January 15, 1986

Ms. Susan Beach
9928-112 Street
Edmonton, Alberta
T5K 1L7

Dear Susan;

The Advisory Committee on Women's Studies has recently received funding for their Women's Studies Lecture Series, and would like to commit an additional \$200.00 toward Jane Rule's visit.

I hope that your planning is going well.

Sincerely;

A handwritten signature in cursive script that reads "Leslie Stewart".

Dear Dallas:

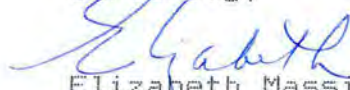

I started a letter to you in December, telling you how delighted we were with your offer to sponsor a session with Jane Rule. Yours was the first concrete offer of funds and interest, and as such, the most energizing.

The letter was not completed because of having to make a major shift in plans. We discovered that Jane had accepted another writer-in-residence program from Canada Council, and so would not be eligible for an application on our behalf. This has required a dramatic change in our approach to the program.

Needless to say, I was delighted to hear via Susan Beach that the Committee has decided to increase your financial contribution and will now be able to give \$300.00 towards the project. This makes an enormous difference to us, and we are profoundly grateful.

As well as being grateful, we were delighted to see the announcement of Jane's event in the Women's Program brochure and in the Edmonton Journal. Seeing it in print made it seem real and makes us even more determined to provide a quality experience for both Jane and those of us who will be able to enjoy her when she is here. Again, our heart-felt thanks. The cheque should be made out to the Jane Rule Committee and given to Susan Beach. We will be providing you with a receipt and a financial statement upon the conclusion of the visit.

Sincerely,

Elizabeth Massiah

Dear Susan:

Re: Jane Rule visit

The Advisory Committee on Women's Studies would be pleased to co-sponsor this visit. Specifically, we would like to arrange for a talk that would be of interest to the university community, to be given here on campus. We would do the publicity for such a talk.

At the moment, the Committee can provide only modest financial support. We are able to pledge \$100.00 towards your share of Rule's remuneration. If we receive our requested extra funding we should be able to offer additional support.

If you need further information, please phone me at 432-5721. Good luck with your proposal and plans.

Sincerely,

Dallas Cullen

Dr. Dallas Cullen, Chair
Advisory Committee on Women's Studies

On behalf of the Advisory Committee, I would like to express our appreciation that you are bringing Sarah Pomeroy to speak at this campus. Since she is a scholar whom we have discussed inviting, we are pleased that she will be here.

While it is too late for us to work with you on her visit, we would be very interested in knowing about other feminist scholars that you are considering inviting to the university. We would be willing to co-sponsor such visits, or help with publicity, etc; since, given the multidisciplinary nature of Women's Studies, scholars in this area are known in many other parts of the campus.

To: All AWA members

Date: November 12, 1985

From: Leslie Stewart, Administrative Coordinator
Advisory Committee on Women's Studies

Please find enclosed the following items:

- 1) a poster announcing the Women's Studies Lecture Series
- 2) a small poster announcing Ann McLellan's talk, and
- 3) a flyer publicizing a lecture by Lynda Lange

The Advisory Committee on Women's Studies would appreciate your posting this information.

A slightly larger poster announcing the Lecture Series will be available at the November 26 AWA meeting. This poster is identical in design to the folded poster you have received in this mailout, but is on a heavier paper and is unfolded. These posters can also be picked up at the Women's Program house, 11019 90 Avenue.

If you would like additional materials, please do not hesitate to contact me at 432-3093.

Re: Ms. Zhao Yue-Ying

Ms. Zhao is a teacher of English at the Harbin Teacher's University in Heilongjiang, People's Republic of China. She is visiting the University of Alberta for a period of eight months to gain experience and improve her teaching of English.

I have met her only briefly, and really don't know whether she would have anything specific to contribute to the interest of either of your Committees, but it seems a shame to not at least explore the possibility. Ms. Zhao is the mother of five year old twins and a full-time teacher, so I am sure she could at least provide some personal reflections on academic women and their situation in China.

If you wish to contact her, I would suggest that you call Helena Hensley at the International Briefing Centre (phone 2958).

Ms. Zhao is here with two male colleagues, but I would appreciate anything which you and your colleagues might do to make her feel especially welcome.

University of Cincinnati
Cincinnati, Ohio 45221
USA

Dear Alison:

On behalf of the Advisory Committee on Women's Studies, I want to express our deep appreciation for your visit.

We benefitted in many ways, but I think the main one was that, in both your public and private talks, you articulated why we are doing what we are doing. This articulation came in both your words and actions. At the end of a year in which we worked to develop our degree proposal and had a number of stimulating speakers, an opportunity to reflect on where we have been and where we are going with someone who both stimulated and helped us was precisely what we needed.

Again, thank you. We hope you will be able to visit us again. Our future students will want to meet one of the women who helped create their program.

Sincerely,

Dallas Cullen, Chair

General Faculties Council Briefs

The 24 February assembly approved an addition to policy concerning selection committees for Deans and Chairman, to the effect that such committees should not have as a member "any person with an apparent conflict of interest as determined by the Vice-President (Academic)." It was noted that the VP would react to, rather than initiate allegations of apparent conflict of interest.

Arts students may find it harder to gain a BA (General) with Distinction. As a result of moving to a four-year baccalaureate, the Faculty of Arts, with GFC's endorsement, will now require a minimum GPA of 7.5 "both on the last twenty full course equivalents and on all full course equivalents in the principal subject of concentration." Previously, the general rule was that the award of degrees with distinction was based on performance in the last two years of the program.

The effect of the Arts proposal was noted by more than one GFC member. There was even the suggestion that the former means of assessment was just, in that it allowed a student to be less than serious in his first year of study here. □

FOLIO

University of Alberta

6 March 1986

'Canada, the World and the Future' Opens Monday

To quote the p.a. announcer at the Indy 500, "Ladies and gentlemen, start your engines."

This University's fourth annual "Canada, the World and the Future" conference will get under way at 1:45 p.m., Monday, 10 March. The conference is essentially a critical forum for the interdisciplinary examination of important issues.

Vice-President (Research) J. Gordin Kaplan and President Myer Horowitz will voice introductory remarks at 1:45 p.m.; the sessions start at 2 p.m. with "Where is Canada Going?" This particular session comes under the theme "Future of Canada." There is ample "meat" in it and the other themes—"Canadian Culture—is it?" "What's so free about free trade?" "Canada and the Third World—benevolence or

malevolence?" "Ethics of Technology Change," "Ethics of New Medicine—have we created a monster?" and "Star Wars and Technology."

Speakers include Douglas Roche, Canada's Ambassador for Disarmament; Rosemary McCarney, a Toronto lawyer and staunch

advocate of Canadian nationalism; the Hon. David King, Alberta Minister of Technology, Research and Communications; and David Parnas, former consultant to the Department of Defense, Washington, who resigned over the star wars program.

News cast watchers, broadcast listeners and newspaper readers undoubtedly have some familiarity with these topics and would like to say something about them or learn more about them. "Canada, the World and the Future" provides these springboards. It's intended to help opinion flourish.

A number of polished and knowledgeable speakers are waiting to express their views. Conference organizers invite University staff, students and the general public to do likewise.

"Canada, the World and the Future," co-sponsored by the Alma Mater Fund and the Office of the Vice-President (Research), will take place in Bernard Snell Hall, Walter C. Mackenzie Health Sciences Centre, 114 Street and 86 Avenue. There will be afternoon and evening sessions. Admission is free. □

Tevie Miller University's New Chancellor

Tevie Miller, Associate Chief Justice, Court of Queen's Bench of Alberta, was elected Chancellor of the University of Alberta last Friday. Associate Chief Justice Miller, who will also serve as Chairman of the Senate, will start his four-year term on 1 July 1986.

The Chancellor was elected in camera.

Associate Chief Justice Miller, who is the 13th Chancellor of the University, succeeds Peter Savaryn.

The new Chancellor is no stranger to the University of Alberta. He earned BA and LLB degrees here, was President of the Students' Union and later sat on the Senate and the Board of Governors. He was also President of the General Alumni Association and a sessional lecturer in the Faculty of Law.

Tevie Miller was appointed Queen's Counsel in 1968. He is a senior partner of Miller, Witten, Friedman, Pekarsky and Vogel and

Tevie Miller addresses the news media.

the President of the Edmonton Bar Association.

In 1974, he was appointed Judge of the District Court of Alberta.

Community involvement is a big part of the Chancellor-elect's life. He has been President of the United Way of Edmonton, a board member of the Edmonton Association for

Retarded Children, Chairman of the City of Edmonton Community Foundation, President of the Edmonton Symphony Society, and Vice-President of the Board of Directors of the XI Commonwealth Games (1978) Foundation.

Coverage of the Senate meeting will appear in next week's *Folio*. □

Faculty of Science Moves to Four-Year General BSc Program

Beginning with Spring Session 1986, all new registrants in the BSc General Program in the Faculty of Science will be admitted into the four-year BSc General Program. The three-year General program has been eliminated, although students currently enrolled in it will be able to complete their degree requirements on or before 30 April 1994.

Academic considerations were the primary motivation for the change from a three- to four-year General program. The Faculty of Science saw a need for a program with more structure and coherence, and, at the same time, one possessing sufficient flexibility so that students would not be constrained by choices they may have made in their first year.

As early as 1960, the Faculty of Arts and Science (then combined) began studying recommendations that the General course in Arts and Science be a four-year program. By the late 1960s, the Faculty of Science, which had separated from Arts in 1963, had introduced four-year BSc specialization programs in most departments to meet some of the growing academic demands.

Past University *Calendars* have stated that the "general programs in the Faculty of Science are designed to enable the student to obtain a diversified education in more than one branch of study within the limits of a three-year program," but it has been difficult to meet all of the objectives of the General degree program within a three-year period.

As such, it was desirable to fashion an academically sound program with broad scope and attention to the development of problem-solving and communication skills. Although many students use the General program to prepare for professional or other training programs, the quality of science education offered by the Faculty is foremost and must provide opportunities to meet the challenges of today's technologically based society.

In November of 1980, the Council of the Faculty of Science put forward a motion to establish a committee to study the General degree program. The primary considerations were to be directed to the academic content of the program, and in particular "to define a BSc General degree program having the breadth and depth of education that is a fundamental requirement of a Bachelor of Science degree." The committee, under the chairmanship of D.D. Beatty, then Associate Dean of Science, presented its recommendations in February of 1982.

Information for the review was obtained from a wide variety of sources, including students who were currently registered in the program, graduates of the BSc General degree program from 1970 to 1980, and academic staff members of the Faculty. The committee entered its study with the goal of defining a model General program, with primary concern for academic quality, and without a prejudged notion that the three-year program would, by definition, be abandoned in favor of a four-year program.

In their recommendations, the committee noted that in previous studies, the objectives of a General degree program were defined to be such that they "... should have sufficient 'depth of study as well as breadth of knowledge' to make certain that Science students have an appreciation for the Humanities, Fine Arts and Social Sciences and a solid base of education in Science within a framework which will provide for a reasonable amount of choice of subjects."

In discussing the merits and objectives of the BSc General degree the committee pointed out that the program has the purpose of providing students with an academic environment that provides opportunities to "... become educated in science and have an appreciation for a variety of disciplines, including the Arts ... the General program is for the

education in science of those students who plan on careers in science related areas, in education, in law, in business or who desire a university degree primarily for its intrinsic values."

Surveys

Surveys of students and graduates conducted when the program was being evaluated revealed that many enrolled in a General program because they wanted a university degree as a general qualification. Many graduates expressed the opinion that a weakness in the three-year program was the lack of depth of knowledge obtained. A four-year program will offer more time to achieve an appreciation and understanding of the potential and limits of science, while at the same time it will allow for the development of greater scientific skills.

The Faculty of Science Council approved the four-year proposal on 27 February 1985, and it was endorsed by the Academic Development Committee on 3 April 1985. On 23 May 1985, the Planning and Priorities Committee recommended approval to General Faculties Council. At its 6 June 1985 meeting, the Executive Committee of GFC stated that it would recommend that GFC approve the proposal, which it did on 23 September 1985. At its meeting of 13 December 1985, the Board of Governors, on the recommendation of its Educational Affairs Committee, provided the final approval to allow the program to be implemented.

The four-year General Program is characterized by a major subject or area of concentration in Science and a first year core of courses. A subject of concentration will consist of courses taken from a single department in the Faculty or in the Departments of Biochemistry, Entomology, Pharmacology or Physiology. An area of concentration will be made up of courses taken from one of Biological, Physical, Mathematical, Earth, or Cognitive Sciences. Students must take at least three full course equivalents (FCE) and up to eight FCE in Arts, as well as a maximum of two FCE from Faculties other than Arts or Science as approved options. Details about the program may be obtained from the Faculty of Science or the Registrar's Office. □

This article was contributed by G.A. Moss, Associate Dean, External Relations, Faculty of Science.

Much in Store for Western Geographers

The coordinating committee for next weekend's meeting of the Western Division of the Canadian Association of Geographers would seem to be the master of all it surveys.

More than 40 papers will be presented at the 15 March assembly on the third floor of the Tory Building and committee chairman Ed Jackson is pleased with the variegated subject matter. Also, Dr. Jackson and the members of the planning committee—faculty, students and support staff—have arranged two field trips on 16 March ("Physical Geography of the Edmonton Region" and "Buildings as Indicators of Belief in Edmonton"), demonstrations of the Intergraph computer cartography installation in 3-104 Tory, poster papers and other displays, and informal tours of the University's Map Library.

The annual meeting of the Western Division, Canadian Association of Geographers, is held on a rotating basis in Alberta, the interior of British Columbia and the coast. The last time the meeting was conducted at our University was in 1976.

Dr. Jackson is an unabashed booster of the regional meeting because presenters, including a number of students, tend to be a little more relaxed than they would be at the national conference. Fourteen graduate students and eight undergraduate students are

involved in presentations this year and Dr. Jackson believes the experience will serve as a sound introduction to the geography profession.

Perhaps William Wonders will recall a similar experience or two when he speaks at the Saturday evening banquet in Lister Hall. Professor Wonders, who founded our University's Department of Geography 25 years ago, intends to take a leisurely trip down memory lane.

The meeting will contain papers on the themes "Geomorphology," "Geography and the Third World," "Disturbed Ecosystems," "Economic Geography," "Geography and Health," "Methods," and "Urban and Regional." One of the papers to be given at the latter session is titled "The 'Heart-of-the-City' Problem in Edmonton." Some other titles taken from throughout the proceedings are: "The Development of an Electronics Industry in Western Canada," "The First Solar Wave in Western Canada: The Greenhouse Industry," "Issues Concerning the Disposal of Hazardous Wastes in Alberta," and "The Fourth World: The Historical Underdevelopment of the Economy of the Aboriginal People of Canada."

Between 110 and 150 delegates from universities and community colleges in British Columbia, Alberta and Saskatchewan are expected to attend. All papers will be submitted for publication. □

University's Slice of NSERC Pie is \$1,402,097

Grants totalling \$32.1 million were recently awarded by the Natural Sciences and Engineering Research Council (NSERC) to Canadian university professors for R&D in areas of socio-economic benefit to Canada. University of Alberta faculty received \$1,402,097. Last year's total was \$1,460,233; the total amount released was \$32.2 million.

The selected areas funded by NSERC were: Biotechnology, Communications and Computers, Energy, Environmental Toxicology, Food/Agriculture, Industrial Materials, Oceans, Processes, and Open.

The following list shows the University of Alberta entrants who "pulled through" the recent competition for grants.

S.E. Hrudey, Civil Engineering, \$34,500 for the study of "Anaerobic biological treatment of phenolics" (with D. Westlake, N. Berkowitz, D.W. Smith and P.M. Fedorak).
L.J. Reha-Krantz, Genetics, \$42,050 to study "Developing and testing mutator DNA polymerases as useful reagents for in vitro mutagenesis."
D.E. Taylor, Microbiology, \$41,091 for the study of "Cloning of *Campylobacter jejuni* genes for use as diagnostic DNA probes."
P.K. Kaiser, Civil Engineering, \$70,000 to study "Deep borehole rupture mechanics" (with J.D. Scott).
A.A. Offenberger, Electrical Engineering, \$140,000 for studying "Laser fusion related research" (with R. Fedosejevs and W. Rozmus).
J.D. Scott, Civil Engineering, \$61,800 for the study of "Core

sampler for oil sands and heavy oil formations."

P.R. Smy, Electrical Engineering, \$49,900 to study "Enhancement of flame and transport processes in pulsed plasma plugs."

J. Toth, Geology, \$105,020 for the study of "Development of a hydrogeological approach to petroleum exploration."

R.C. Von Borstel, Genetics, \$83,000 to study "Molecular basis of mutagen action."

C. Hiruki, Plant Science, \$32,500 for the study of "Identification and control of major virus diseases of forage legume crops."

N.G. Juma, Soil Science, \$140,000 to study "Development of new management systems to counteract soil degradation" (with S. Pawluk and M.J. Dudas).

P.D. Walton, Plant Science, \$26,500 for the study of "Interspecific hybridization in forage grasses."

W.A.G. Graham, Chemistry, \$35,000, to study "Carbon-hydrogen bond activation by transition metals."

F.D. Otto, Chemical Engineering, \$64,280 for "Selective gas treating" (with A.E. Mather).

J. Tulip, Electrical Engineering, \$65,000 for the study of "High powered waveguide CO₂ laser."

S.E. Wanke, Chemical Engineering, \$70,120 to study "Optimal chemical routes for heavy oil upgrading" (with K.G. Dalla Lana and M.R. Gray).

E.M. Gates, Mechanical Engineering, \$85,500 for studying "Marine icing" (with E.P. Lozowski).

N.R. Morgenstern, Civil Engineering, \$100,392 for the study

of "Ice rubble mechanics" (with D.C. Sego).

K. Muehlenbachs, Geology, \$38,444 to study "An integrated study of precious and base metal mobilization in hydrothermally altered oceanic crust" (with B.E. Nesbitt).

W.A. Ayer, Chemistry, \$67,000, for the project "Phytochemical investigation of important forest diseases. Blue stain fungi associated with the mountain pine beetle"

(with Y. Hiratsuka.)

H.J.J. Seguin, Electrical Engineering, \$50,000 to study "Glow discharge stabilization with magnetic fields" (with C.E. Capjack).

NSERC is this country's largest research granting agency. In 1985-86, through its programs of grants and scholarships, NSERC will invest nearly \$300 million in the support of more than 17,000 researchers and students. □

Students Helping Disabled Colleagues

About 150 student volunteers are giving freely of their time this year to help a worthy cause—disabled students. The number of volunteers is up by 50 percent from last year, but then the University's disabled student population has increased by almost that much as well.

Marion Nicely, the Disabled Students' Coordinator, credits the expanded number of services available to these special students as the main reason for the increases in both students and volunteers. "We are meeting more of their specialized needs," she says. "Our services and the work of our volunteers is also becoming more widely known."

Student volunteers do

"everything" according to Nicely. This includes writing notes in class, writing exams, reading onto tape and assisting students in manual wheelchairs. An educational interpreter who is fluent in sign language has also been hired, a move that should help hearing impaired-students immensely (previously, interpreters were used on a freelance basis).

Over the past couple of years there has been a significant increase in disabled students on campus and Nicely feels that enrolment will continue to increase as more disabled people become aware of how the University is making education more accessible for them. □

News From Here and There

There's A Place for Peace in SUB

Inspired by the success of the Peace Tent at last year's International Forum in Nairobi, the International Students' Centre is creating a "Peace Place" in SUB basement during International Awareness Week, 11 to 14 March. A variety of organizations have put together a program of events, daily from noon to 9 p.m., that will be interesting, exciting, cooperative, and above all peaceful. Creating a peace bird (Origami) is the first activity, and during the week there will be songs, forums, poetry and readings, workshops, films, speakers and displays, concluding with a candlelight vigil on Friday night at 7.30.

