitor Records issued at Port-of-Entry-no charge. Extensions inland (after 90 days)	\$50.00

## NOTE I

Group rates will be charged for members of a single family who are applying together for visitor extension covering the same time period. There will be one \$50.00 charge for all members of the family. If family members are accompanying an employment authorization holder, the employment authorization holder will be charged \$50.00 while the accompanying family member will be charged \$50.00 for visitor extension.

## NOTE 2.

Fees for Student Authorization is under consideration. The proposed fee is \$50.00 which would be levied only once per year. The student would however be subjected to another levy where he requests a change in the terms and conditions of his authorization.

Department of Mineral Engineering

your file:

subject: DR. URSULA FRANKLIN

I am writing in strong support of the proposal to bring Dr. Ursula Franklin to this University next year under the Distinguished Visitor programme. As you know Dr. Franklin's research interests are similar to those of Dr. M. Wayman of this Department and they have been involved in collaborative research. We would be most pleased if it were possible for Dr. Franklin to give at least one talk in this Department during her stay here and hope that in any event she would be able to spend some time with our students and Faculty members.

I am sure that she is precisely the sort of person for whom the Distinguished Visitor programme was intended and hope that you will be successful in enabling her to come.

L. R. Plitt  
Chairman

LRP/ew

Department of Chemistry, The University of Alberta

14 April 1986

Dr. Margaret-Ann Armour  
Department of Chemistry  
The University of Alberta  
Edmonton, Alberta  
T6G 2G2

Dear Dr. Armour:

I am very much pleased that WISEST has nominated Professor Ursula Franklin to come here in early 1987 as part of the Distinguished Visiting Speakers Program.

Although I (and some of my colleagues) are interested in Dr. Franklin's scientific research, it is for another reason that I am writing to you about her possible visit to The University of Alberta next year. As you may know, Dr. Franklin has for many years been a forthright speaker on a variety of public issues related to war and peace, with a particular emphasis on what Canada can and should be doing. Now, as Chairman of University Nuclear Disarmament Organization (UNDO), I am writing to tell you that we will very much appreciate having Dr. Franklin here and that we hope that time can be allotted for her to give a talk to our group and all others who want to attend. We know that there are many people here in Edmonton who will want to hear her speak on this very important issue.

Please keep me informed about your progress in arranging for Dr. Franklin to come here so that we and other cooperating groups will have plenty of time to arrange and publicize the talk that we hope Dr. Franklin will give for UNDO.

Sincerely yours,

Loren G. Hepler

ADSTRA Professor of Chemistry  
and Chemical Engineering

University of Toronto  
Toronto, Ontario  
Canada M5S 1A4

-978-3012

March 24, 1986.

Dr. Dallas Cullen,  
Chair  
Advisory Committee on Women's Studies  
University of Edmonton  
11019-90 Avenue  
Edmonton, Alberta  
T6G 2E1

Dear Dallas,

Thank you very much for your letter of March 5th. I have given your proposal quite a bit of thought and will be happy to be a distinguished guest lecturer at the University of Alberta next year in the spring preferably right after reading week. You will find my CV included for your application.

Thinking about the subject matter I thought it may be of interest to speak on the role of women's organizations as extra-parliamentary opposition. I would use the case of Voice of Women to illustrate to what extent a women's organization, through intervention on the level of parliamentary committee with briefs to commission and other tools of specific education, has made certain subjects rightful subjects of public debate.

Of course the specific area in which you would like me to speak can wait until you have a clear idea on funding and we are closer to the time of the lecture.

In the meantime, I remain with my warmest personal regards,

Yours sincerely,

*Ursula*

Ursula M. Franklin, PhD, DSc.  
University Professor

April 17. P.S. Sorry this letter got delayed because of illness.

*I had an unpleasant encounter with a kidney stone.*

March 5, 1986

Dr. Ursula Franklin  
Dept of Metallurgy & Materials Science  
University of Toronto  
Toronto, Ontario  
M5S 1A4

Dear Ursula,

Enclosed are copies of Alison Jaggar and Dale Spender's schedules, as well as background information on the Advisory Committee on Women's Studies and this year's Speaker Series.

As you can see, Dale's schedule was somewhat heavier than Alison's. Basically, we would plan to have one activity a day - a public talk, a meeting with a group such as WISEST or the Advisory Committee, a social gathering, etc. Which groups or departments you would meet with would be arranged with you in advance, as would the topics you would discuss. As I mentioned, we could also arrange visits to Athabasca University and the University of Calgary; they would give you a separate honorarium for this.

If you are willing to be a Distinguished Guest Lecturer we will apply for the necessary funds and approval. We would expect to know sometime in May or June whether or not we have been awarded the funds. If we have, we would then be able to officially and formally invite you, since (at the moment) our ability to invite you depends on receiving the funds from the University.

If you are willing to let us nominate you as a Distinguished Guest Lecturer, could you please send me a copy of your C.V.; we will need to submit it with our application. The deadline for our application is April 15.

I do hope you will accept our invitation. Your range of interests makes you a true Distinguished Visitor, and we would very much like to have you visit our campus for longer than three days.