CAUT Protest

CAUT President E.O. Anderson has issued a strong protest at the breaking of the Progressive Conservative party's election commitment to sustain the current federal

financial commitment to the financing of post-secondary education according to the formula set out in the 1977 Agreement. Despite a clear promise, says Professor Anderson, the government introduced new legislation in February to reduce transfer payments to the provinces, and this will create a shortfall for post-secondary education totalling some \$1.7 billion over the next five years.

What is at issue is whether or not the government is going to provide the financial support necessary for a first rate university system, he declares, and he has called upon both levels of government to negotiate once and for all a stable financing formula for post-secondary education.

Not All Bears Are Golden

Bear attacks and how to avoid them will be Stephen Herrero's topic on Wednesday, 12 March, when he gives the first talk in the Faculty of Extension's two-session course on mountain hazards. Dr. Herrero,

the internationally-recognized expert on bear behavior, has recently published a book, *Bear Attacks: Their Causes and Avoidance*.

Avalanches are the subject of the second session, Wednesday, 19 March, and the expert then will be Tony Daffern. He will discuss avalanche terrain and meteorology and hopes to impart enough basic skills and knowledge to enable travellers in snow country to evaluate conditions and take proper precautions.

These courses are very popular. If you really want to know how to avoid bears and avalanches, register early by calling 432-5061 or 432-5532.

University Orientation Days a Big Drawing Card

University Orientation Days, held 20 and 21 February, drew 6,500 visitors to campus. In addition to grade 10, 11 and 12 students from 145 high schools in Alberta, there were a number of students from schools in B.C. and Saskatchewan, plus 850 parents and 50 high school counsellors.

The event, which was coordinated by Becky Hjartarson of the Registrar's Office, gives high school students a strong indication of what a university education is all about. Students pre-registered in 120 sections of University courses and attended simulated first-year lectures. Parents attended separate orientation sessions.

Some 55 displays in CAB met with the approval of the visitors.

Last year, about 4,300 people attended University Orientation Days.

Records Expected to Be Broken

At the Canadian Intercollegiate Athletic Union (CIAU) championships, to be held 14 and 15 March in the Universiade Pavilion, Alberta Golden Bear Brian Monaghan is expected to break the record in the men's 600m, and our University's men's and women's track and field teams are expected to be among the top three finishers, says coach Al Weicker.

Last year's championships produced three men's and seven women's meet records. This year, pre-championship performances have already erased five CIAU records. Record marks expected to fall include those in the women's 1,000m, men's 1,500m and the pole

vault. The action starts at 6.30 p.m., 14 March.

New Building for Shastri Indo-Canadian Institute

During a recent visit to India by External Affairs Minister Joe Clark, he and the Indian Minister of External Affairs, B.R. Bhagat, unveiled plans for a new building to house the Shastri Indo-Canadian Institute in New Delhi.

The building, to be paid for by the governments of Canada and India, will establish a focus for the Indo-Canadian academic and cultural exchanges that have been going on since the Institute's foundation in 1968. Funded by both national governments, the Institute is a unique educational enterprise whose purpose is to give Canadians an awareness of India's rich past and challenging present, and to promote in India the study and knowledge of Canada.

Our University is one of 15 in Canada which, along with the National Library of Canada, pay annual membership fees that enable participation in academic exchanges, conferences and research programs.

Lecture Cancelled

The 11 March lecture by Harry Hill, Director General, Prairie Farm Rehabilitation Administration, Regina, has been cancelled. Dr. Hill had been scheduled to discuss "Soil and Water Conservation" under the sponsorship of Agricultural Engineering, Soil Science, and the Water Resources Centre. □

Beware of Fraudulent Airline Tickets

It has recently become apparent that someone has been using student notice-boards to advertise fraudulent airline tickets for sale. Persons availing themselves of such offers from third parties for return, or other, portions of air tickets are warned to exercise caution. If you have any doubt about the validity of such offers you should contact Campus Security at 432-5252 and/or the City of Edmonton Police Department at 423-4567. □

Alan Bryan, Victor Chan: McCalla Professors

The initial peopling of the Americas by ancestral Indians, a significant historical problem relating to cultural evolution, has been the primary research of 1986-87 McCalla Professor Alan Bryan, Anthropology. According to Dr. Bryan, a "logical impasse has developed because the prevailing model of archaeologists is unable to explain available archaeological evidence." He goes on to say that "the concept of an early entry (at least 50,000 years ago) by people using a simple flaked stone technology is advocated by a few archaeologists, myself included, in order to explain a large body of archaeological evidence in North America and newly discovered evidence from South America."

Dr. Bryan feels that the actual archaeological evidence indicates that the earliest Amerindians were foragers who had a relatively simple flaked stone technology with uniaxially retouched tools. Work has shown that more sophisticated bifacial industries evidently developed independently from this base in different parts of North and South America. There is additional evidence from a few sites with unusual preservation which shows that the early people used whatever materials were readily available. Bone and wood were frequently used for making tools, although these and other perishable materials are not normally preserved in ancient Pleistocene sites.

The time has come, says Dr. Bryan, to review comprehensively the available field evidence, and to develop a reasonable theoretical model with derived testable hypotheses which will explain that evidence, rather than archaeologists continually having to "explain away" all archaeological evidence dated earlier than 12,000 B.P. A year free from teaching and other duties will allow him "to present a theoretical synthesis in book form of the problem of the peopling of the Americas, applying a model of multilineal technological evolution by various innovative human groups adapting to the diverse environmental regions of the Americas."

Victor Chan

The reconstruction of the evolution of a work done by the Spanish artist Goya and the unfolding of the hidden meanings behind it will be the time-consuming project undertaken by Victor Chan, Art and

Design, during his McCalla Professorship.

Goya's series of 80 etchings and aquatints titled *Los Caprichos* lies magnificently at the threshold of modern art, according to Dr. Chan. The work was published in Madrid in 1799 and its impact was immediate and terrifying: the ambiguous settings of the plates create a new level of pictorial reality, the economy and monumentality of the compositions heighten the normal perception, and the bewildering complexity of the subjects is rich beyond expectation. It would have achieved

a great contemporary success had it been made available to a wider audience throughout Spain and elsewhere. Yet a curious combination of circumstances forced Goya to withdraw the work from sale only two weeks after it appeared and in 1803, attempting to protect the work from prosecution and destruction, Goya offered the copper plates to the Crown.

While many of Goya's contemporaries and later art historians suspected plausible offensive elements in *Los Caprichos*, the precise reasons for its withdrawal are unknown. One

American scholar, Fred Licht, recognized that "our understanding of the whole temper of Spain in the early nineteenth century would be greatly enlarged if light could be shed on the concrete events that led the artist to withdraw the first edition of the *Caprichos*. Our knowledge of the circumstances is still curiously limited; we know hardly anything about the motivations that permitted the king to accept such an explosive set of etched plates . . . The formal history of these images has still to be written." Dr. Chan hopes to change all this. □

Accounting Foundation Honors Faculty Member

The Accounting Education Foundation of Alberta recently awarded the first Vic Dzurko Memorial Fellowship to Ross Denham, Associate Dean of the Faculty of Business. Dr. Denham received the fellowship for his "many contributions to chartered accounting education and meaningful interaction with the CA profession."

The Foundation noted Dr. Denham's membership on the Professional Examination Board in Chartered Accountancy of Alberta, his chairmanship of the Education

Committee of the Canadian Academic Accounting Association, and his instructing and writing of course materials for professionally applied university courses.

The Vic Dzurko Memorial Fellowship is awarded every second year to a member of the University's Department of Accounting who makes a significant contribution to professional accounting education through work with accounting students and the accounting profession. A total of five awards will be presented, the first being in 1986.

The fellowship, consisting of \$4,000, a personal plaque for Dr. Denham, and a bronze plaque to be hung in the Faculty of Business Building, is awarded by a committee composed of the Chairman of the Department of Accounting, the Director of the Centre for the Advancement of Professional Accounting Education, the Dean of the Faculty of Business, a senior undergraduate student and a designate for the Institute of Chartered Accountants of Alberta. □

Room to Grow at Biomira

Biomira Inc., the federally-incorporated company organized exclusively to commercialize technology developed at the University of Alberta, is hardly strapped for space,

The company, formed late last year with its headquarters in Edmonton, recently signed a lease agreement for the use of 8,212 square feet of Research Centre One. The agreement is with the Edmonton Research and Development Park Authority. Research Centre One is the Park-owned, multi-tenant building for advanced technology companies.

Biomira will convert the space into research labs and office space for occupancy by 1 June 1986.

The firm has a particular interest in discoveries made in the laboratories of A.A. Noujaim, Pharmacy and Pharmaceutical Sciences, and B.M. Longenecker,

Immunology. "Their research, conducted over the last 10 years into the role of carbohydrate antigens in the diagnosis and treatment of cancer, has led to recent significant technical advances which are ready to be incorporated in commercial products."

The shareholders of Biomira are the University of Alberta, the founding management and scientific team, and an investor group made up of some of Canada's largest corporations and financial institutions.

Gordon Politeski is the President of Biomira Inc. □

HUB Construction Work Starting in May

The Planning and Development Department is coordinating some major construction work for the Housing Union Building (HUB) this summer. Work approved will consist of the replacement of the existing acrylic skylights with a new sloped glazing system, re-roofing (entire HUB roof), insulation and flashing of the

existing protected membrane roof, and provision of new upper mall exhaust fan and related work.

The contractor will be on site 1 May 1986 to construct protective hoarding on the outside west side of HUB. It is expected that this work will be completed by the fall of 1986. □

The Family That Plays Together . . .

Campus Recreation's next Family Fun Sunday promises an afternoon bursting with parachute games, tag relays and assorted cooperative pursuits in the Pavilion, followed by a recreational swim in the West Pool.

All activities, says Campus Recreation's Barb Wood, are designed to accommodate all age groups in attendance. Participants

will be encouraged to select from a broad range of events.

There is no cost for the event which will be held on 16 March from 2 to 4 p.m.

Interested families are asked to call Campus Recreation (432-2555) between 9 a.m. and noon or 1 and 4 p.m. to indicate their intent to participate. The cutoff date for "registration" is 13 March. □

Graduate Research Symposium 86

Poster and paper presentations reflecting the breadth and excellence of graduate student research

Lister Hall

Monday, March 10
9 a.m. - 4 p.m.

Activities

On 4 and 5 February, Sara Stambaugh was the guest of Goshen College, Goshen, Indiana. She spoke to students of history and English on "Point of View in *I Hear the Reaper's Song*" and addressed the Mennonite Historical Society on "The Novel as Social History." A third talk, to the student body, was titled "Contexts and Mennonite Backgrounds" . . . Debbie Shogan was recently chosen as one of the coaches being honored under the Canadian Olympic Association's Coaching Recognition Program . . . Tom Bessai, a second-year Arts student, has been named to the Canadian Track & Field National Team. He will compete in the world cross-country championships in Switzerland on 23 March . . . Karol Krótki, University Professor/Sociology, in his capacity as Vice-President of the Academy of Humanities and Social Sciences of the Royal Society of Canada, attended the annual regional symposium of the Society at the University of British Columbia. He presented the paper "Early Results from the First All-country Fertility Survey in Canada."

Currents

International Papers

The International Student Centre is now receiving the *China Daily*. The Centre receives the New York edition, which is transmitted by satellite to the printers in New York and published on the same day as the Chinese edition.

China Daily competes for space with many other publications from around the world, including the *Manchester Guardian*, *India Today* and *West Africa*. The Centre is at 11023 90 Avenue.

Communicating With Others

The Extension Faculty is presenting courses this term that deal with interpersonal communications in the areas of public speaking, overcoming shyness, and assertion training. For further information or a brochure, telephone 432-5069.

Teaching Opportunities Overseas

The Office of the Associate Vice-President for International Affairs (3-12A University Hall, 432-3213, 432-2280) is interested in receiving the names of anyone wanting to learn of teaching opportunities overseas, particularly the Asia/Pacific region. Currently, two institutions in China (one in Xian, one in Beijing) are seeking candidates to teach Canadian/American literature, and English language. Candidates should have at least a Master's degree and teaching experience.

University Toastmasters

With the exception of a supper meeting (6:30 to 9:30 p.m.) on the first Wednesday of the month, University Toastmasters meet each Wednesday from noon to 1 p.m. in 1-20F Cameron Library. Guests welcome. For more information, telephone Mark, 432-3308.

Workshop on Journal Writing

A Progoff Intensive Journal Workshop on Journal Writing will be conducted on 22 and 23 March in the 10th floor lounge, Education South. Times are 9 a.m. to 4 p.m. daily.

Therese Craig will be the instructor for the Department of Secondary Education-sponsored workshop.

Attendance is limited to 30 people. There is a fee of \$30 for materials which must be paid in advance at time of application for registration.

Application forms are available from Secondary Education, 338 Education South.

Folio

Display Advertising

Folio is the official news publication of the University of Alberta, published every Thursday throughout the year (except for July and August when it appears bi-weekly). It has a regular distribution of 9,000 of which 7,800 copies are circulated to teaching and support staff, to graduate students and to other interested people on campus. The remaining copies are sent to provincial and municipal government personnel, news outlets, and businesses and people off-campus.

Sizes and rates

The basic unit size is 27 agate lines x 23 picas (3 7/8" x 2"). The full page is divided into 10 such units, any combination of which is available at a cost of \$35 per unit (minimum 1 unit). Half page cost: \$175. One column cost \$87.50. There is a 15% discount for University departments. A 10% discount is offered for five or more consecutive insertions.

Other specifications

Half-tones (100-line screen or less) are acceptable; no color or bleeds. Camera-ready copy is necessary; there is a charge of 30c per word for typesetting, and \$7.50 for adjustment of design work.

Deadlines

Deadline for submission is 3 p.m. one week in advance of desired publication date. Acceptance of advertisements and positioning are at the discretion of the Editor.

For more information, telephone (403) 432-2325 and ask about *Folio* display advertising, or write to: *Folio* Display Advertising Office of Public Affairs 423 Athabasca Hall University of Alberta Edmonton, Alberta T6G 2E8

Focus on Land of Rising Sun

Thanks largely to the generosity of the Consulate-General of Japan in Edmonton, the Department of East Asian Languages and Literatures, with the cooperation of the Departments of Anthropology, Geography, History, Religious Studies, and Organizational Analysis, and the Advisory Council on Women's Studies and the Women's Program, is pleased to present a series of lectures and an evening of films under the title "Japan: Tradition to High-Tech."

The invited lectures will cover a broad range of topics as the speakers come from a wide variety of backgrounds. H. Tanaka, University of Lethbridge, has expertise in two disciplines. His first love is cultural geography with a particular interest in pilgrimage. However, he is currently teaching in the School of Management specializing in Japanese management with a specific concern for the use of robots in the workplace. His lectures reflect his diverse interests. On 12 March at 3 p.m., he will give a slide lecture on "A Japanese Buddhist Pilgrimage: 1,400 kilometres on foot around the Shikoku Island." The next day at 3:30 p.m., he will present "The Robot Age is upon us: what we can learn from the Japanese experience."

P. Tsurumi of the University of Victoria has published extensively in the fields of Japanese colonialism and the education of the Meiji

period (1868-1912). Her current research involves the history of Japanese women. She will speak on a topic of general interest, "Japanese women: past and present" at 8 p.m. on 13 March.

A. Yano of the Osaka University of Foreign Studies is a visiting researcher with the Department of East Asian Languages and Literatures. She is studying the differences in the way Japanese culture is taught outside Japan compared to how it is taught in Japan. Her topic, "Mother-image in

Japanese society," addresses a key aspect of Japanese culture.

J. Kupczyk, a newcomer to Edmonton, began his studies of Japanese language and culture at the University of Warsaw and has done extensive research on Japanese literature and music at Tokyo Geijutsu Daigaku (Tokyo University of Fine Arts). His talk, "Högaku: Traditional Japanese music," will introduce the various instruments of traditional music by playing sample recordings of the various styles from 9th century

court music to more recent folk songs. Both Prof. Yano's and Mr. Kupczyk's lectures will take place on 14 March (3 to 5 p.m.).

The lecture series will be completed with an evening of films on 14 March. The titles are "Hand-made Japanese Paper," "The Miracle of Tsubosaka Temple" (a Kabuki play), "Manga: The Cartoon in Contemporary Japanese Life," and "High-Tech in Japan." All events are free. See the "Talks" column in this issue for details of time and place. □

Faculty of Extension Shaping Summer Youth University

The Faculty of Extension is going with the flow. Last year's initial Summer Youth University (SYU) was a certifiable success and enquiries about this summer's offerings have started already.

Extension's Maryanne Budnitsky says SYU '86 is an expanded program with three Arts and Science programs and an intensive program in computing science. The topics scheduled combine daily classes in the morning with an athletics program emphasizing life-style fitness in the afternoon, topped off with a recreational swim. (The program is structured in cooperation with the Department of Athletics' Summer Sports Camps.)

The Arts and Science program will be run from 7 to 18 July, and will be repeated 21 July to 1 August. The program is open to students in grades 8 to 12.

The computing science segment will be limited to students in grade 12. Two levels covering basically the same content will be offered. Level 1 (7 to 18 July) is for students with little no computer experience. Level 2 (21 July to 1 August) is for students with some previous experience.

Each of the three Arts and Science programs will contain four of the following subjects: English, Music, Psychology, Genetics, Microbiology, Physics, Animal Science, Geography, Law, Family Studies and Vertebrate Biology.

Registration is limited. To secure a place, pre-registrations will be accepted. Detailed brochures containing registration forms will be available on 1 April, at which time general registration will begin. □

'Greek Evening' at CMI Meeting

12 March is "Greek Evening" for purposes of a meeting of the Edmonton Chapter of the Canadian Mediterranean Institute.

The program will include the film "In Search of Ulysses" (with an introduction by J.R. Wilson of the Department of Classics) and a performance of Greek dances by the

Kyklos dancers. This will be followed by a social gathering at which some Greek refreshments will be served.

Tickets are \$5 each. The meeting will start at 7:30 p.m. in the auditorium of the Provincial Museum. □

Competitive Employment for Disadvantaged Adults Objective of PWI Program

Steven Dennis, Thomas Ebert and Donald Bevan, Honorary Assistant Professors with the Department of Occupational Therapy, Faculty of Rehabilitation Medicine, were recently awarded a \$50,000 grant under the Job Development Program of Employment and Immigration Canada.

Wheels started turning on 3 March. The money is being used to develop and assess the feasibility of an innovative program which entails training in industry, work experience and competitive job placement for severely employment disadvantaged persons. The program, titled "Projects With Industry" (PWI), is unique in Canada. It is a model founded on a partnership between government, business and rehabilitation service providers, merging their respective resources toward the achievement of a common goal—competitive employment for the disadvantaged adult. In addition to the partnership

feature, the PWI model emphasizes a community-based, as opposed to an institution-based, service delivery system, and its major focus is on job training and job placement.

The initial program development will be conducted at Western Industrial Research and Training Centre (WIRTC) in Edmonton and will be targeted toward individuals who are employment disadvantaged by reason of a mental disability, psychiatric disability or related handicapping condition. Upon successful completion of the development phase, Projects With Industry will be eligible for \$1 million in operational funds over a three-year period.

Mr. Ebert is currently the President of WIRTC, Dr. Dennis is Vice-President of Research, and Mr. Bevan is Vice-President of the Program Division. □

FSIDA Allocations Have Company

Three projects recently received word from the Fund for Support of International Development Activities (FSIDA) that the Alberta Agency for International Development has, through its matching grants program, agreed to augment funds already approved by FSIDA. Amy Zelmer, Associate Vice-President (Academic), received \$4,683, in addition to a \$5,000

FSIDA grant, for an enrichment program of Bangladesh libraries; L.A. Kosinski, Geography, was awarded \$2,972 for a project concerning population redistribution in China; Carl Urion, Native Affairs, for his work in the area of instruction of secondary-level teachers in Belize, was granted \$1,728. □

Librarians Working to Support Library Service in Nicaragua

A number of librarians in Edmonton are coordinating a project to raise funds to support library service in Nicaragua.

The project concerns the purchase and shipment to the National Cataloguing Centre of Nicaragua six copies of the Spanish Language subject headings, *Lista de Encabezamientos de Materia para Bibliotecas* 2nd edition, 1985 (LEMB II).

The National Cataloguing Centre of Nicaragua orders, receives, catalogues and distributes library materials to the National Library and 46 public libraries throughout the country. There are six cataloguers who require copies of LEMB II.

The Government of Nicaragua has placed a high priority on the creation of libraries and improving the literacy of the people. However,

funds available for the purchase of library materials are limited.

Maryon McClary, on leave from the Herbert T. Coultts Library, is currently working for the National Cataloguing Centre of Nicaragua. She has suggested the subject headings project as one that would be of very real and practical value to her colleagues in Nicaragua.

It is estimated that \$1,500 (Canadian) is needed to purchase and ship LEMB II to Nicaragua. It is hoped that this will mark the beginning of an on-going program

of Canadian support for libraries in Nicaragua.

Donations for the subject heading project are being accepted through Tools for Peace, a volunteer, non-profit organization working to send aid to Nicaragua.

If you would like to support this project, send your donation to: Library Project, c/o Neil Campbell, Law Library. Make cheques payable to "Tools for Peace—Library Project."

All donations over \$15 will receive a tax receipt. □

Alison Jaggar to Lecture on Behalf of Advisory Committee on Women's Studies

Alison Jaggar, Wilson Professor of Ethics, University of Cincinnati, is on campus as Distinguished Guest Lecturer. Professor Jaggar is the final speaker in the Women's Studies Lecture Series, which is sponsored by the Vice-President's (Academic) Advisory Committee on Women's Studies and the Faculty of Arts.

Alison Jaggar obtained her PhD in Philosophy from State University of New York at Buffalo, and in 1982, became a Professor of Philosophy at the University of Cincinnati. She was the first occupant (1984-85) of the New Jersey state-endowed chair in Women's Studies at Douglass College, Rutgers University. She is the author of *Feminist Politics and Human Nature* and co-editor with Paula Rothenberg of *Feminist Frameworks: Alternative Theoretical Accounts of the Relations Between Women and Men*. Professor Jaggar is

also the author of numerous articles which have appeared in such journals as *Philosophy and Phenomenological Research*, *Social Theory and Practice* and in the books *Feminism and Philosophy*, and *Readings in the Philosophy of Sex*, to name a few.

Professor Jaggar will give a public lecture ("Women: Different but Equal") on 12 March (7:30 p.m., L-1 Humanities Centre). In this talk, which is co-sponsored by the Women's Program and Resource Centre, Faculty of Extension, she will discuss the question of whether being equal means being the same.

The Advisory Committee on Women's Studies wishes to acknowledge the financial assistance provided by the Endowment Fund for the Future and the Secretary of State, Women's Program. □

Student Advisors Aim for Continuity

Advisors from across campus met on 26 February for the first of what will be bi-annual meetings to discuss the coordination of advisory services to students. Another objective of the meeting was to have each advisor explain to the others the areas of his/her responsibilities.

Approximately 40 people attended the sessions which included a discussion by Doug Langevin, Director of Campus Security, and Jim Robb of the Campus Law Review Committee, on the recent changes in disciplinary procedures on campus; and a review by Ellen Solomon, Coordinator, PACSH, and Anne McLellan, Director, PACSH, on the University's policy on sexual harassment and a comparison with

other Canadian university policies.

Participants also heard panel discussions on the levels of advisory exchange: level 1, advice and referral; level 2, responsible agent and coordination with other advisors; and level 3, formal hearing/appeal, designated official. The use of record keeping and the use of standardized record forms was also looked at, as was the development of a comprehensive advisory services brochure. The final agenda item dealt with an open discussion on the future coordination of advisory services and the publicizing of these services through seminars set up for other administrative and academic units on campus. □

Talks

Colloquia on Systems Research

6 March, 2 p.m. Humberto Maturana, University of Chile, "Autopoiesis." 5-15 Tory Building. Lectures are sponsored by the Center for Advanced Study in Theoretical Psychology, Sociology and Educational Psychology.

Business and Economics

6 March, 3:30 p.m. Michael Trebilcock, University of Toronto, "Adjustment Issues in Declining Sectors." 4-16 Business Building.

Medicine

6 March, 2:20 p.m. Forrest Weight, Chief, Laboratory of Preclinical Studies, NIAAA, Rockville, Md., "Ionic Currents in Excitable Membranes." 968 Medical Sciences Building.

7 March, 2 p.m. Dr. Weight, "Effects of Ethanol, Phenobarbital and Diazepam on Brain Metabolism." 932 Medical Sciences Building.

7 March, 2 p.m. Clifford Kay, Royal College of General Practitioners, Manchester Research Unit, England, "Oral Contraception Risk for Cancer and Stroke: The 1968-Initiated Cohort Study of 46,000 U.K. Women." 13-114 Clinical Sciences Building.

8 March, 8 a.m. L. Davis, "Investigation and Management of Back Pain." 5H202 Mackenzie Health Sciences Centre.

Computing Science

6 March, 3 p.m. Lorna Stewart, Department of Computer Science, University of Toronto, "Permutation Graph Decomposition." 619 General Services Building.

CITL

6 March, 3 p.m. Lyle Larson, "Teaching in Graduate Seminars." TB-W2 Tory Building.

11 March, 3 p.m. Charles M. Bidwell, "Promoting Participation in Large Class Lectures." TB-W2 Tory Building.

12 March, 1:30 p.m. John S. Martin, "Interactive Learning: Computer Dialogues, Simulations, and Games." 221 General Services Building.

13 March, 1 p.m. Luma Chernenkoff, "Computer Literacy." 349 CAB.

19 March, 2 p.m. Ron Kratochvil, "Instruction in Intermediate-Sized

Laboratory Science Courses." TB-W2 Tory Building.
20 March, 1 p.m. Don Massey, "Improving Instruction Through Video Taping." 165 Education South.

Physics

6 March, 3:30 p.m. L.F. Abbott, Brandeis University, "Stability and Instability of Scalar Fields Coupled to Gravity." P-631 Physics Building.

Literary Theory Series

6 March, 4 p.m. S. Neuman, "Importing Difference: Feminist Criticism and Canadian Women Writers." 5-20 Humanities Centre.

Entomology

6 March, 4 p.m. C.P. Abecia, "Population Development of the Acarine Fauna on Soybeans Grown in a Modified Grassland." TB-W1 Tory Building.
13 March, 4 p.m. J.F. Landry, "Systema Scythrididae Nearcticorum: A Modern Linnean Exercise on Forgotten Microlepidoptera." TB-W1 Tory Building.
20 March, 4 p.m. W.H. Wagner, Department of Botany, University of Michigan, Ann Arbor, Michigan, "A Comparison of Plant and Animal Cladistics." TB-W1 Tory Building.

Women's Program

6 March, 7:30 p.m. Zohra Husaini, "Making Visible the Reality of Immigrant Women." 120 Corbett Hall.

Advisory Committee on Women's Studies

7 March, 2:30 p.m. Alison Jaggar, "Further Discussion of 'Teaching Sedition.'" Location: 5-180 Education North.
12 March, 7:30 p.m. Alison Jaggar, "Women: Different But Equal." Co-sponsored by Women's Program and Resource Centre, Faculty of Extension, L-1 Humanities Centre.

Award Opportunities

Maimie S. Simpson Memorial Scholarship

The scholarship, to be presented for the seventh time in 1986, is in the amount of \$1,500. It will be presented by the Alumni Association to a full-time student who has attended the University of Alberta for at least the two previous years.

Criteria

1. The basis for selection will be the student's contribution to campus life and to the University of Alberta community.
2. The student must have a satisfactory academic standing and plan to continue studies at the University of Alberta.

Application forms and further information may be obtained from: University of Alberta, Alumni Affairs Office, 430 Athabasca Hall. Telephone: 432-3224.

Application deadline: 14 March 1986.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Edmonton Division Head, Faculty of Social Welfare, University of Calgary

The University of Calgary invites applications for the position of Division Head in the Edmonton Division of the Faculty of Social Welfare. The Division has a full-time faculty of eight and a student body of 130 in an accredited first professional degree program. Responsibilities of the successful applicant will include administration and leadership in all components of the program.

Appointment will be at the Associate Professor level and an MSW and doctorate are required. Preference will be given to a doctorate in social work. A background in administration and university teaching is desirable.

Appointment date: 1 July 1986.

Interested persons may call 432-3888 for further information.

A letter of application, *curriculum vitae*, and the names and addresses of three referees should be sent before 30 April 1986 to: Dr. Ray J. Thomlison, Dean, Faculty of Social Welfare, University of Calgary, 2500 University Drive, N.W., Calgary, Alberta T2N 1N4.

Assistant Professor, Faculty of Social Welfare, University of Calgary, Edmonton Division

The University of Calgary invites applications for the position of Assistant Professor in the Edmonton Division of the Faculty of Social Welfare. The Division has a full-time faculty of eight and a student body of 130 in an

accredited first professional degree program. Responsibilities of the successful applicant will include undergraduate teaching in human development and direct practice. Professional experience in the mental health field is desirable.

Appointment will be at the Assistant Professor level and possession of a PhD or DSW in social work is required. A graduate degree in social work and a doctorate in a related discipline will be considered if the applicant evidences outstanding research and practice experience. Demonstrated teaching experience is essential.

Appointment date: 1 July 1986.

Interested persons may call 432-3888 for further information.

A letter of application, *curriculum vitae*, and the names and addresses of three referees should be sent before 30 April 1986 to: Dr. Ray J. Thomlison, Dean, Faculty of Social Welfare, University of Calgary, 2500 University Drive, N.W., Calgary, Alberta T2N 1N4.

Department of Educational Psychology, Assistant Professor, Counselling and School Psychology Program

Applications are invited for a tenure track position at the Assistant Professor level with specific duties in counsellor education in an Educational Psychology context. Candidates must have a PhD or equivalent. Candidates must also have proven clinical skills plus the ability to formulate, design, conduct and report counselling research. Expertise in multivariate technique and longitudinal design would be a distinct asset. Only applicants who have documentable interest in issues pertinent to the counselling of women will be seriously considered. An eclectic perspective versus a narrow theoretical commitment is desirable. School-related experience and/or a teaching credential or eligibility for same would be an asset. Applicants should possess qualifications in an allied field such as school psychology or developmental psychology. Duties will accent teaching, clinical supervision, course development, and both master's and PhD thesis advisement.

The salary range for Assistant Professor is currently \$30,316 to \$43,780.

Closing date: 1 June 1986 or sooner depending upon quality and quantity of applicants.

The availability of this position is subject to funding approval.

Letters of application with *curriculum vitae*, article reprints, the names of three referees and records of relevant work should be sent to: Dr. H.W. Zingle, Chairman, Department of Educational Psychology, Faculty of Education, 6-102 Education North, University of Alberta, Edmonton, Alberta, Canada T6G 2G5.

Professor Catharine R. Stimpson
Director, Institute for Research on Women
Rutgers University
New Brunswick, N.J. 08903
USA

Dear Catharine:

On behalf of the Advisory Committee on Women's Studies, I would like to express our deep appreciation for your visit.

One of the Committee's tasks is to encourage Women's Studies on the campus. We have tried to do this by showing its intellectual stimulation. Your public lecture was a perfect illustration. Those of us whose fields are not literary criticisms particularly appreciated the lucidity with which you spoke.

As I mentioned to you, the Advisory Committee is at a critical point in our development of a program in Women's Studies. Your insights and questions about our proposal were of immense help. We benefitted; our future students will also benefit.

Again, thank you for your visit. We hope you will be able to come again.

Sincerely,

Dallas Cullen, Chair

Plans for 'Canada, the World and the Future' Continue to Mesh

These themes have been struck for the conference "Canada, the World and the Future": "Future of Canada" (10 March), "Canadian Culture — Is It?" (11 March), "Canadian Multinationalism and Social Responsibility" and "Ethics of Technology Change" (12 March), "The Medicine of the Future" (13 March), and "Mastering Space" (14 March).

"Future of Canada" consists of a morning and an afternoon session on the topic "Where is Canada Going?"

"Canadian Culture — Is It?" has the sub-themes "Cultural Sovereignty of Canada — Today and Tomorrow" and "What's So Free About Free Trade?"

Under "Canadian Multinationalism and Social Responsibility", the assembly will consider the topic "Canada and the Third World — Benevolence or Malevolence?"

"Ethics of Technology Change"

has as its sub-theme "Images of the Third Industrial Revolution."

"The Medicine of the Future" asks, in conjunction with the ethics of new medicine: "Have We Created a Monster?"

"Star Wars and Space Technology" is the subject to which people attending the "Mastering Space" session will turn.

The fourth annual "Canada, the World and the Future" conference is again structured as "a critical forum for the interdisciplinary examination of important issues."

Speakers continue to confirm their participation with conference organizers. The list of speakers who are locked into the conference includes Senator Philippe D. Gigantes, Toronto lawyer Rosemary McCarney, Edmonton Glengarry MLA Rollie Cook, Vancouver playwright John Gray, Beth Bryant of Alberta Culture, Mireille Ethier of the Economic Council of Canada, former MP Bill Yurko, Arthur

Schafer, Director of the Centre for Professional and Applied Ethics, University of Manitoba, and Harry Almond, Professor of International Law, National War College, Washington, D.C.

Faculty who will participate in the conference include Brian Scarfe and K.L. Gupta, Economics; H.P. Baltes, Electrical Engineering; Ellen Picard, Law; and Larry Pratt, Political Science.

Selected members of the University community will also chair the various sessions.

Each keynote speaker will give a 25 to 30-minute talk and the rest of the session will be taken up by questions from the floor and each speaker's response to the comments of the other speakers.

The conference will not go heavy on structuring. Organizers wish to encourage a spontaneous approach, that is, the more said the better. Audiences will undoubtedly be familiar with the issues and there

Senators to Elect New Chancellor

On 28 February, Senate members will be electing a new Chancellor. The term of the current Chancellor, Peter Savaryn, expires on 30 June.

Other items on the Senate agenda include reports from Mr. Savaryn, President Horowitz and the Executive Officer of Senate, Mary Totman. The honorary degree recipients at Spring Convocation will be announced and Art Burgess, Coordinator, Staff Fitness Program, will introduce Senators to the smorgasbord of courses offered by the Staff and Fitness Lifestyle Program.

Following lunch in the Heritage Lounge, Athabasca Hall, Senators will reconvene in the Council Chamber, University Hall, to hear presentations concerning the Boreal Institute for Northern Studies and the new four-year BA and BSc programs.

All interested persons are invited to attend the Senate meeting. It will start at 9:30 a.m. in the Council Chamber, second floor, University Hall. □

will be ample opportunity for questions and comments from the floor.

All sessions are open to the public. They will be held in Bernard Snell Hall, Mackenzie Health Sciences Centre.

In the evening of 13 March, various ethnic dances will be performed in Convocation Hall. There will also be music and poetry, both bearing a decidedly international flavor.

Further details on the conference will be published in the next two issues of *Folio*. □

'Natives and Criminal Justice System'

Leading Canadian experts and practitioners are set to participate in a one-day "Natives and the Criminal Justice System" symposium to be held at Lister Hall on 26 February.

Sponsored by the University's Centre for Criminological Research, Native Counselling Services of Alberta and the Native Students' Club and the Solicitor General Canada as part of Native Awareness Week on Campus, the symposium will address many of the key issues surrounding the overrepresentation of native peoples in the criminal justice system.

The 9 a.m. session will deal with a variety of these issues and will

feature a keynote address and a response from a panel of experts, including Kathy Louis, Senior Member, National Parole Board; Wilf Cunningham, Native Program Co-ordinator, Drumheller Penitentiary; and Wilton Goodstriker, Chief of Protection Services, Blood Indian Band. Following this response, Chester Cunningham, Executive Director, Native Counselling Services of Alberta, will present summarizing remarks and lay out a series of proposals for dealing more effectively with the native crime problem.

The afternoon session, which starts at 1:30, will address the

emerging issue of the role of native culture in the fight against crime. Joe Coutiere, Co-ordinator of Psychology at Athabasca University, will speak on "Native Culture and its Role in the Criminal Justice System" and a panel of elders and experts, including Joe Cardinal, Rufus Goodstriker and Amanda Golasky, will respond.

Peter Nicholson, Director, Young Offenders Programs, Alberta Solicitor General, will deliver summarizing remarks and an overview of the Province's response to the problem of the native young offender at 4 p.m. A social will follow.

The symposium is free of charge. □

New BA Degree Steeped in History

Last September, General Faculties Council approved a proposal by the Faculty of Arts for a four-year BA (General) degree program, to be effective in the academic year 1986-87. The Faculty "sought to recognize the primary objective of the general degree as being not to produce specialists in a narrow sense, but to produce graduates who have the capacity to make themselves competent in any area in which they find themselves working—often between fields or between specialists and non-specialists.

"We are not seeking to produce narrow technical specialists, but those with the now much rarer skills of literacy, self-understanding, and understanding of others that is not merely knowledge of manipulative human engineering techniques."

"This curriculum revision," said the Dean of Arts, "is matter of great importance to our Faculty, in that it represents the results of an enormous amount of energy and work in assessing our current program, as well as developments at other universities."

Fred Radford, Assistant Dean of Arts, was instrumental in the preparation and advancement of the proposal. He contributed the following article.

History

In October 1985, the Board of Governors gave final approval for the phasing out of the three-year BA (General) degree and its replacement with a four-year degree program. This was the last stage of a long trek that began in 1943 when the then combined Faculty of Arts and Science first voted to replace the three-year BA and BSc with four-year degrees, in agreement with a strong recommendation from the Alberta Teachers' Association. The Faculty decided to hold off further action until staff members then in the Armed Services had returned. The War ended, but more than staff members returned, and the University entered decades of struggle just to keep pace with multiplying enrolments in the existing programs.

In 1960, the Hardy Committee Report urged once again the change to four-year degrees. In 1963, the Faculty divided into separate Science and Arts Faculties and both entities continued to strive to force four years of learning into three years of program. Given the expansion in knowledge in these years, the degree of success was remarkable, but there was a growing sense that valuable program initiatives and desirable curriculum improvements could not be fitted

into the short degree period. The Moore Committee Report of 1970 led to the introduction of the four-year BA (Special) as "an interim and transitional measure" whose graduates in the following years helped prove the worth of a four-year program.

In the meantime, the University of Calgary attained independence and abandoned the three-year degree, while the University of Lethbridge was established without three-year degrees. The pertinent Calgary report remarks that "The Committee finds that no matter how the courses are combined and arranged, it is impossible to arrive at the desired results in less than four years." (Curriculum Committee Report, April 1968, p. 5.)

Not until 1980 did conditions seem right for the Faculty of Arts at the University of Alberta to reconsider the matter. In that year, the Curriculum Committee put to the Arts Faculty Council a proposal of general principles for a four-year general BA program, and these principles were overwhelmingly approved.

At the same time, the Faculty of Arts decided to make an exhaustive overhaul of the curriculum, with the intention that the new degree should have one of the best Liberal Arts programs in North America. Graduates of existing programs were surveyed; the degree requirements at other universities were examined; and all departments of the Faculty were invited to contribute proposals for their areas and for the program in general. The Radford Committee, which produced the draft of the proposed new curriculum, had representatives from all divisions of the Faculty, as well as strong student representatives who contributed vigorously to the process, and influenced its results. A first draft curriculum was circulated to all departments and radically amended in response to criticisms and suggestions. The final draft was debated, dissected, revised, and approved in many hours of meetings of the entire permanent academic staff of the Faculty of Arts.

By 1985, the Faculty of Science was ready with a joint proposal and Dean T.H. White took the new Arts BA program successfully through the Planning and Priorities Committee, the Academic Development Committee, Graduate Faculties Council Executive and Graduate Faculties Council, to approval by the Board of Governors of both the four-year BA and the four-year BSc in October 1985.