Sincerely,

Dallas Cullen, Ph.D.  
Chair

## **Curriculum Vitae**

---

- Name**      **URSULA MARTIUS FRANKLIN**
- Address**    **41 Lonsdale Road, Toronto, Ontario, M4V 1W4**  
**[Tel. (416)921-7414]**
- Born**        **September 16, 1921 In Munich, Germany**
- 1952**        **Married to Fred Franklin In Toronto**
- 1954**        **Canadian Citizen**  
**Two children, Martin (born 1955), Monica (born 1958)**
- 1948**        **Ph.D. - Technical University Berlin, experimental physics**
- 1949**        **Lady Davis Fellowship to Canada, University of Toronto**
- 1949-51**    **Post-doctoral research, Departments of Physics and Metallurgical Engineering**
- 1952-67**    **Ontario Research Foundation, Research Fellow, later Senior Research Scientist; building up and supervising the organization's X-Ray services; intensive contacts with Ontario industry.**
- 1967-73**    **University of Toronto, Department of Metallurgy and Materials Science, Associate Professor**
- 1973-**        **Full Professor, Department of Metallurgy and Materials Science**
- 1980**        **Director, Collegium Archaeometricum**
- 1984-**        **University Professor**

### **Research and Academic Activities**

---

Structure and properties of metals and alloys, ferromagnetism, characterization of modern and ancient materials. History of technology. Social impact of technology (about 50 scholarly papers and major contributions to books).

In addition to her appointment in the Department of Metallurgy and Materials Science, Dr. Franklin is an Affiliate of the University's Institute for the History and Philosophy of Science and Technology, and a Research Associate of the Royal Ontario Museum. She has pioneered the application of modern materials science techniques to the study of archaeological materials and has published and taught extensively in this field. She took part in the development of courses on the social impact of technology for undergraduates of the Faculty of Engineering, and taught in some of them.

Since 1980, Dr. Franklin has been director of the University of Toronto's Collegium Archaeometricum, an interdisciplinary group of scholars from the University and the Royal Ontario Museum, engaged in joint teaching and research in Archaeometry. Supported by a development grant from the Connaught Fund the Collegium is at present the only such group in Canada.

### 1971-1973

University of Toronto, member of an intra-faculty working group on the equalization of salaries of women staff members. The work led to upward revisions of salaries and also provided the methodology that other universities used to deal with problems of academic pay differentials.

### 1974-1977

Member, University of Toronto Tenure Appeal Committee.

### 1974-1979

Member, Science Council of Canada, Chairperson of the Council's Committee on the Implications of a conserver society. Its report "Canada as a Conserver Society" (1977) had considerable public impact and went through several printings.

### 1978-1981

Member of the then newly formed Natural Sciences and Engineering Research Council, (the enlarged body to oversee federal granting in Science and Engineering to universities) its Executive Committee, and Committee on Grants and Scholarships. Extensive involvement in the formulation of the NSERC five-year plan designed to guide federal support policies for research and development in universities.

## Honours

1980:

November, served as Mellon Professor in the History of Technology program at Lehigh University.

1981      Awarded the Civic Medal of Merit by the City of Toronto.

1982      Appointed an officer of the Order of Canada.

1982      In April, appointed Distinguished Lecturer for 1982/83 by the Canadian Institute for Mining and Metallurgy.

Delivered the Rutherford Gettens Memorial Lecture at the Freer Gallery of Art, Smithsonian Institution, Washington.

1983      November, Cecil and Ida Green Visiting Professorship, University of British Columbia

1984      Doctor of Science, honouris causa, Acadia University, Wolfville, Nova Scotia

Doctor of Science, honouris causa, Queen's University, Kingston, Ontario

Fellow, Ryerson Polytechnical Institute, Toronto, Ontario

University Professor, University of Toronto.

Marguerite and Vernon Heaslip Award for Environmental Stewardship, National Survival Institute, Ottawa

Muriel Duckworth Award, Canadian Research Institute for the Advancement of Women

1985      Honourary Membership; Delta Kappa Gamma Society International, an Honour Society for Women Educators. (The first Canadian so recognized)

Doctor of Science, honouris causa, York University

## Community Activities

In the early seventies, Dr. Franklin served for a number of years as a Director of the Deer Park Resident's Association and represented the Association on the Yonge-St. Clair task force, set up by City Council and the Planning Board to help develop the Part II Plan for the area. She has appeared on behalf of DPRA and/or the task force before the OMB, Planning Board, City Council and its Committees, and is the author of several briefs on planning and planning policies.

As a Quaker by religious affiliation, Dr. Franklin has participated in many public activities related to peace, international understanding and the role of women in society.

For a number of years, she served on the executive of the Canadian Friends Service Committee, a body that guides Quaker service in Canada and abroad.

An active member of "Voice of Women", and a member of its National Council, she was involved in many of the organization's activities, from co-ordinating the collection of children's teeth for Sr<sup>90</sup> measurements in the early 1960's to co-drafting submissions to the Senate Inquiry into science policy and submissions to the government on social and foreign policies.

Because of her concern about democratic decision making on questions related to heavy technological components, Dr. Franklin has provided technical advice and background information to many community groups, particularly on subjects such as pollution, radiation and, most recently, aluminum in home wiring.

In addition to "Voice of Women", she is a member of the Association of Women Electors and the Consumers Association of Canada. Until 1980, she served as a Director on the Board of Pollution Probe Foundation.

Dr. Franklin has written and co-produced radio programs on science, technology and public policy such as the Ideas Series in 1979 on Technology, Democracy and Freedom (5 one-hour programs), in 1982 on Nuclearpeace (10 one-hour programs) and in 1984 on Size and Scale in Technology (6 one-hour programs).