The BA Degree

The new four-year BA degree will replace the existing three-year BA (General) and four-year BA (Special). Students already enrolled in the old programs will have until 30 April 1994 to complete their degrees under current regulations. Honors degrees and specialized Fine Arts and Music degrees, as well as special degrees in Canadian Studies, Criminology, and East Asian Studies, shall continue to be offered along with the new BA program. Students at Alberta colleges with which the University has transfer agreements will have the same option to complete their BA (General) or BA (Special) degrees under existing requirements, by April 1994, providing they have entered the programs before May 1986. Beginning with Spring Session, 1986, students with no post-secondary transfer credits will enter the new program.

The new four-year BA program is designed to make the best use of the student's developing knowledge and experience. The first two years consist mainly of a Core Program that will give basic skills and knowledge in many fields. Students will take English, a second language, history or philosophy, humanities courses, social science courses, fine arts courses, natural science courses, and courses in formal studies (logic, mathematics, linguistics, statistics, computing sciences). The choice of courses will be restricted to approved lists, ranging from specifically required courses to area requirements permitting a choice from several disciplines.

For example, because the Arts Faculty believes that students in first-year English benefit especially from consistent instruction that builds skills and instructor/student rapport, students may only choose one of the full-year courses, English 200 or 210, for this requirement. Conversely, students taking courses from the second Social Sciences requirement will normally have already taken one year of a basic Social Science, so the Faculty believes they should be allowed to range fairly widely for the second Social Science. They may choose from some 25 full-course equivalents of approved courses in 11 disciplines, to satisfy this requirement.

A special subcommittee consulted with the Faculty of Science to devise a science requirement appropriate for our technical age. Students will be required to take

one full course of an approved laboratory science; a half-course of formal studies; and a further half-course of either science or formal studies, or a half-course in the history, methodology and philosophy of science and technology.

After completing the Core Program, students will be in the best position for specializing in their preferred discipline and for choosing more freely among optional subjects. Building on the broad foundation laid in the first two years, students will take from five to seven senior courses in their Major Subject of Concentration. Two of these full-course equivalents must be taken at the 400-level, where students will be expected to make a more independent contribution to the work of the course. Instead of a specified number of courses for a second Concentration, students are simply required to take one course at the 400-level in another area than their Major Concentration. This will require completion of the necessary prerequisites in a second field.

Depending on how many courses are taken in the Major Concentration, and how efficiently the student satisfies the prerequisites for the second subject in the first two or three years, there may be room for four or five full-course equivalents of options in the last two years of the program. Thus, the student who completes the program should be enough of a specialist to have researched one or more subjects in some depth, with a good measure of independent work, and enough of a generalist to be able to transfer specialized skills to many areas of learning and experience. In other words, the graduate of the new four-year general BA program should be as well-equipped as possible for our world of perpetual change.

At present, the departments of the Faculty of Arts are busily engaged in the hard work of preparing to implement the new program. As always in such large projects, there is much difference between approving new plans and making them work in practice. It is the individual departments of the Faculty and their students who will finally decide the success of the new BA degree. Their hard work and cooperation so far give ample reason to expect that our BA graduates four years from now will be among the best prepared on the continent. □

Next: The four-year BSc (General) degree program.

In Pursuit of Excellence

by Hugh Wilson, Department of History

I wish to draw attention to a regrettable lack of unanimity on the part of members of the academic staff. Some colleagues—whole departments even—have declined to participate in an intramural competition designed to enhance the image of our University in the eyes of the province-at-large and to promote outstanding performance in the classroom. I refer, of course, to the Rutherford Awards for Excellence in Undergraduate Teaching.

Readers will be familiar with the methods of selection of appropriate recipients of this prestigious accolade, such methods including an assessment of the extent and depth of the nominee's knowledge of his/her subject derived from student opinion (who better qualified to make such an evaluation than beginners in the field?); and the esteem in which the candidate is popularly held. Notwithstanding the unexceptionable nature of these objective criteria, there are some few arrogant individualists among us who, by refusing to enter into the spirit of this entertaining peer-rivalry, threaten to undermine its laudable purposes. In order to overcome such uncollegial attitudes, I propose the following minor amendments to the competition guidelines.

1. There is an anomaly in the award of four prizes of equal value. The underlying principle of the competition is that, although many teachers are excellent, some are more excellent than others. It follows that one must be ahead of the others. This hierarchy of excellence must be acknowledged by the award of gold, silver, and bronze medals, as is customary, with certificates of qualified excellence for the runners-up.
2. Nominations will be unnecessary; any instructor may enter of his/her own volition.
3. All competitors shall present, in open forum, an exemplary lecture, which the audience will be invited to judge, either by volume of applause or by secret ballot (*vox populi vox Dei*).
4. The model lectures will be followed by a parade of all contestants, suitably attired, to demonstrate poise, composure, deportment, and general elegance (provocatively suggestive or revealing apparel will disqualify).
5. Finalists will be required to answer correctly a skill-testing question.

If these amendments are adopted, can one doubt that the reluctant minority will be persuaded to set aside their objections, the enhanced image of collegial harmony being reward enough for sacrificing their principles to the greater glory of the intellect? But should further argument be required, one need only point to the splendid, innovative ideas that have resulted from this entertaining diversion, even in its present imperfect form, since its inception some four years ago. We have all been inspired to greater effort by the advice of one former recipient, who informed us that a good teacher is born with a love of teaching and loves his students as individuals and individually: "I am father, mother, sister, brother and friend to them," he is reported to have said (*Folio*, 25 April 1985). Clearly, colleagues who hitherto have considered desirable the maintenance of some distance between teacher and student must reconsider their narrow, anachronistic prejudices.

Another ingenious idea to have emerged from this University's search for excellence is that of "breaking the ice" with new students by means of "brightly colored jellybeans." The award-winner to whom credit must be given for this practical suggestion is reported to have explained: "I don't care for jellybeans myself, but they are a good conversation piece . . ." (*Folio*, 2 May 1985). And, one might suppose, an obvious stimulant to intellectual enquiry.

Since, at present, each of four award-winners receives a cheque for \$2,500, it is clear that for the paltry annual expenditure of \$10,000 our University is receiving benefits of inestimable value in terms of an improved public image and an inspired, enlightened teaching staff. Indeed, I would urge that serious consideration be given to an increase in the cash value of the award. After all, such funds might otherwise be dissipated on the purchase of Library subscriptions to learned journals, the encouragement of literacy, the promotion of excellence in scholarship, or some other equally archaic indulgence.

Let's all pull together in this worthy cause! □

They 'Stooped' to Conquer

Money changed hands shortly after Students' Union Vice-President (Internal) Scott Richardson (bottom left) arrived at the International Student Centre (ISC) on 4 February. With Students' Council overwhelmingly backing a proposal to contribute \$12,000 to the ISC, Richardson was more than happy to carry out the assignment. ISC staff, Dean of Students Peter Miller, and International Student Advisor Wilf Allan welcomed Richardson. Barry Tonge, Director of the 15-month-old Centre, said a priority will be to update library materials. Upwards of 1,600 students representing 98 countries exclusive of Canada are studying at this University.

Drug Targeting Advances Subject of Conference

A number of researchers in or associated with the pharmacy and pharmaceutical sciences discipline will gather for a day to discuss "Advances in Drug Targeting." The day in question is 24 February, starting at 9 a.m. The conference will be held in TBW2 Tory Building.

Following opening remarks by Lionel McLeod, President of the Alberta Heritage Foundation for Medical Research, participants will listen to such speakers as A. Sinkula, Director of Pharmacy Research and Drug Delivery,

Upjohn Company, U.S.A.; Mark Poznansky and Erwin Diener of our University's Faculty of Medicine and Department of Immunology, respectively; and T. Ghose of Dalhousie University's Faculty of Medicine.

From 3 to 4 p.m., an open forum and discussion will take place. The speakers will be T. Noujaim, J.A. Rogers and M. Longenecker; Ron Micetich will be the moderator.

Concluding remarks will be delivered by John Bachynsky. □

Tour Arranged to Observe Practice of Traditional Chinese Medicine

East is east and west is west and in the practice of medicine they are poles apart and seldom meet. Where eastern medicine uses a philosophical and holistic approach, western medicine takes a scientific view combined with the use of drugs.

Stephen Aung, who is trained in both eastern and western medicine, would like to build a bridge between the two styles. He finds the eastern approach valuable in pain control and especially useful for patients who suffer from tension, sleeplessness and energy imbalance—conditions he says western medicine is not able to handle satisfactorily. Acupuncture, hypnosis, magnetic therapy, and color therapy are all part of Dr. Aung's practice.

With appointments in the Faculty of Medicine, the Cross, the Youville Wing of the General Hospital and at the Misericordia, as well as a practice in family and geriatric medicine, Dr. Aung finds himself, after only

two years in Edmonton, already overwhelmed with patients. "There is obviously an interest in eastern medicine and a need for it," he says, "but there are not enough practitioners to meet the demand."

To interest western doctors in alternative medicine and to give them an opportunity to learn about it by watching it in action in Chinese hospitals and research institutes, Dr. Aung has organized a medical study tour to China. On the "Golden Road to Golden Needle" tour members will visit hospitals in Guangzhou and Shanghai, a university department of research in acupuncture analgesia, and colleges of traditional Chinese medicine. The group will observe the practice of acupuncture anesthesia for thyroidectomy; traditional Chinese medicine in psychiatry, orthopedics and medicine; acupuncture anesthesia in neuro and abdominal surgery; the clinical application of herbal medicine; and various methods of

pain control, to name only a few items on the long itinerary.

In the East, a healer does not have to be a physician and Dr. Aung feels that even people with no medical training who are interested in the subject would enjoy the tour, which includes sightseeing as both a minor and a major component. Tour dates are 13 May to 2 June.

For more information, call 425-9723 or 426-1095. □

Reports

5. Executive Committee Reports
- 5.1 Executive Committee Minutes of 20 January 1986
- 5.2 Executive Committee Minutes of 3 February 1986
- 5.3 Executive Committee Minutes of 17 February 1986
6. Report of the Board of Governors
7. Report of the Nominating Committee *New Business*

9. Council on Student Services (COSS): Annual Report 1985
10. Selection and Review Procedures for Deans and Chairmen: Proposal from the Faculty of Engineering
11. Other Business

For information concerning this agenda, or any items which may have been added to it at the GFC Executive Committee meeting of 17 February 1986, members of the University community may telephone the Secretary to GFC (432-5430).

Computing Science Open House

The Department of Computing Science will hold Open house '86 on Saturday, 22 February. The event is scheduled for 11 a.m. to 5 p.m. on the second floor, General Services Building.

Physical Sciences Library Open House

There will be an orientation and open house in the Physical Sciences Library on Wednesday, 26 February, from 2 to 4 p.m.

The occasion allows people to acquaint themselves with the location of the Library (72-74 Chemistry WB) and the content of the collection.

A demonstration of DOBIS (the online catalogue) will be provided as will a brief overview of the COM and card catalogues.

Refreshments will be served courtesy of the Sci.Tech. branch staff. Everyone welcome.

General Faculties Council

GFC's next meeting is scheduled for **Monday, 24 February, at 2 p.m.** in the University Hall Council Chamber.

1. Approval of the Agenda
2. Approval of the Minutes of 27 January 1986.
3. Question Period
4. New Members of GFC 1985-86

Activities

M. Stock, a recent graduate in the Department of Zoology, was the recipient of the "Canadian Society of Zoologists Outstanding Thesis Award" for 1985 . . .

Théâtre à la Carte, a troupe from Faculté Saint-Jean, participated as guest of honor in the 1st Festival of Theatre Schools of Europe (FETE). The Festival was held at Alès, France, 17 to 24 January. The French-Albertan troupe, under the direction of **Pierre Bokor**, performed Michel Tremblay's play "En Pieces Detachees" and participated in workshops, exchanges and meetings. The troupe was awarded the Special Prize of the Jury and later received an invitation to take part in the IXth World Festival of Young Theatres scheduled for 30 June to 7 July at Bratislava, Czechoslovakia . . . **Lorna Arndt** is the new Special Sessions/Convocation Coordinator, Office of the Registrar . . . University Professor **L.C. Green** is a member of the advisory committee for the Canadian Conference on Nuclear Weapons and the Law to be held in Ottawa.

Donald Murray Ross, 1914 - 1986

Donald Murray Ross, PhD, DSc, FRSC, died on Thursday, 13 February, in the University of Alberta Hospital. He is survived by his wife, Ruth, son Andrew and daughter Mary Beebe.

Dr. Ross was born in Sydney, Nova Scotia, in 1914. He received his BA in Biology from Dalhousie University in 1934, at which time he won the Governor-General's Gold Medal and the Avery Prize. Following an MA from Dalhousie, he was an 1851 Exhibition Science Research Scholar at Cambridge from 1937 to 1940. Dr. Ross was a Research Officer in the School of Agriculture at Cambridge, then a Lecturer in University College, London. In 1961, he came to Edmonton to head the Department of Zoology at the University of Alberta. In 1964, he became Dean of the Faculty of Science, a post he held until 1976. He became Professor Emeritus in 1979.

Donald Ross led the Faculty of Science through its period of greatest growth to its international position of respect as a community of scholars of remarkably high standard. He did this by example, for he remained active as a scientist and teacher throughout his period as an administrator and into retirement. He was a popular and respected Dean, by virtue of the reasonableness of his administrative actions and the persuasiveness of his personality.

Publication of research results began early, while still an undergraduate, and continued until the present with more than 80 publications. His major research interest was in the behavior of marine invertebrates, in particular with the interrelationship of sea anemones with their hermit crab hosts. He showed how the anemones and their hosts have co-evolved amazingly complex

behaviors that are mutually dependent. From these studies he developed a general interest in symbiosis (how different species live together). The 1950s was a period when the field of comparative physiology enjoyed considerable attention, mostly due to the work of some very talented young biologists in Britain. Don Ross was very much a member of this group, and his interactions with them led him to be convinced that an understanding of physiological principles could be obtained by examining the ways animals are uniquely adapted. He studied the behavior of sea anemones using many techniques besides the objective observations required by modern ethology. For example, he was a pioneer in using pharmacological techniques in an attempt to identify the neuro-transmitters used by sea anemones, and with Ian Lawn he used electrophysiological methods to describe how the nervous system controls behaviors such as detachment and swimming.

Dr. Ross was particularly adept at cinematic recording of the behavior of his animal subjects. By such means he was able to arouse great interest in the often spectacular behavior of seemingly passive animals in the presence of predators, prey or symbionts. His films were selected for presentation at Expo 67, and won prizes at

competitions in Italy, Australia and Hungary.

Many other awards came to Donald Ross. Among these were the Queen's Jubilee Medal, 1977, and the Fry Medal of the Canadian Society of Zoologists in 1980.

It may seem strange that study of marine organisms was undertaken from Alberta, but, in fact, Zoology at the University of Alberta has developed a strong and growing reputation in marine biology following his example. An accomplishment of which Don Ross was especially proud was the establishment of the Bamfield Marine Station on Vancouver Island. He presided over its funding and early development. An old Trans-Pacific Cable terminus and 180 acres of land at Bamfield have been developed since 1970 into a major marine research station, supported by two Alberta and three British Columbia universities, as well as the Natural Sciences and Engineering Research Council of Canada. It attracts researchers from around the world and is instrumental in training marine scientists for Canada. The cooperative interaction at Bamfield is a monument to an innovative and imaginative scientist. Donald Ross will be sorely missed by co-workers from many countries, as well as by his friends and associates at the University of Alberta. □

Ursula Franklin a Guest of WISEST

"What Women Really Want: An Explanation Especially For Men" is one of the topics to be addressed by Ursula Franklin, a distinguished scientist, when she visits campus as a guest of WISEST (Women in Scholarship, Engineering, Science and Technology) from 27 February to 2 March. She will also describe the work of her own group in the Department of Metallurgy at the University of Toronto in a talk titled "The Role of Scientists and Scientific Studies in Art, Archaeology and Conservation." Dr. Franklin will speak on Thursday, 27 February, in E3-25 of the Chemistry Building at 7:30 p.m. Her talk is sponsored by the Chemical Institute of Canada. Everyone interested is invited to attend.

On 28 February, Dr. Franklin will

hold an informal talk, especially for men, on what women really want and what male colleagues stand to gain when they get it. This will be at 4 p.m. in E3-25 Chemistry Building.

"How to Get From Here to There" is the title of a workshop to be conducted by Dr. Franklin on Saturday, 1 March, in 235 Central Academic Building, from 10 a.m. to 3 p.m. The workshop is designed for female undergraduates, graduate students and professionals in the sciences and engineering. It will provide practical advice, and will include a discussion of the structure of science as currently practised and of direction for change in the structure of academic enquiry. □

Food Services Division Wins Award

The Food Services Division of Housing and Food Services—which is contracted out to Saga Canadian Management Services Limited—has won the 1985 Award of Excellence, presented by the Saga Corporation.

Each year, Charles Lynch, CEO and Chairman of the Board of Saga Corporation, chooses one account in each division of the company to receive his award of excellence. A plaque was presented in December by Jack MacDonald, President, Saga

Canadian Management Services Ltd., to David Bruch, Director, Housing and Food Services, and Alan Rennie, Associate Vice-President (Administration).

According to Larry Llewellyn, Food Service Officer, "the award is presented not only to the Food Service Management but especially to the staff and administration of the University because without their support Saga could not be successful." □

Catharine Stimpson Lecturing on 'Meanings of Feminist Criticism'

Catharine Stimpson is well-known for her work in two fields: English, and women's studies. She is both Professor of English and Director of the Women's Research Institute at Rutgers University. Ms. Stimpson is the fourth speaker in the 1985-86 Women's Studies Lecture Series, which is sponsored by the Vice-President's (Academic) Advisory Committee on Women's Studies and the Faculty of Arts.

Catharine Stimpson is the author of numerous papers and essays and has written one novel, *Class Notes*. She is currently at work on a second novel, *Suffer the Little Children*, as well as on a critical study titled *Gertrude Stein and the Replacing of the Avant-Garde*. Ms. Stimpson is also the founding editor of *Signs: A Journal of Women in Culture and Society*, a scholarly, multidisciplinary publication. She has served on the editorial boards of

several feminist publications and frequently reviews manuscripts for a number of publishing houses and presses. Since 1981 she has headed the Ms. Board of Scholarship, Research and Education. In her career as a Professor of English, Stimpson has developed and taught courses on Literature and Violence, Literature and Revolution, Explorations in Black Literature, and Sexuality and Literature.

The Advisory Committee on Women's Studies, with financial assistance from the Secretary of State Women's Program and the Faculty of Arts, is delighted to bring Catharine Stimpson to the University of Alberta. On 27 February, she will give a free public lecture titled "The Meanings of Feminist Criticism". This lecture will take place in L-1 Humanities Centre from 3:30 to 5 p.m. □

Edward Lozowski, S.K. Sehgal: McCalla Professors

Edward Lozowski has done research into various aspects of the ice accretion phenomenon, his interest having been stirred by an investigation of hail which began in 1965. In 1977, he undertook the study of aircraft and power transmission line ice accretion and, in 1984, marine icing entered his range of study.

In October 1984, Dr. Lozowski and a research partner, E.M. Gates of the Department of Mechanical Engineering, received a three-year NSERC Strategic Grant to conduct marine icing research. The final

year of that grant, 1986-87, corresponds to the time frame of his McCalla Professorship. The release from teaching also allows Dr. Lozowski more time to work with a select group of students on various aspects of the ice accretion problem.

His application to the McCalla committee shows that he and Dr. Gates are constructing an indoor refrigerated marine icing wind tunnel, "the only such facility in the world." It is expected experiments will start this summer.

Dr. Lozowski was elected a Fel-

low of the American Meteorological Society in 1985.

S.K. Sehgal

Dr. Sehgal is immersed in studies of mathematical structures known as group rings. Theory of group rings has been prominent in representation theory of groups and algebras and algebraic topology for some time. Lately, a number of researchers have turned their attention to group rings.

"It is felt," says Dr. Sehgal, "that to do innovative finite group theory the methods of ring theory must be

developed further. We are working hard to do just that." Dr. Sehgal and his associates have, in fact, proposed 42 research problems which have received more than passing attention from mathematicians in Stuttgart, Sao Paulo, Warsaw, Heidelberg and elsewhere.

The isomorphism problem, the problem of the normal counterpart, the conjugacy problem, orders of torsion units and the idempotent problem will tax Dr. Sehgal in the forthcoming months. Still, he won't be working in isolation. Several individuals with like interests will visit the Department of Mathematics this year and next. □

Faculty Women's Club Moves Into 1986

Energetic involvements for the New Year surfaced during a well attended gourmet potluck dinner on 14 January at the home of Mrs. F.D. Jones. Executive members and interest group conveners gathered for their annual social event where some highlights of the '86 social calendar were released.

Sunday, 2 March, noon to 8 p.m.—"Midwinter Escape"—ski, skate, birdwatch, chat or bridge at 114 E. Sundance, Pigeon Lake. Telephone regarding menu.

Wednesday, 5 March, noon—Papaschase Room luncheon (Faculty Club) featuring a slide presentation of the first Canadian trek to the North Pole described by Allan Mayer and Ed Struzik. The trek was made last spring, so details of the last frontier are still vivid. Inuit-inspired "Fashions by MacPhee" will circulate the lounges

accompanied by northern ballads from Bob Ruzicka and Ted Wesley. Your own northern dress or accessories would add to the atmosphere.

30 April, 7 p.m.—Final dinner at the Derrick Club featuring a highly qualified national speaker, Father Lucien Larre, a founder of the Bosco homes for teenagers in Calgary and Regina. These homes offer treatment programs for dropouts. Father Larre's warm and humorous presentations have delighted countless audiences across the land. His motto is, "The difficult we can do immediately; the impossible will take a little longer."

This speaker was too heavily booked to be obtained for National Youth Year, but he has made time for the Faculty Women's Club's final banquet. Ticket information, 434-2661 or 436-0571. □

Talks

Mathematics

20 February, 4 p.m. Norman R. Reilly, Simon Fraser University, "Groups Endowed with Lattice Structure." 657 CAB.

Medicine

21 February, 8 a.m. W.J. Vanast and Lorne Tyrrell, "Headaches and Infectious Diseases: Old Myths and New Concepts." 2-115 Clinical Sciences Building.
21 February, noon. R.S. Smith, "Computer Enhanced Light Microscopy." SMRI Conference Room.
22 February, 8 a.m. D. Modry, "Heart Transplants." 5H202 Mackenzie Health Sciences Centre.

Canadian Institute of Ukrainian Studies

21 February, 7:30 p.m. Andriy Hornjatkevych, "The Language of Kotliarevsky's 'Eneida' from a Computer Perspective" (in Ukrainian). Heritage Lounge, Athabasca Hall.

English

24 February, noon. Poet Don McKay will read from his works. L-3 Humanities Centre.
24 February, 4 p.m. Brent MacLaine, "Fleeing the Centre: Exploding the Text in *Gravity's Rainbow*." 5-20 Humanities Centre.
3 March, 4 p.m. Bruce Stovel, "Evelyn Waugh's *Decline and Fall*: The Mysterious Origins of Captain Grimes." 5-20 Humanities Centre.

Plant Science

24 February, 1 p.m. Robert Hornford, "The Effect of Tillage and Cropping Systems on the Potential Weed Flora." 1-06 Agriculture-Forestry Centre.
26 February, 1 p.m. Larry Gusta, Crop Development Centre, University of Saskatchewan, "The Limitations of Cold on Crop Production in Western Canada." 1-06 Agriculture-Forestry Centre.

Slavic and East European Studies

24 February, 3 p.m. O. Zujewskij, "Expressionism in the Works of Andreiev." 776 General Services Building.

Rehabilitation Medicine

24 February, 4 p.m. Cynthia Shewan, Director of Research, American Speech and Hearing Association, "Some Issues/Concerns in Aphasia and Research." 203 Corbett Hall.
3 March, 4 p.m. Franklin Stein, Director, Occupational Health Program, University of Wisconsin, Milwaukee, "Stress Management in Schizophrenia." 203 Corbett Hall.

Alberta Heritage Foundation for Medical Research

24 February, 4:30 p.m. Maureen Leahey, Team Director, Mental Health Services, Holy Cross Hospital, Calgary, "Findings from Research on Divorce: Implications for Treatment of Single Parent Families." Faculty of Nursing, 3-101 Clinical Sciences Building.
10 March, 4:30 p.m. Thelma Wells, Associate Professor/Associate Research Scientist, School of Nursing, University of Michigan, "Analyzing Clinical Problems in Care of the Elderly: Immobility and Incontinence." Faculty of Nursing, 3-101 Clinical Sciences Building.

Canadian Society of Environmental Biologists (Alberta Chapter)

24 February, 5:30 p.m. Jennifer McQuaide-Cook, Corporate Planner, Alberta Special Waste Management Corporation, "Technological Aspects of Hazardous Waste Management." CW-410 Biological Sciences Centre.

CITL

25 February, 2 p.m. Michael Gibbins, Director, Centre for the Advancement of Professional Accounting Education, "Curriculum Development in a Large Lecture Section: Happy But Wiser!" TB-W2 Tory Building.
26 February, 1 p.m. Roger Dugas, "Time Savers—Time Management." 5-04 Business Building.
27 February, 10 a.m. Robyn Mott and Lois Marckworth Stanford, "Teaching Dossier." TB-W2 Tory Building.
4 March, 2:30 p.m. Maryanne Doherty, "What is Modularized Instruction?" 219 Home Economics Building.

University Writers to Read

Novelists Henry Kreisel and Rudy Wiebe, and poet Douglas Barbour will participate in the "Bards of March", an evening of readings by prairie province writers, 15 March at 7:30 p.m. in the Jubilee Auditorium Banquet Room.

The evening is designed as a benefit in support of the NeWest Institute whose intent, since its founding in 1980, has been to further Western Canadian studies through conferences, fellowships and publications. The Institute is affiliated with the Edmonton-based NeWest Press which in the past decade has published an extensive

list of fiction, criticism, drama and poetry of Western Canadian writers.

Other writers who will read from their works during the evening are Robert Kroetsch, Aritha van Herk, Smaro Kamboureli, Don Kerr and Birk Sproxtton. Only 200 tickets will be available for the benefit. Ticket holders are eligible for draws which include a Chuck Wissinger sculpture, a set of first editions by Rudy Wiebe, and a selection of books from NeWest Press. Tickets are on sale now and can be obtained from a number of bookstores, including Brownings in HUB, and Aspen Books. □

Classics

25 February, 3:30 p.m. P. Vivante, McGill University, "Homer's Sense of Time." 1-8 Humanities Centre.

26 February, 11 a.m. P. Vivante, "Homer's Sense of Time." 1-7 Humanities Centre.

Chaplains' Association

25 February, 4:30 p.m. Bruce Miller, "Dietrich Bonhoeffer and the Suffering God." Meditation Room, SUB.

Boreal Institute for Northern Studies

26 February, noon. Gurston Dacks, "The Case Against Division of the Northwest Territories." 1-25 Tory Building.

5 March, noon. Doug Stenton, "Thule Culture Inland Adaptations on Southern Baffin Island." 1-25 Tory Building.

12 March, noon. Clifford Hickey, "Northern Social Science at the University of Alberta—Where Do We Go?" 1-25 Tory Building.

Forest Science

26 February, noon. P.B. Milimo, "Embryo Covers and Germination in *Melia volkensii* Gurke. Seeds." 4-1 Mechanical Engineering Building.

Botany

26 February, 4 p.m. Dennis Gignac, "The Effects of Metal Contamination on Peatlands Near Sudbury, Ontario." M-149 Biological Sciences Centre.

5 March, 4 p.m. William Gruezo, "The lichen genus *Lobaria* (Schreb.) Hoffm. in the Philippines." M-149 Biological Sciences Centre.

Women's Program

26 February, 7:30 p.m. Myrna Kostash, "A Teenage Girl: Who Does She Think She Is?" 129 Education South.

6 March, 7:30 p.m. Zohra Husaini, "Making Visible the Reality of Immigrant Women." 120 Corbett Hall.

12 March, 7:30 p.m. Alison Jaggar, University of Cincinnati, "Women: Different But Equal." L-1 Humanities Centre.

Music

27 February, 11 a.m. Gregory Butler, "J.S. Bach and the Concord-Discord Paradox." 2-15 Fine Arts Building.

27 February, 3:30 p.m. Gregory Butler, "Music and the *Ars Invenendi* in the Late Baroque." 2-34 Fine Arts Building.

Limnology and Fisheries Discussion Group

27 February, noon. Ed McCauley, University of Calgary, "Fluctuations, Oscillations, and Stability of Natural Predator-Prey Systems." G-217 Biological Sciences Centre.

6 March, noon. Randy Shaw, "Seepage Meters: How Useful Are They? (Or Can Seepage in Lakes be Measured for \$10?)" G-217 Biological Sciences Centre.

Centre for the Study of Mental Retardation

27 February, 12:30 p.m. John Kirby, University of Newcastle, New South Wales, Australia, "Reading Differences in Children." P-121 Biological Sciences Centre.

7 March, 12:30 p.m. C.K. Leong, Institute of Child Guidance and Development, University of Saskatchewan, "Varieties of Dyslexias." P-121 Biological Sciences Centre.

Soil Science

27 February, 12:30 p.m. R.P. Innes, Stanley Associates Engineering, "Requirements for Field Soil Investigations for New Developments and Contaminant Cleanup." 281 CAB.

6 March, 12:30 p.m. K. Peters, Hardy and Associates Ltd., "Requirements for Soil Analysis for New Developments and Contaminant Cleanup." 281 CAB.

Slavic and East European Studies

27 February, 3:30 p.m. Gleb Zekulin, University of Toronto, "Features and Characteristics of Russian Emigré Literature (1918-1980)." 776 General Services Building.

Advisory Committee on Women's Studies

27 February, 3:30 p.m. Catharine Stimpson, "The Meanings of Feminist Criticism." Co-sponsored by the Faculty of Arts Women's Studies Lecture Series Committee, L-1 Humanities Centre.

4 March, 3:30 p.m. Alison Jaggar, "Feminist Challenge to Western Political Theory." 5-20 Humanities Centre.

5 March, 7:30 p.m. Alison Jaggar, "Teaching Sedition: Some Dilemmas of Feminist Pedagogy." L-1 Humanities Centre.

7 March, 2:30 p.m. Alison Jaggar, "Further Discussion of Teaching Sedition." Location: TBA.

Economics

27 February, 3:30 p.m. Robert Halvorsen, University of Washington, "Testing for the Efficiency of Extraction of Non-Renewable Resources." 8-22 Tory Building.

Entomology

27 February, 4 p.m. Alec McClay, Alberta Environmental Centre, Vegreville, "Biological Control of Weeds, in Theory and Practice." TB-W1 Tory Building.

6 March, 4 p.m. C.P. Abecia, "Population Development of the Acarine Fauna on Soybeans Grown in a Modified Grassland." TB-W1 Tory Building.

Centre for Gerontology

28 February, noon. Alan Dobbs, "Time Course of Memory and Cognitive Changes in Alzheimer's Patients." Classroom F, Mackenzie Health Sciences Centre.

Art and Design

28 February, 2:30 p.m. Patricia Ainslie, Glenbow Museum, "Canadian Block Prints, 1919-1945." 2-20 Fine Arts Building.

Comparative Literature

28 February, 3 p.m. William Beard, "Some Aspects of Popular Cinema." Senate Chamber, Arts Building.

Hong Kong Graduate Students' Association

28 February, 5 p.m. J.S. Lin, "A Humble Remonstrance: Chinese Intellectuals in 'Reaching the Middle Age.'" 1-129 Tory Building.

Arts

6 March, 4 p.m. S. Neuman, "Importing Difference: Feminist Criticism and Canadian Women Writers." 5-20 Humanities Centre.

Zoology

14 March, 3:30 p.m. Roy A. Stein, Department of Zoology, Ohio State University, "Stocking Piscivorous Predators Into Ohio Lakes: Applying Ecological Approaches to Fish Management." M-149 Biological Sciences Centre.

Films

Germanic Languages

26 February, 7:30 p.m. "Flüchtlinge" (1933). Admission free. Arts 17.

The Arts

SUB Theatre

21 February, 8 p.m. "Pee-Wee's Big Adventure" (1985).

22 February, 7:30 p.m. Chinese Students' Association presents "China Night." Contact the CSA Office, 030 U SUB, for tickets and information.

23 February, 8 p.m. "To Live and Die in L.A." (1985).

27 February, 7:30 p.m., 8:15 p.m. and 9 p.m. CBC "Front Page Challenge"—live TV taping. Free tickets, 469-2321.

28 February and 1 March, 8 p.m. "Dance Extravaganza '86." Edaas, 424-0353.

Edmonton Film Society

24 February, 8 p.m. "A Nos Amours" (France). TL-11 Tory Lecture Theatre.

3 March, 8 p.m. "The Flavor of Green Tea Over Rice" (Japan). TL-11 Tory Lecture Theatre.

Courtyard Concert Series

27 February, 12:15 p.m. Cheryl Charuk, vocalist. Fourth Level East Atrium, Mackenzie Health Sciences Centre.

Music

27 February, 8 p.m. Senior Student Recital—Sandra Butner, flute. Convocation Hall.

2 March, 8 p.m. Final "Encounters" concert of the season. Convocation Hall.

Broadcasts

Radio

CKUA radio 580 AM and 94.9 FM.

22 February, 7 p.m. "University Concert Hall."

CJSR radio 88.5 FM.

23 February, 10:20 a.m. "Science Digest—Ethology."

2 March, 10:20 a.m. "Paper Tygers—Literary Agents."

CJSR-FM 88.5, Campus Radio. Eclectic programming, including folk, jazz, new music, rock, and U of A news and sports coverage. See *Airright* magazine for full programming details. Send public service announcements to 224 SUB, 432-5244.

CBC AM Radio

9 March, 8 a.m. "Sunday Arts—Alberta Anthology, 'The Rose Tatoo' by Carolyn Hlus."

Sports

21 to 23 February. Swimming—CWUAA Conference Championships. West Pool.

Award Opportunities

Announcement: Bridge Funding

The Social Sciences and Humanities Research Council (SSHRC) recently announced a change in the Research Grants Program to a single annual deadline of 15 October for applications. The cancellation of the 15 May 1986 competition may have left some Council-supported researchers with on-going projects, who were planning to apply in that competition, without support for a short period.

To assist scholars in this position, SSHRC is inviting them to submit requests for supplementary funding, to bring their research schedule into line with the Research Grants Program's new competition schedule. *Eligibility:* Those whose grants are due to expire between 1 November 1986 and 31 March 1987, and who wish continued support for an on-going project, may apply. The Council is unable to entertain requests for support of new activities outside the usual adjudication process. Applicants whose proposals were refused in the October 1985 or March 1986 adjudications are not eligible. *Application:* Applicants should write to the Council no later than 15 April 1986, giving a progress report of research carried out under the current grant, an up-to-date financial statement, a brief outline of activities to be undertaken in the interim funding period, and a budget. The request may not exceed the current level of support, prorated for the period requested. Current file number should be quoted when making a submission. *Awards:* Awards will be in the form of supplementary grants ending no later than 31 March 1987, when grants will become available subsequent to the normal March 1987 adjudication (deadline for applications: 15 October 1986). The maximum period of support through this mechanism, therefore, will be five months. *Announcements:* It is expected that decisions on requests for supplementary funding will be announced in early June, following review of the requests and reports submitted and approval by Council.

Maimie S. Simpson Memorial Scholarship

The scholarship, to be presented for the seventh time in 1986, is in the amount of \$1,500. It will be presented by the Alumni Association to a full-time student who has attended the University of Alberta for at least the two previous years.

Criteria

1. The basis for selection will be the student's contribution to campus life and to the University of Alberta community.
2. The student must have a satisfactory academic standing and plan to continue studies at the University of Alberta.

Application forms and further information may be obtained from: University of Alberta, Alumni Affairs Office, 430 Athabasca Hall. Telephone: 432-3224.

Application deadline: 14 March 1986.

The Rotary Foundation Graduate Scholarships

Donor: The Rotary Foundation of Rotary International. **Where tenable:** A country in which there are Rotary clubs, but not in the country of the sponsoring Rotary club. **Level:** Post-graduate. **Field:** Open. **Value:** Round-trip transportation between scholar's home and study city, all required academic fees, some necessary educational supplies, on-campus double-occupancy room, on-campus board, limited educational travel and limited contingency expenses. **Number:** Not specified. **Duration:** One academic year (usually nine months). Not renewable. **Conditions:** Must complete a Bachelor's degree or equivalent before commencement of scholarship duties; age as of 1 October 1985 is 18 through 30 inclusive; may be married but spouse's expenses not paid; proficiency in native language of host country; citizen of a country in which there is a Rotary club; cannot accept additional funding without approval by the Rotary Foundation; cannot accept full-time employment in host country. **Closing date:** 1 March to 1 October (check with local Rotary club for applicable closing date). **Further information and application forms should be requested from:** Rotary Club of Edmonton, Room 403, Chateau Lacombe, 101 Street, Bellamy Hill, Edmonton, Alberta T5J 1N7. Telephone: 426-4355.

Accommodations available

- Sale - City residential lots.** Some ravine. \$49,000 up. Buy now. Ask for Pat or Chris, 436-5250, 433-5664. Spencer's.
- Sale - 160 acres, \$25,900.** Close to Long Lake. Good fishing. Ask for Chris or Pat, 436-5250, 437-6540. Spencer's.
- Sale - Windsor Park. Exclusive.** Tall trees, charming bungalow on big lot. Ask for Pat von Borstel, 436-5250, Spencer's. 437-6540 res.
- Sale - Grandview.** Spacious, brick bungalow on quiet crescent. South back yard. Beautiful, big trees. New exclusive listing. Ask for Pat von Borstel, 436-5250, Spencer's. 437-6540 res.
- Rent - Mountain chalet.** Ideal for up to six persons. Kitchen, hot tub, excellent dining room nearby. By day or week. Overlooking Jasper Park Gate. 435-6504.
- For sale - Belgravia, new listing!** Immaculate, two-bedroom bungalow. Fantastic location, hardwood floors, dining room. Asking \$90,000. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For sale - Belgravia.** Four-bedroom semi. Super location. Fireplace. Asking \$88,500. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For sale - Belgravia.** Spacious, three-bedroom bungalow. Main floor family room, excellent location. Asking \$109,500. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For rent - Aspen Gardens.** Four-bedroom house. May-mid July. \$600/month. 432-2989.
- Sale - Five bedrooms, 3 1/2 baths** on three acres. Beautifully landscaped and decorated. Four minutes south of Millwoods Hospital, 25 minutes to University. 1,800' plus finished basement. Heated garage. \$185,000. 988-5127.
- Sale - New listing, Parkallen.** Fine, four-bedroom home. Upgraded kitchen, bathroom. Good basement development. \$81,900. Call Joyce Byrne, 435-6064, 436-5250. Spencer's.

- For rent or sale - To family, five-bedroom house.** University area. 436-2587.
- Sale - Lake lot.** Behind park reserve. Sunshine Bay, Wabamun. \$29,000. (604) 248-8013.
- Rent - Bonnie Doon.** One-bedroom, four appliances. \$270. 465-2632.
- Sale - 2,372 sq. ft. bungalow.** Large master plus three other bedrooms. Den, three baths, 75x150 lot, beautifully landscaped. For private showing contact Michael, 462-5000, 24 hr. Re/max.

Accommodations wanted

- Psychology professor requires house for approximately one year period from 1 August 1986. Phone (403) 343-0645 after 6 p.m.
- Reliable, academic family with two children seek unfurnished house in good area. Preferably north of river. On long let, from July 1986. Reply: Dr. Griew, 8 Wootton Way, Cambridge CB3 9LX, England.
- Professional couple with two small children, to rent 2-3 bedroom house near University or Southgate. April or May, maximum \$600/month. After 8 p.m. 435-7682.

Goods for sale

- Cash paid for used appliances. 432-0272.
- Good selection of new and used typewriters from \$99. Mark 9, HUB Mall. 432-7936.
- 1985 Honda Spree. 1,000 km. \$490. 436-2587.
- Gemeinhardt Piccolo with case. Offer? 436-2587.
- Kenwood integrated amp-80 watts per channel. \$225. 482-1155.
- Furniture of all kinds, with major antique items. Small, old house for lake lot. Plus gas heaters. Call 439-3531.

Services

- Donnic Word Processing. Specializing in theses, manuscripts, etc. 8315A 105 St. 432-1419.
- Backaches? Stress tension? Special therapy at Back-Basics (supplementary health care reimburses treatment costs). Maria Krieg is a spine specialist.

- university-trained in Düsseldorf. 11610 75 Avenue. 436-8059.
- Professional typing. We do "rush stuff." 461-1698.
- Professional typist - Word processing. Specializing in theses and dissertations. Gwen, 467-9064.
- Singles? Join our select social group, enthusiastic, liberal-minded Unitarians. Call Audrey, 489-8842, Ernie, 474-5358.
- Term papers, résumés word processed. IBM correcting typewriters you can use. Self-serve copiers (not coin-ops) or complete service. Cash, cheque, Visa, Mastercard. Open evenings, Saturdays. Mark 9, HUB Mall. 432-7936.
- Male volunteers required. Eight-week diet study. Must be less than 170 lbs; sedentary. All meals provided on campus. Honorarium \$150. Call Linda McCargar, 432-5629. Department of Foods and Nutrition.
- Journeyman carpenter - Finishing, framing, drywall, taping lino tile carpets, plumbing, electrical. No job too small. References. Call David Richards, 437-0794.
- Word processing - Experience doing theses, manuscripts, books, grants, etc. Medical terminology. \$1.90/page. IM Office Automation. 424-5719.
- JL Citation Services. Computerized literature searching - all fields. Full searches & automatic updating. Search strategies carefully formulated. Satisfaction guaranteed. 487-8652.
- Specialized software. I write software for Apple, CP/M, MTS, or other computers. My specialty is software for communicating with custom hardware. Call Bill at 432-2574 or 438-5369.
- Editing, proofreading, indexing. Prompt, reliable, accurate service and reasonable rates on manuscripts of all types. 434-8053, anytime.
- Consider: An experienced typist, IBM Selectric, reasonable rates and fast service. 455-9715.
- Professional seamstress and tailors. Made to order garments. General alterations. 469-6292, consultant Phil.
- Experienced architect. Will do renovation/new home designs. Call 973-3198 (local).

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Non-Academic

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. These vacancies cannot be guaranteed beyond 14 February 1986.

- Clerk Steno II (Part-Time), Philosophy, (\$595-\$739)
- Clerk Typist III (Trust), MSB Animal Unit, (\$1,326-\$1,666)
- Clerk Typist III, Universities Co-ordinating Council, (\$1,326-\$1,666)
- Clerk Typist III, Personnel Services and Staff Relations, (\$1,326-\$1,666)
- Clerk Steno III (Split-Funded), Boreal Institute, (\$1,326-\$1,666)
- Clerk Steno III, Biochemistry, (\$1,326-\$1,666)
- Clerk Steno III (Trust), International Briefing Centre, (\$1,326-\$1,666)
- Data Entry Operator II, Computing Services, (\$1,371-\$1,739)
- Administrative Clerk, (Part-Time), Pension and Benefits, (\$739-\$944)
- Secretary (Trust), Institute of Law Research and Reform, (\$1,478-\$1,888)
- Secretary, Housing and Food Services, (\$1,478-\$1,888)
- Secretary, Planning and Development, (\$1,478-\$1,888)
- Audio/Video Technician II (Temporary), Radio and Television, (\$1,810-\$2,337)
- Technologist I (Trust), Genetics, (\$1,888-\$2,437)

For vacant Library positions, please contact the Library Personnel Office, Basement, Cameron Library, 432-3339.

Dr. Ann Hall
Department of Physical Education and
Sport Studies

3 March 1986

Dallas Cullen, Chair
Advisory Committee on Women's Studies

Re: Visit by Kari Fasting

The Advisory Committee on Women's Studies is pleased to support your plan to bring Kari Fasting here as a Distinguished Guest Lecturer.

Dean Fasting's work will be of interest to many people on campus. The Advisory Committee is particularly interested in the opportunity her visit would provide for cross-cultural comparison of women and sports.

We would also be pleased to provide any help you might want for publicizing her visit.

Dallas Cullen

CURRICULUM VITAEEDUCATION

- 1964 Norwegian College of Physical Education and Sport (1 year)
- 1965 German Language and literatur as subsidiary subject (1½ years). University of Oslo.
- 1967 Pedagogics (educational science) as subsidiary subject (1½ years). University of Oslo.
- 1968 Psychology (subsidiary subject at elementary level; 1 year). University of Oslo
- 1972 Magistergrad in science of education. University of Oslo. (Corresponding to Ph.D.)

EMPLOYMENT

- 1/7-1/11-1973 Research Assistant for Professor S. Stensaasen. The Norwegian College of Physical Education and Sport (International Project on Leisure Role Socialization).
- 1/11-1973 Assistant Professor. Norwegian College of Physical Education and Sport.
- 1/7-1977 Associate Professor. Norwegian College of Physical Education and Sport.
- 1/8-81-31/12-82 Invited Visiting Distinguished Professor. Institute of Physical Education. Odense University, Denmark.

Kari Fasting

MAJOR ADMINISTRATIVE EXPERIENCE: Norwegian College of
Physical Education and Sport

1974 - 1977;1983 Head of the Department of Pedagogics

1984 - Dean

OTHER PROFESSIONAL DUTIES:

1977 - 1978 Member of the Council,
Scandinavian Society for Education Research

1983 - President of the Norwegian Society for
Research in Sport

1976 - 1980 Member of the Council, The Norwegian
Amateur Track and Field Association

Ms. Susan Beach
9928 - 112 Street
Edmonton, Alberta
T5K 1L7

Dear Susan:

Re: Jane Rule visit

The Advisory Committee on Women's Studies would be pleased to co-sponsor this visit. Specifically, we would like to arrange for a talk that would be of interest to the university community, to be given here on campus. We would do the publicity for such a talk.

At the moment, the Committee can provide only modest financial support. We are able to pledge \$100.00 towards your share of Rule's remuneration. If we receive our requested extra funding we should be able to offer additional support.

If you need further information, please phone me at 432-5721. Good luck with your proposal and plans.

Sincerely,

Dallas Cullen
Chair

Request For Co-Sponsorship

Project: to bring Jane Rule to Edmonton, for a period of 4 - 10 days (length of time dependent on funding). Rule has agreed to come in early April, 1986. She is willing to participate in a number of activities, aimed at a variety of audiences (small writer's workshops, receptions, question-and-answer times with a larger group, or participation on panels, speaking with classes and book-signings.

Organizers: We are a group of 8 individuals. There are no representatives of groups of the committee, in order to avoid including some and excluding others who are interested in Rule's visit. We will work with all interested groups, however, to ensure that there is time and a place for Rule to meet with the various groupings familiar with her work and life: women's groups, gay and lesbian groups, writers, literature students and faculty, and other readers of her work.

Funding: We are applying for financial sponsorship from a number of sources (Canada Council, Council for the Literary Arts, universities) and for support from interested groups with space and other resources to facilitate the visit (Writer's Guild, U. of A. Women's Program and Resource Centre, and others). Any support, financial and other, that your group could offer would be appreciated. If the Canada Council application is approved, we will be asked to raise \$75/day towards Rule's remuneration (C.C. supplies \$125/day). This would mean from \$300. (4 days) to \$750. (10 days) that must be raised from other sources.

For further information:
Susan Beach
(Jane Rule Cttee.)

Canadian Congress for Learning Opportunities for Women

congrès canadien pour la promotion des études chez la femme

January 13, 1986

To all the members of the Vice-President's Committee
on Women's Studies:

The Edmonton chapter of C.C.L.O.W. has been considering the possibility of inviting Greta Hofmann Nemeroff to Edmonton in Spring 1986. To date we have been unable to secure the financial resources to undertake such an activity.

Given the fact that your committee has hosted several public forums with guest speakers, we thought we should approach you with the idea of co-sponsoring the invitation to Greta. We're particularly interested in having Greta to Edmonton because of her wide ranging experience in Women's Studies and C.C.L.O.W. She was a founding member and tutour at Simone de Beauvoir Institute of Concordia University and is currently the Director of The New School, Dawson College. She has written many articles and made hundreds of presentations regarding women's issues, particularly about women's education.

Informally, I have approached her about coming to Edmonton, and she is interested. I believe that she has alot to offer our community and I hope there is some way of bringing her to Alberta.

I invite you to consider the possibility of such a co-sponsorship. I will gladly meet with you to discuss possible details. The intention of this note is simply to initiate some discussion around the idea. I can most readily be contacted at 463-5585 in the evenings or by leaving a message at the Sociology Department at 432-5234.

Sincerely,

Pat Leginsky

ACWS will give \$750.00 for travel expenses & we obviously want ~~to be~~ before the end of term.

Re: Visit of Patricia Tsurumi

The Advisory Committee on Women's Studies is pleased to be able to contribute \$100.00 in support of Dr. Tsurumi's visit. We would also be glad to help publicize the visit.

We look forward to working with you on any future visits and projects that involve Women's Studies.

subject: Possible contribution toward a guest speaking event

Yesterday, I approached Sandy Susuk of the Woman's Program about co-sponsoring the visit of Prof. Patricia Tsurumi of the the University of Victoria. Prof. Tsurumi is a noted historian of Japanese colonialism and women's history in Japan. I am enclosing a C.V. that she sent me some years ago just to give you an idea of her research interests and career. We have her scheduled to give a lecture entitled "Japanese Women: Past and Present" on March 13 at 8:00. We are just in the process of looking for support in other sections of the university. Sandy Susuk agreed to co-sponsor the event, at least to the extent of helping publicize the event. Since it is an evening event, we are hoping to draw members of the wider community. However, she indicated that the Women's Program had no funds to contribute to the event. She suggested that the Advisory Council might. This letter, then, is a solicitation for such funds. If you had a \$100.00 it would be splendid, but anything less would be equally appreciated. If there are no funds at all, we still wanted to inform you of the lecture and would appreciate your spreading the word about it. When posters have been prepared, we will send you some copies. Thank-you for considering this request.

resumé of lecture information

Executive Assistant to the Dean
Faculty of Arts

subject:

date: December 6, 1985

our file:

your file:

Dean White has asked me to let you know that he is prepared to bear the costs of the honorarium for Dr. Catherine Stimpson up to \$1,000 (Cdn).

My understanding is that the rate used to convert Canadian funds to U.S. funds is the rate in effect on the day the cheque is prepared. It is possible, therefore, that the sum of \$1,000 (Cdn) will not be sufficient to cover the entire honorarium. Should this be the case we can prepare a cheque requisition charging \$1,000 to our accounts and anything extra to the Committee's.

Perhaps you could contact me or Mrs. Kathy Crowell sometime over the next few weeks so that we could finalize the details as to when the cheque should be ready and so on.

Mrs. Crowell or myself can be reached at 4221.

Fran Trehearne

Advisory Committee on Women's Studies

Women's Studies Speaker Series

During the initial planning and discussion of this series, Pat Clements indicated that the Faculty of Arts could contribute \$1000 towards its funding. On the assumption that this can be done, it would seem that, rather than a transfer of funds, it might be most convenient if your office paid the honorarium for Dr. Catherine Stimpson. The amount will be \$750.00 (U.S.). Please let me know if this is acceptable.

I am enclosing a copy of the poster advertising the series.

ADVISORY COMMITTEE ON WOMEN'S STUDIES

WOMEN IN POLITICS

A LUNCHEON WITH

SUSAN CREAN

VISITOR IN THE DEPARTMENT OF POLITICAL SCIENCE

MONDAY, JANUARY 27

PAPASCHASE ROOM, FACULTY CLUB

12 NOON TO 1:45 P.M.

COST: \$6.75

Writer and broadcaster Susan Crean, whose most recent book is on women in the media, will be visiting the Department of Political Science from January 20 to January 30. This luncheon is an opportunity for women on campus to meet Ms. Crean and hear her speak on "Women in Politics." The luncheon is organized by the Advisory Committee on Women's Studies (phone 3093).

Please return to: Advisory Committee on Women's Studies
c/o Women's Program, 11019-90 Avenue

by January 23, 1986

I will attend the Susan Crean luncheon and enclose \$6.75 (make checks payable to the Advisory Committee on Women's Studies)

Dear Jennifer:

On behalf of the Advisory Committee on Women's Studies,
I want to express our sincere thanks for your visit and
lecture.

The intent of our speaker series is to show the
diversity and quality of Women's Studies. Women whose
work transforms their field while reflecting and
speaking to women's experience demonstrate that
diversity and quality. We thank you for being a part
of our series, and hope that we will see you again
sometime.

Sincerely,

Dear Professor Prestwich,

Would you be so kind as to pass on to the Advisory Committee on Women's Studies my thanks for inviting me to the university recently, to participate in their Lecture Series. I was most honoured to have been included amongst such distinguished company; and I very much enjoyed my participation.

I would also like to thank you, and your colleagues for their presence at the opening of the exhibition at the Ring House Gallery. It was a great pleasure to meet you, and I very much enjoyed our collaboration.

With kind regards,

FEMINISM AND POLITICAL CHOICE:

THE IMPACT OF FEMINISM ON POLITICAL THEORY

Speaker:

Lynda Lange

Wednesday, November 20
7:30 - 9:30 pm
Education North 2-115
University of Alberta

Free Admission

Lynda Lange obtained her Ph.D. in Political Philosophy from the University of Toronto. She is co-editor of The Sexism of Social and Political Theory. Dr. Lange is currently a Visiting Researcher at the Boreal Institute for Northern Studies and is involved in research in the area of Northern Native Studies. In January 1986, she will be teaching a course entitled "Contemporary Feminist Theory" in the Philosophy department of the University of Alberta.

This lecture is cosponsored by the Advisory Committee on Women's Studies and the Philosophy department, University of Alberta.

Dr. David Sharp, Chair
Department of Philosophy

21 October 1985

Dallas Cullen, Chair
Advisory Committee on Women's Studies

I understand that you and Dr. Lynda Lange have discussed the desirability of using a talk by her to publicize her course in feminist theory. The Advisory Committee is pleased to jointly sponsor such a talk.

The Advisory Committee is willing to do the organizational work for this talk. Accordingly, we have scheduled it for November 20, 1985 in Education North 2-115 at 7:30 p.m. The Advisory Committee will prepare posters to publicize the talk; once these are ready, we will provide you with a supply to distribute.

I trust these arrangements are satisfactory.

Dr. Dale Spender
4 Rossetti House
Flood Street
Chelsea
London SW3 5TF
England

Dear Dale:

On behalf of The committee, I want to extend our sincere (even though belated) thanks for your visit as Distinguished Guest Lecturer.

Your visit and talks were an outstanding start to our Women's Studies Lecture Series. You gave a great deal of visibility to Women's Studies, attracted a wide range of both university and community people and gave a symbol (wearing purple) to the women on campus. I know the members of the Committee benefitted personally, both as individuals and as a group.

Jean Lauber once suggested we keep a "Sunshine" file in which we would put letters, articles and such about ourselves that made us feel good about ourselves and what we were doing. I've delayed writing until you were back in England so that this would be a "Cheerer-upper" as you get back into your regular routine. Put it in your Sunshine file, and remember that the women of the University of Alberta are very grateful for your visit. Please come to see us again.

In sisterhood,

Dallas Cullen,

Purple up

An Open Letter to All Women on Campus

By this time, women on this campus may have seen new bathroom graffiti. "Purple up" stickers began appearing in various locations on campus last Monday. Your mission, should you choose to accept it, is to wear purple on Thursday, October 10. Our intent, as women, is to support other women and to show that support for each other symbolically by wearing purple on October 10.

The purple is inspired by Distinguished Guest Lecturer, Dale Spender, who has been speaking to audiences on campus for the last ten days. She is an internationally renowned feminist author interested in "the ways in which women's ideas have been shaped, distorted and sometimes erased as a consequence of their less powerful position in the social construction of knowledge and meaning."

And, her entire wardrobe is purple. She says that through women's history, there is constant reference to purple, in its various shades, as a color full of symbolic signifi-

cance for women.

During the last century, purple was worn by a variety of women in Britain and North America, often for different reasons, but always in association with women's strength. Virginia Woolf makes reference to women wearing purple in her work and Mrs. Pankhurst, a leading suffragette, wore purple.

Often women who wore purple were considered "uppity women," and uppity being a woman being a woman presumptuous enough to say that she didn't like being abused, or patronized, or in any other way treated as less than an equal. Since "uppity" has unpleasant connotations, the word was used to discourage women from speaking out about unequal and unfair treatment. It is important, then, that we take back the word and make it positive.

"Purple up" on October 10 for women helping women, supporting women — become an "uppity woman" — and together we can make the world a better place for all who dwell here.

Dale Spender of Australia
won't answer men's questions

Be rude to three men a day, feminist advises

By KAREN BOOTH
Journal Staff Writer

Australian feminist Dale Spender has a liberating piece of advice for women the world over: be rude to three men a day.

The author and lecturer smiles so demurely that listeners might think tongue was planted firmly in cheek, but Spender couldn't be more serious.

"Men do all the talking and women do all the listening and supporting. Research has proven this out," said Spender, who drew capacity audiences to three recent lectures at the University of Alberta.

"The ruder I am, the more I

smile. It makes it very difficult for men to talk and then I say, 'You know what it feels like now.'"

She's so indignant about the ways in which men exercise power over women through conversation, literature and politics that in most cases she won't answer questions from the men attending her talks.

"I don't mind men coming up later and saying, 'Thank you, I enjoyed your talk' and not giving themselves a pat on the back, but I get very cross with men who go on and on while there are women standing there waiting for a chance to say something. Really, what have they learned?"

Spender is so intrigued by the

behavior of men and women at meetings that she intends to make it a research subject.

"A woman will make a suggestion and it's ignored; no one listens. Two minutes later, a man makes the same suggestion and everyone pipes up about how great it is."

Spender doesn't agree with the notion that men should learn how to deal with the liberated woman and thereby relinquish some of the power they've wielded.

"Every day for seven years I gave (my ex-husband) private tuition," she laughs. "He could have had 10 degrees in what men should do around the house."

United Nations' figures indicate men control more than 99 per cent of the world's wealth, Spender said. "If women want that to change, they have to use their resources to do that for themselves rather than putting all their energy into (changing) men."

The feminist movement itself has changed little, she notes, "although women are still getting a bad deal." It's the reasons why women become involved that have shifted.

"There were no books and courses (on feminist issues) back 15 years ago and women became involved over events such as boycotting a beauty show.

"A lot of women today are involved out of a sense of scholarship. They read something and think, 'This is ridiculous, I want to do something about it.'"

Women have been reluctant to voice their opinions because they've been made to feel they aren't as important. "If men were treated the same way, they would have little or no confidence either.

"(French theorist Jean Jacques) Rousseau said women should be educated to please men... but in 1792, Mary Wollstonecraft said women should be educated to please themselves.

"Unfortunately, women are still trying to please men."

DISTINGUISHED GUEST LECTURER IN WOMEN'S STUDIES

SASKATCHEWAN ROOM, FACULTY CLUB
SEPTEMBER 24, 1985
8:00 P.M. TO 11:00 P.M.

Dr. Spender is the first visitor in the Women's Studies Speakers Series, which is sponsored by the Advisory Committee on Women's Studies and the Faculty of Arts Women's Studies Lecture Series.

R.S.V.P. by September 19, 1985 (form enclosed).

Dale Spender,
4 Rossetti House, Flood Street, London SW3 5TF.
12th June 1985

M. Ann Hall
Department of Physical Education and Sports Studies
The University of Alberta,
Edmonton,
Canada T6G 2H9

Dear Ann,

What a delightfully welcoming letter. Many thanks. It makes it so much easier to respond to such a warm invitation. I'll try and be both formal, and informal in return. Answering all the questions, and not leaving out the personal touch. (I keep asking Cheris Kramarae to do a study of women's 'business letters' and to compare them with the manuals for officialese -- as written by men: I never fail to be astonished at the difference between what is considered good business practice and the way women operate....your example of two letters being but another case in point.)

Now, I have just spent the last half hour drafting out a list of possible lecture topics, seminar topics, and informal discussion topics. (I have quite deliberately placed issues of the nature of knowledge in the discussion context because I think this a difficult topic for a big or a formal audience; much better to chat about it. But you'll see all that explained on enclosed sheet.) I hope it serves its purpose.

The later the better in September suits me. So would it be alright to come from Thursday 19th until Thursday October 3rd? And I propose to go on to Australia from the University of Alberta. I want to spend October there (a good time of the year) and work on the book I am writing on Australian women writers.

What I will do (although I haven't sorted it out with my travel agent yet) is to get a round-the-world ticket. Being in Canada I figure that I am on my way to Australia anyway, and I have to make almost as many arrangements to handle things here for two weeks as I do for six. So will that be alright with you? I, of course, will pay the difference from the cheap return fare to Canada on to Australia and back here.

I am really looking forward to being with you. Writing is a solitary life and there are occasions when I find that I really miss teaching and the contact with enquiring minds. From what you have sent me it is abundantly clear that I will find some enquiring minds. And I relish the prospect.

It also looks as though you do a lot of work. You have certainly made it immeasurably easier for me by providing me with the programmes of previous speakers. And I really am quite easy going. (My English teacher would disapprove of so many 'reallys'.) I can readily cope with big lectures and informal groups. As long as I can have my occasional (and private) cigarette and I suppose if the truth were known, my more than occasional glass of wine.

One thing I would like to do would be to talk about publishing...and about prospects. For women. I do have a firm idea of what sort of manuscripts publishers here are looking for and I would be only too pleased to provide advice and encouragement for any aspiring authors. Maybe that would be best organised as a more informal chat.

Anyway, enclosed is a list of suggested topics. Any special requests will be graciously received. (Hope you have a similar sense of humour to my own.) And I cannot tell you how much I look forward to meeting you,
Best Wishes

Lecture Topics

1. The Silence of Women

General lecture on the silence of women in language and culture: illustrating the 'absence' of women's meanings as they apply to semantics, right through to the curriculum and the selective write-up of history.

Drawing on MAN MADE LANGUAGE, WOMEN OF IDEAS -- AND WHAT MEN HAVE DONE TO THEM, and INVISIBLE WOMEN.

2. Mothers of the Novel; 106 Good Women Novelists Before Jane Austen

Lecture for literary studies; showing how and why women 'invented' the novel and how and why the men of letters have presented a version of men as the makers of the novel. Another version of women doing something creative and men stepping in and being perceived to do it better!

Would also have wide general appeal for anyone who reads novels. Drawing on forthcoming book with Routledge and Kegan Paul of the title of the lecture.

3. A Review of Women's Reviews

Lecture prepared for Cambridge University and unable to get published; of course. About the way women's books are reviewed and the perception of the reviews. Original research arising from the assertion that these days you have to be a woman writer in order to get reviewed....that the pendulum has swung the other way (has its counterpart in that you have to be a black or a woman in order to be promoted). For six months the columns of quality review papers were measured: women were granted less than 6% of the column inches: editors were contacted who perceived that women had more than 50% of the space. The old principle that if women aren't supposed to be there at all -- if they are supposed to be invisible or silent -- then almost any percentage is too much, and the pendulum has swung the other way.

Suitable for literary studies, sociology, issues of the representation of women in culture.

4. Boys Own Education

Lecture concentrating specifically on the way in which education is oriented towards males. Critique of classroom dynamics and

the curriculum -- and the structure and organisation of education -- to reveal the extent to which it is education designed by men for the benefit of men.

Would have wide general appeal as well as being of specific interest to educationalists.

Drawing on INVISIBLE WOMEN.

5. Women's Intellectual History

Providing some documentation of women's intellectual contribution which has been eliminated or denied. Also raises questions about the nature of knowledge and methods of validation. Discussing some of the ideas that women have had in the past and which indicate that much of what is being said today has not only been put forward before, but is often quite conservative in comparison.

Draws on WOMEN OF IDEAS AND WHAT MEN HAVE DONE TO THEM, FEMINIST THEORISTS, TIME AND TIDE WAIT FOR NO MAN, and THERE'S ALWAYS BEEN A WOMEN'S MOVEMENT.

6. Reflecting Men

Popular lecture to outline the ways women manage men's egos, how and why. Divulging the 'trade secrets' of femininity.

Drawing on the title of a forthcoming book with André Deutsch which takes its title from Virginia Woolf's statement that for centuries women have served as looking glasses for men reflecting then at twice their normal size!

Seminars:

Any of the above could also serve as the basis for seminars and discussions. And vice versa. With a few exceptions, if required, I could make some of the seminar topics more readily available as lectures.

1. The nature of Literary Criticism

I am currently working on a book which is entitled THE WRITING OR THE SEX and it takes to task literary judgements which assume that the criteria for assessment are based on the writing when it is demonstrable that they are based on the sex. Returning even to Elizabeth Gaskell and Charlotte Bronte and the differing status accorded to them when they were thought to be the work of men, and then were found to be written by women.

2. The nature of knowledge

The issues of research, methodology, ^{bias} bias and 'objectivity' (the name men give to their subjectivity): male as the norm. Validation of knowledge. One truth or a multiplicity of truths? The feminist challenge to the construction of knowledge.

Drawing on MEN'S STUDIES MODIFIED and FOR THE RECORD: THE MAKING AND MEANING OF FEMINIST KNOWLEDGE recently published by the Women's Press

3. Gatekeeping

The role played by publishers and editors (and academics) in the distribution of information and the availability of knowledge. (Why can't I get my critiques on publishers and academic editors published?)

4. Women in the Curriculum

How do you get more women into the curriculum when the definition of women is 'not up to standard'. What about all the innocent statements that if there were more women writers on the course it would lower the standard...and not allow sufficient time for a study of the 'greats' and the serious business of the course? (Women are between 2% and 7% of the women writers in literary curriculums in North America, Britain and Australia: they are less as the substance of history even though there's a lot on Queen Elizabeth I and Queen Victoria.)

5. Women and Fiction

A bit presumptuous seeing it was the title of Virginia Woolf's famous lecture! But women's relationship to fiction is a most underresearched subject....why are women the major readers of fiction? Why do women write fiction? (And why do so few get published: where there are statistics -- as in education for example -- it seems that women write more and better than men.

But when they hit the job market a strange thing happens... women are less than 20% of the published writers in ^{the} (English speaking world. and this includes romances.) And what about romance? The biggest single category of book sales? Why is it so vilified? Escapist literature which caricatures masculinity -- like James Bond -- enjoys a much higher status. The writing or the sex?

Discussion Topics:

Any of the above could be discussion topics, in different departments or with different members of staff, students, or the public.. although I think that to have reasonable discussions the groups should be relatively small. But I would be prepared to talk about any of the above topics, and any others (even if they are presented to me on arrival) to small groups at any time. Maybe not ANY time, but most times.

Any issues related to any of the books that I have written -- or to the journal that I edit -- are always open to discussion.

Note:

I haven't done any educational research since 1980. A little on women's employment opprtunities. A little on women in the curriculum. But nothing on classroom dynamics. So as long as people don't mind me talking about data that's three or four years old, I am happy to talk about it...but I haven't got anything new to add to INVISIBLE WOMEN.

Ann,

I feel I should add a note...hope the above is all OK. And many apologies for the typing. It was never my strong point. I grew up at a time when it was rebellion to say you wouldn't be a secretary.....and I strongly resisted any encouragement to learn to type....which of course I now regret.

Many thanks for all the arrangements that you have made. The idea of a self contained flat and a smoking office sounds perfect.

Cheris Kramarae once persuaded me to stay with her and said I could go without a cigarette. One night, when everyone else was in bed I just couldn't resist the temptation...and I lit one. And off went the fire alarm. And no one knew how to turn it off because the fire brigade was supposed to come. It almost cured me. Most embarrassing. Ever since then I have worked on the principle that no matter how good my intentions I should assume that I will have a cigarette sooner or later.

Anyway, I hope this gives you enough scope to start with. Any queries or suggestions...please feel free to go ahead. I want to do my bit towards making this a most successful visit: you have certainly done yours.

Look forward to ^{hearing} ~~hearing~~ from you; I will be in the United States next week at the NWSA conference...so if you don't get a response for a while you should know that it is because I am away. I'll be back in July.

Best wishes (again)

Dale

DALE SPENDER RECEPTION

NAME: _____

___ I will not attend

___ I will attend

___ I will attend with a guest

R.S.V.P. by September 19, 1985 to:

Advisory Committee on Women's Studies
11019 90 Avenue
University of Alberta

To: Members of the Advisory Committee
on Women's Studies

Date: July 4, 1985

From: Leslie Stewart,
Administrative Coordinator,
Advisory Committee on Women's Studies

The Vice-President's (Academic) Advisory Committee on Women's Studies is pleased to announce that Dr. Dale Spender will be in attendance at the University of Alberta as a Distinguished Guest Lecturer from September 19, 1985 to October 3, 1985.

Dr. Spender has her MA in English and her Doctorate in Philosophy of Language. She is the author of several books including Man Made Language (1980), and There's Always Been a Women's Movement This Century (1983).

Listed below are the topics which Dr. Spender is willing to address (she is open to further suggestions as well). Please contact me if you are interested in having Dale speak to your department and/or students. If possible, also indicate the date that you would prefer.

Lecture topics:

The Silence of Women
Mothers of the Novel; 106 Good Women Novelists Before Jane Austen
A Review of Women's Reviews
Boys Own Education
Women's Intellectual History
Reflecting Men

Seminar Topics:

The Nature of Literary Criticism
The Nature of Knowledge
Gatekeeping
Women in the Curriculum
Women and Fiction

Dr. Spender is also willing to take part in small discussion groups regarding any of the above. Please contact me if you would like further information about any of the topics.

to: Dallas Cullen

date: June 18, 1985

our file:

from: Ann Hall via Leslie Stewart

your file:

subject: Dale Spender

Dallas;

I got a message from Ann on the computer the other day and she asked me to pass along the following information:

- get on the message system!
- Ann has spoken to Dale on the phone and a letter is on its way regarding topics that Dale would like to address
- Dale will book her own flights as she is going to Australia afterwards
- dates that are best for her are Sept. 19 - Oct. 3
- she'd like to stay in the self-contained housing in Garneau (I have the application and ^{don} just waiting to get some information from Ann before I send it in)
- Dale does answer questions from men (i.e. after lectures, etc.) but will point out where/how men are dominating if this should occur

c.c Ros Sydie

February 15, 1985

To: Pat Clements

From: Dallas Cullen

Re: Suggestions for visiting speakers

Some additional suggestions which came from the WS meeting on February 14:

Catharine R. Stimpson. Professor of English at Rutgers, Director of the Institute for Research on Women at Rutgers, Chair of the Ms. Magazine Board of Scholars and founding editor of Signs: Journal of Women in Culture and Society.

Carol Gilligan. Harvard Graduate School of Education. Book: In another voice: Psychological theory and women's development (1982). Female and male ways of looking at relationships and morality. A very important book.

Also: The Second Wreath Conference on ethnicity and feminism will be held in Edmonton October 11 to 14, 1985. The planned speakers include Alice Walker (The Colour Purple), Joy Kagawa (Obassan), and Linda Gordon (Women's Body, Women's Right: Birth Control in America). Cooperation with this conference (Halyna Freeland is one of the organizers) might be very useful.

Sandy Susut and Janina Vanderpost will be sending you other names.

5 February, 1985

To: Members of the Women's Studies Advisory Committee

From: Pat Clements

Members of the Faculty of Arts committee (Women's Studies Lecture Series) prefer not to meet jointly for a conference on the constitution of the list of potential speakers. Everyone on the committee is pressed for time, willing to work on the project but not able to take time for extra meetings. What they would rather do is to ask for suggestions by letter, to draw up a tentative list of people (with alternatives), and to solicit views from the WSAC after this has been done. Since they prefer not to join the meeting on February 14th, I am writing now to ask you to send any suggestions you have for possible speakers. Time is getting short for some of the kinds of nominations we have in mind: and because two of us in the Arts group are going on leave on 1 July, we must have the work done soon.

Please send us your suggestions, c/o me, with as much information as possible about the nominee. We'll to know something about what the potential visitor has done, where she can be reached, and whether she has any personal contact in Edmonton. At the moment, we're thinking of people from anywhere (though budget considerations may affect that thought materially), and we are thinking of nominations for two visiting distinguished professors, one in September, 1985 and one in April, 1986, and for three speakers from elsewhere and three locals.

Pat

to: Dr. R.D. Bercov
Associate Vice-President (Academic)

Chair,
Vice-President's (Academic) Advisory
Committee on Women's Studies

your file:

subject: Nominations for Distinguished Visitors

On behalf of the Vice-President's (Academic) Advisory Committee on Women's Studies, I wish to nominate the following two individuals as Distinguished Visitors for the 1985-86 academic year:

Dr. Dale Spender

Dr. Spender holds a B.A. and Dip.Ed. from the University of Sydney in Australia and a B.Litt from the University of New England. She holds an M.A. from the University of New South Wales and a Ph.D. from the University of London.

She is based in London, England, and is the founding editor of Women's Studies International Forum, a multi-disciplinary and scholarly Women's Studies journal. She is a prolific writer and since 1980 she has authored or edited no less than eight books including the influential Man Made Language (1980 and Women of Ideas and What Men Have Done to Them (1982). She also has two more books in press and one forthcoming.

Dr. Spender is at the leading edge in terms of critical analyses of the ways in which women's ideas have been shaped, distorted and sometimes erased as a consequence of their less powerful position in the social construction of knowledge and meaning. The nature of her analysis has relevance not only to those in the social sciences but to those in the humanities and fine arts as well.

Dr. Spender's curriculum vitae is enclosed.

Dr. Alison M. Jaggar

Dr. Jaggar holds a B.A.(Hon) from London University, an M.Litt from Edinburgh University and a Ph.D. from S.U.N.Y. (Buffalo). She is a Professor of Philosophy and the Wilson Professor of Ethics at the University of Cincinnati. Presently she holds the New Jersey State Endowed Chair in Women's Studies at Douglass College, Rutgers University where she is also a Visiting Professor of Philosophy.

Dr. Jaggar is a political philosopher and in addition to her many articles, she is the author of two very well received books: Feminist Frameworks (with Paula R. Struhl) published in 1978 and Feminist Politics and Human Nature which was published in 1983. She has an international reputation for her work in political philosophy and feminist theory.

Dr. Jaggar's curriculum vitae is enclosed.

Also enclosed are the many letters of support we have received for both of these nominations.

In addition we have spoken with both Drs. Spender and Jaggar by phone and they are keen to come to the University of Alberta, each for a two-week period. We would like to have Dr. Spender here in September 1985 and Dr. Jaggar in March 1986.

BUDGET:

Dr. Dale Spender

Economy Airfare (London/Edmonton)	\$ 750.00	
Ground Transportation	100.00	
Accommodation (14 nights @ \$32.00)	448.00	
Per diem (14 @ \$50.00)	700.00	
Honorarium	2,000.00	
	<hr/>	
Total	\$3,998.00	

876.00
2750.00

Dr. Alison M. Jaggar

Economy Airfare (Cincinnati/Edmonton)	\$ 650.00
Ground Transportation	50.00
Accommodation (14 nights @ \$32.00)	448.00
Per diem (14 @ \$50.00)	700.00
Honorarium	2,000.00
	<hr/>
Total	\$3,848.00

Net Total \$7,846.00

Please note, however, that we are seeking only one half of this amount from the EFF Fund (\$3,923.00) since we are applying to an outside source (Women's Program, Secretary of State) for the remainder of the funding. Therefore, should our application be approved, the University of Alberta will be gaining two Distinguished Visitors for the price of one.

If you require further information, please do not hesitate to contact me at 2831.

Registration: No One Missing in Action

Registration week on campus has, in the past, been a lesson in patience and endurance. Usually there have been long, hungry, thirsty line-ups for muffins and coffee, with traffic often going in four directions at once. In the past, it was not unusual for a staff member to be accosted by a totally lost, panic-stricken student with only five minutes left to change a course.

However, no complaints have been heard (yet) this year. Students are being whisked through registration lines in only half an hour, and seem to have no major problems getting their timetables arranged. People at the Student Access Centre are amazed at how well prepared students have been, with proper signatures and forms correctly completed. One staff member noted that this year "they even seem to know how their student loan applications have to be filled out."

Our latest 1985 figures indicate a rise in the number of undergraduate students registered: 12,064

new applicants as compared to 11,793 in 1984, and 6,883 re-applications compared to 7,202 in 1984.

Meanwhile, on the commercial side, Edmonton Telephones enlisted the aid of a walking telephone to shake hands and dispense

flyers advertising the phone centre on campus, set up temporarily in the Physical Education Building. By 6 September they had sold approximately 130 souvenir red phones, and rented some 600 newer models. □

United Way Campaign Starts Next Week

The Edmonton and Area United Way Campaign will start on 19 September and end on 31 October. The University of Alberta objective this year is \$180,000. This is the same objective as in the previous two campaigns.

Near the end of September, every employee of the University should receive a kit containing information about the United Way, a contribution form and a return envelope. Please remember that every contribution, however large or small, will make a difference.

Volunteers are needed to help with the campaign. Such tasks as assembling the kits and attaching the mailing labels require the help of volunteers. If you can help in the campus United Way Campaign, telephone Brendan O'Neill (432-5227) or Don Richards (432-4916). □

United We Stand

Don Wheaton, Sr. is not daunted by a challenge. United Way General Campaign Chairman, he realizes that the community is fighting a pitched battle with economic uncertainty. While unemployment is lower now than at a corresponding time last year, it remains uncomfortably high.

"Forty-nine percent of those who are unemployed are heads of households and, in fact, it is esti-

mated that more than 15 percent of the families in our community are below the poverty line. The stress and distress related to this situation has resulted in increased need for social programs throughout all levels of our society," Mr. Wheaton says.

The United Way can make a difference. Contributions mean help for the unemployed, for families in crisis, for children at risk, for troubled youth, for victims of suicide, for the physically and mentally dis-

for the physically and mentally disabled and for isolated seniors. A person's gift to the campaign provides funding for more than 100 essential services. One in three Edmonton and area residents are direct beneficiaries of United Way-funded services.

Volunteers contribute almost one million hours of service to the United Way annually, making it the single largest voluntary fundraiser in the city. Studies show that the United Way remains one of the most cost-efficient fundraisers in the community.

Mr. Wheaton and the team of volunteers plan to raise \$5,708,835. These monies will allow United Way to:

- Maintain the more than 100 human care programs within the Canadian Red Cross (the United Way's partner) and 40 member agencies, including the Arthritis Society - Alberta Division, the Association for the Hearing Handicapped, the Family Service Division and the Sexual Assault Centre.
- Fund several new and expansion programs within the participating agencies.
- Maintain an effective level of funding for special service projects to meet new and emergent needs.

The United Way Campaign happens only once a year so, to echo its new slogan, "Good things can happen—if you play your part." □

Canadian Encyclopedia Sure to Please

The observation in "Pogo" that "we have met the enemy and he is us" once held true as regards the Canadian identity and our reluctance to embrace it. No more. Not with the publishing of the *Canadian Encyclopedia*, a three-volume work that contains just about everything found under the (Canadian) sun.

Mel Hurtig, whose firm published the *Encyclopedia*, said the intention from the beginning was to produce a low-cost encyclopedia that the average family could have in its home. What that family and the other 154,499 owners of the set will have is thousands of carefully researched and clearly written articles and a plethora of maps and drawings. It is estimated that if a reader read 20,000 words a day, eight hours a day, he would come to the closing article six and a half months later.

At a luncheon at the Centre Club last Thursday, Hurtig, *Canadian Encyclopedia* Project Vice-President and Managing Director Frank McGuire, and Editor-in-Chief Jim Marsh formally recognized this University's contribution to the five-year undertaking, unquestionably the biggest publishing job in Canadian history.

At a coming out party for the *Canadian Encyclopedia*, Mel Hurtig (left) paid tribute to the University's participation in the project. President Horowitz and seven others—Lorne Leitch, David Norwood, Dale Bent, Len Young, Bernie Cordell, Douglas Martin and Bernadette Quenneville—were given complimentary sets in advance of the opening of cross-country sales. Ron Phillips, who was unable to attend the luncheon, will receive a set in the near future. A page near the beginning of volume A records the effort put forth by the University in bringing an idea to fruition.

University
of
Alberta

All typesetting for the \$12 million project was done by Printing Services. The editorial offices were housed on campus and Computing Services, the Library and numerous academic units delivered the goods when called upon. Harry Gunning, Chairman of the *Encyclopedia's* National Advisory Board, said the association with the University constituted "a major card of entry" to the broad base of scholarly affairs.

Editor Marsh recalled the days when he and four others went from department to department seeking advice. That the group made a favorable impression is reflected in the fact that 360 members of staff contributed to the *Encyclopedia*. "People were always just a phone call away," Marsh told the luncheon guests.

Looking none the worse for wear, the Torontonians said there was "so much involved with getting someone to write an article and then having it verified. We have massive files on articles as brief as 150 words."

President Horowitz, who received one of 100 gold-finished sets of the *Encyclopedia* earlier in the week, reported that he went through the first volume and part of the second in just two days. He

encountered a "super section" on Canadian literature and was quite taken with the treatment of culture in general. Dr. Horowitz said the University has learned a lot from being involved in the entire operation (the agreement with the publishers was endorsed by the Board of Governors in May 1980). "In a sense we see the *Encyclopedia* as ours."

If Hurtig's projections hold, all sets will be sold by Christmas. Eaton's, for example, has ordered 10,000 sets and, as of 4 September, 7,200 of them had been purchased.

Translation into French is about 75 percent complete and publication is scheduled for fall 1987.

"We aimed for appearance and readability more than anything else," Bernie Cordell of Printing Services said. *Webster's Ninth* was the bible when it came to spelling and hyphenation. Unlike many encyclopedias, the *Canadian Encyclopedia* has an index. Another nice feature is that, wherever appropriate, articles are signed.

Besides the distribution of the special editions and the gifting of schools and libraries across Canada, sets will be sent to 42 countries and to every state in the U.S. □

A Milestone Birthday for Theoretical Physics Institute

The Theoretical Physics Institute has attained the half century mark. Since its opening in the autumn of 1960, one of the Institute's foremost activities has been to invite distinguished theoreticians for various lengths of time. To share in the marking of the anniversary, the same *modus operandi* will be followed. Between 18 and 20 September, Nobel laureate Julian Schwinger, Dirk ter Haar, Oxford University, and Don Betts, Dalhousie University, will give lectures in the Tory Turtle.

H. Schiff of the Institute told *Folio* that each lecturer will speak in a historical vein and follow that with a more specialized address. Ergo, such topics as "The Nature and nurture of theoretical physics in Canada," "Ergodic theory, a historical survey," and "Turbulence in plasma and fluid."

Dr. Schwinger was a prodigy—he wrote his first paper when he was 17 and took his doctorate at 21. In 1947, he developed quantum electrodynamics on his own and succeeded in explaining the Lamb shift, the anomalous magnetic movement of the electron, and so forth. Few were taken by surprise when he became full professor at Harvard University at the age of 29. He received the Nobel prize in 1965. Currently a professor at the University of California in Los Angeles, his work leans heavily toward mathematical physics.

Dirk ter Haar has been a research fellow at Bohr's Institute in Copenhagen, a professor at Purdue, and a lecturer at St. Andrews. Since 1956, he has been at Oxford where he is a fellow of Magdalen College and University Reader in Theoretical Physics.

Dr. Betts was Professor of Physics for a number of years and earned a reputation as a polished broadcaster on scientific activities. He is now Dean of Arts and Science at Dalhousie.

Among the distinguished scholars whom the Institute has brought to campus for extended visits are H. Ezawa, Gakushuin University; Y. Fujimoto, ICTP; M. Martellini, University of Milan; and D. Pavan, University of Barcelona. Short-term guests include R. Baxter, Australian National University; E.W. Fenton, National Research Council; H. Fröhlich, University of Liverpool; M. Konuma, Keio University; and C.Y. Huang, Los Alamos Lab. All visitors exchange research information, and a good many present seminars which are attended by faculty and students.

In turn, members of the Institute

are invited to speak at universities throughout the world and these external activities involve presentations at seminars, invited talks and positions as visiting scientists. Members have been asked to such institutions as Institut für Theoretische Physik, Göttingen, University of Innsbruck, Tokyo University, Istituto Italiano per gli Studi Filosofici, Napoli, and the Centre de Physique Théorique.

The Theoretical Physics Institute was the brainchild of L.E.H. Trainor, now at the University of Toronto. It was officially opened by H. Fröhlich, F.R.S., of the University of Liverpool. The charter permanent members were Dr. Betts, the late A.B. Bhatia, Dr. Schiff, Dr. Trainor, W. Israel, R.O.A. Robinson (deceased), W.T. Sharp (deceased), and M. Wyman.

The Institute consists of permanent members who hold regular permanent academic appointments in one or more departments, post-doctoral fellows, research associates and support staff. The fields of research are general relativity, field theory, elementary particles, condensed matter and nuclear physics.

Y. Takahashi is the current director of the Institute. (Each director serves a three-year term.)□

Helping Teachers to Help the Teachers

Richard Tiberius was on campus recently to conduct "A quick course in peer consultation", the first of this term's workshops in CITL's program of courses for the improvement of teaching and learning.

The focus of the workshop was on techniques of getting feedback from students, a process Dr. Tiberius believes is most effectively performed for a teacher by a peer consultant.

In an interview with *Folio*, he said that in teaching, content and process are distinct and separate parts. Content is the teacher's professional prerogative, but process is the concern of the student. A teacher who wants to improve the process and asks students for their suggestions may not find the replies very helpful. The objections are sometimes to course content—which is not something students are necessarily competent to evaluate; and other times students may be too polite, or too kind, to tell the brutal truth about how they perceive the teaching process they are being subjected to. Yet teachers need to know how students perceive them, and whether their teaching processes are helping learning or hindering it. This is where a peer consultant, with experience of effective teaching processes and skilled in the ways of eliciting feedback from students, can be very helpful.

Our University, Dr. Tiberius

commented, is the only university he knows of that has established peer consultation as an on-going process within its own Faculties. He added, in an aside, that teacher skills are one thing, but student skills are quite another. He found it interesting that there is much emphasis on improving teaching and many courses are given on the subject; but he has yet to hear of workshops for students to learn how to improve their learning and studying skills.

Dr. Tiberius, whose early gradu-

ate work was in the psychology of motivation, has a PhD in psychology, with a minor in moral philosophy. He holds an appointment in the Division of Studies in Medical Education in the Faculty of Medicine at the University of Toronto, and is also on the staff at OISE where he teaches a graduate course on strategies for the enhancement of the teaching and learning process in post-secondary institutions.

CITL's fall program is available from Bente Roed Cochran at 432-2826.□

Graduate Teaching Assistants to Have Teaching Skills Workshops

Graduate teaching assistants will find much to help them in their teaching responsibilities in the workshops put together especially for them this month by the Committee for the Improvement of Teaching and Learning.

There are 13 presentations, covering a variety of topics. Some sessions are designed especially for the beginning teacher. Others are for those with more experience.

A new course this year has been designed especially for graduate teaching assistants from non-English-speaking countries: "Tan-

gible Tips for Teaching at the U of A."

Among other subjects covered are "Basic guidelines for language teachers," "Teaching in the laboratory," "Approaching your first class," "Practical advice on lecturing," and "Marking written assignments."

All workshops are free. They take place on different days, in different places and at different times. Further information from Bente Roed Cochran, 230 Assiniboia Hall, 432-2826.□

Alumnus Named Canada Council Director

Peter Roberts, currently Canada's Envoy to the Soviet Union, has been named Director of the Canada Council. He will replace Michael Porteous effective 1 October.

Mr. Roberts, who graduated from this University in 1949 with a BEd and an MA in 1951, is a Rhodes Scholar who studied English at Oxford from 1951 to 1953. After lecturing in English at Bishop's University in Lennoxville, Quebec, he joined External Affairs in 1955 and was posted to the Soviet Union. Roberts returned to Ottawa in 1959 as head of External's Soviet desk. According to records in our Office of Alumni Affairs, he was described by his mother in 1957 as a "budding diplomat."

Roberts' mother was right. In 1962, her son went to Hong Kong as Trade Commissioner, thence to Ho Chi Min City (Saigon) in 1965 as Political Adviser to the Inter-

national Control Commission and to Washington, D.C., as a political counsellor. In 1969, Roberts was appointed Deputy Head of the permanent Canadian delegation to NATO. Assistant Undersecretary of State for Cultural Affairs from 1973 to 1979, Roberts fulfilled his mother's prediction when in August of 1979 he was appointed Ambassador to Romania. He remained in this position until his appointment to Moscow in 1983.

Maureen Forrester, a graduate of the same secondary school in Montreal as President Horowitz, remains Canada Council Chairman. □

Tom Berger Keynote Speaker at St. Stephen's College Convocation

Thomas Berger, recently referred to by Allan Fotheringham as the man who made Canadians think, will be the St. Stephen's College Fall Convocation speaker at All Saints' Anglican Cathedral on 25 September at 8 p.m.

The Hon. Thomas Berger is a person of several careers—a former politician, judge, author and Royal

Commissioner. He is noted for the two commitments that have shaped his life and drawn media attention: to Native peoples and to the environment that sustains them. Berger is currently completing a two-year study of the future course of the Native people of Alaska, and his report will soon be published in book form by the New York house of Farrar, Strauss and Giroux under the title, *Village Journey*.

His book, *Fragile Freedoms*, examines the history of dissent and human rights in Canada. It is a book about minorities and dissenters and their struggles, victories and defeats. It sharpens our perception of ourselves and our values as Canadians. Developed from a series of lectures, *Fragile Freedoms* is a challenging, sometimes disturbing and absorbing contribution to our understanding of earlier times and the quest to be just in our own time.

Berger most recently had agreed to undertake the defence of Richard Price, an alumnus of St. Stephen's College and the University of Alberta. Price had been charged by the federal government with breach of trust for leaking documents regarding funding cuts for Native services to Terry Anderson, a former faculty member of St. Stephen's.

In the minds of many Canadians, Berger is the one name to be associated with the celebrated MacKenzie Valley Pipeline, since he was the one-man Royal Commission that galvanized Canadian popular opinion with respect to that project. His decision regarding the current report on the future course of Native people of Alaska will presumably have a large impact on the American government.

Appointed to the Supreme Court of British Columbia at the age of 38, Berger was once again the focus of public attention during the patriating of the Constitution. At that time, he spoke out to protest the exclusion of women and Native peoples from the Charter of Rights and Freedoms. Chief Justice Bora Laskin deemed it inappropriate that a Justice of a Provincial Supreme Court make such comments and Berger stepped down from the Bench to return to private life.

At the 25 September Convocation, honorary degrees will be awarded The Reverend Jack Colclough, Minister of Knox Metropolitan United Church; Sherburne McCurdy, immediate Past President of Alberta College; and the Hon. Ralph G. Steinhauer,

Thomas Berger

former Lieutenant-Governor of Alberta.

A graduate theological school of the United Church of Canada, St. Stephen's College has been affiliated with the University since 1908. □

Advisory Committee on Women's Studies 'Books' Dale Spender

Many Albertans will need no introduction to Dale Spender. Her prolific writings and feminist analyses of language, literature and history ensure that she is well-read around the world. Her most recent books include *Man Made Language* (1980), *Women of Ideas and What Men Have Done to Them—from Aphra Behn to Adrienne Rich* (1982), and *There's Always Been a Women's Movement This Century* (1983). She has also edited several other books and is the founding editor of *Women's Studies International Quarterly*, a scholarly, multidisciplinary women's studies journal.

Through the efforts of the Advisory Committee on Women's Studies and with financial assistance from the Endowment Fund for the Future, Spender will be a Distinguished Guest Lecturer at the University of Alberta from 19 September to 3 October. During her stay, she will give four public lectures as well as several smaller seminar presentations.

On 23 September, Spender will speak on "Mothers of the Novel; 106 Good Women Novelists Before Jane Austen." This lecture will address how and why women "invented" the novel, and how and why

men have claimed this forum as their own (and have been perceived to be better at it).

The next day (2 to 3:30 p.m.), Spender will give a public seminar at Athabasca University on "Reflecting Men." In this talk she will examine the ways that women manage men's egos. The lecture draws on the title of a forthcoming book with Andre Deutsch which focusses on Virginia Woolf's thoughts that for centuries women have served as looking glasses for men, reflecting them at twice their normal size.

"The Silence of Women" will be the topic on 26 September. In this lecture Spender will look at how women are silenced in language and in culture. She will examine the "absence" of women's meanings in semantics, the curriculum and in the selective recording of history.

In her final public lecture at the University of Alberta, Spender's topic will again be "Reflecting Men." The date for this lecture is 1 October. The lectures on 23 and 26 September and 1 October will be held in L-1 Humanities Centre from 7:30 to 9:30 p.m. The lectures are open to the public and admission is free. □

Native Student Affairs Experiences Name Change

The Office of Native Student Affairs is now Native Student Services.

Acting Director Jeannine Laboucane says the change is part of the new directions for the office in which it has become strictly a student service unit for native stu-

dents on campus and in the native community.

The name change also connects with current developments in the School of Native Studies on campus. Tom Pocklington was recently appointed Interim Director of the School. □

Edmonton Terry Fox Run — 15 September

The fifth annual Edmonton Terry Fox Run will be held 15 September at 1 p.m. at the Students' Union Building. The 10 kilometer run is being endorsed by the Students' Union and President Horowitz, and pledge sheets can be picked up at 7-11 Stores, the YMCA and YWCA, Shoppers Drug Marts, and Collegiate Sportsworld. □

Youth was Served (and Will be Again)

In two 10-day sessions, about 200 enthusiastic young people in grades 9 through 12 explored classrooms and labs, listened to stimulating lectures and participated in seminar-like discussions. They were students in the University's first Summer Youth University (SYU).

In advance of SYU, a review of summer "mini-universities" was initiated by the Physics and Mathematics Departments. In cooperation with the Faculties of Extension and Physical Education, SYU '85 was patterned after Manitoba's mini-university and the Universities of Calgary, York in Toronto, Simon Fraser in Vancouver and Dalhousie in Halifax, who are all developing and operating summer programs for junior and senior high school students. In exposing these students to the campus and University-type material, one of the aims of SYU is to assist young people in identifying their scholastic objectives as well as their own personal life goals.

SYU '85 offered a choice of three different programs; two a mix of arts and science courses, which were repeated, and the third a "math immersion" program. Each program combined daily academic classes with instruction in such sports as archery (a favorite), orienteering, floor hockey, racquetball,

We don't know if these participants were on target but SYU definitely was.

and weightlifting and aerobics (topped off with an hour of recreational swimming).

For the 11 Faculties and departments participating in SYU '85, it provided a unique opportunity to introduce potential students to their disciplines, which is especially useful to those students who are currently planning their

scholastic careers.

Program A's classes were in family studies, geology, law and vertebrate biology. Program B featured English, physics, music, and statistics. Program C contained lectures, research and seminars in University-standard mathematics. Some of the math students were working at the second-year Univer-

sity level, reported J.W. Macki, Chairman of Mathematics, and a member of SYU's steering committee. Eight of the "math whiz kids" said they were planning careers in medicine.

In each of the Programs A and B, a faculty member volunteered to be "academic advisor", and chose graduate students from their Faculties to prepare the course material and lectures in both of the two-week sessions. The advisors also assisted with the lesson plans, the coordination of "hands on" materials and approved the course outlines. The 15-member team of graduate students generally reported that SYU was a very challenging summer job, demanding many teaching and organizational skills in the instruction of these bright, enthusiastic young people.

Slightly less than half of the students were from out of town, and many of these experienced life at Lister Hall, with its advantages (camaraderie) and disadvantages (food). They grumbled about the strict "house rules", but somehow, the fun and revelry seemed to spill over into the wee hours of the morning, making those 9 a.m. classes come awfully early. In this way, and many others, SYU was able to offer not just a sample, but a real taste of "University life."

SYU '85 was well-received, according to the student evaluation forms. Comments included "rave notices" and interest was expressed in attending SYU with different courses next year. The steering committee, in addition to Dr.

Wall of Fame Stretching Far Beyond Pavilion

Physical Education and Recreation's Wall of Fame (and other) stock is rising.

At a news conference at the Westin Hotel last week, Gerry Glassford and Bob Steadward informed reporters that 16 individuals from the corporate sector like what they see and have agreed to be vice-chairmen for the first Sports Wall of Fame Dinner next week. Six other local businessmen are working with Dr. Steadward on the organizing committee.

Premier Lougheed will serve as honorary chairman of the gala event which will be held at the Westin beginning at 6:30 p.m. on 19 September.

Six former University of Alberta athletes were selected for the Wall in 1983 and another six will be acknowledged during the evening. Dr. Steadward, Chairman of Athletic Services, will name names and tell the anticipated 500 guests all

about the Wall. Joining him, Mr. Lougheed, Myer Horowitz and the vice-chairmen at the head table will be Tom Costello, former New York Giant and a member of the Round Table Club. The latter is known as an inspirational speaker.

Tickets are \$125 each and are available through Athletic Services. The 7 p.m. dinner will be followed by a dance.

The Sports Wall of Fame was a University 75th Anniversary project. Its purpose is to recognize and preserve the contributions of outstanding athletes and contributors to University sport.

The current members of the Wall are: Ethel Barnett Cuts and W.A. (Bill) Shandro (1920s), Beverly Richard (1960s), and Kathy Moore, Brian Fryer and Randy Gregg (1970s).

Support for the Wall of Fame enables the University to "continue to attract a steady flow of high cali-

bre student athletes, and to provide them with high quality facilities and coaching necessary to maintain international stature."

The University's international reputation for excellence was enhanced several notches when it hosted the 1978 Commonwealth Games and Universiade '83. Now, Dean Glassford, Dr. Steadward and their colleagues want to increase the visibility of the Faculty and get the community out in force at Bears and Pandas games. The Wall of Fame Dinner should help set up more special events like last year's Bears vs. NAIT Oookpiks game, and draw attention to the importance of scheduling more matches involving international teams and invitational clinics run by coaches from a variety of nations, including East Germany. That noise you hear is the Faculty knocking on doors. □

Macki, includes: A. Fisher, Music; G. Moss, Physics; Dan Syrotuik, Athletics; and Gerry Wright, Extension. At its wind-up meeting, the committee unanimously concluded that the SYU program should be continued and developed, ideally with the participation of more Faculties.

SYU '85 was budgeted to be self-supporting and employed 15 graduate students, two sessional lecturers and one coordinator. Additional assistance and encouragement was provided by the President's Office, the City School Boards and Alberta Education. More information regarding SYU '86 will be available through either the Faculty of Extension or the Department of Athletics. *□

*This article was contributed by *Maryanne Budnitsky*.

Canadian Mediterranean Institute's Winter Program

The Canadian Mediterranean Institute (CMI) was formed in the autumn of 1980 to serve as an umbrella organization for three Canadian academic centres abroad: the Canadian Archaeological Institute at Athens, the Canadian Academic Centre in Italy and the Canadian Institute in Egypt.

The aim of the CMI is to sustain a high standard of teaching and research in Canadian universities by encouraging and assisting scholarly and artistic work in Mediterranean countries in such fields as archaeology, architecture, the arts, engineering, history, language and literature, law, philosophy, religion

and science. In so doing, the CMI hopes to enhance Canadian awareness of our cultural roots in the Mediterranean region and to strengthen our links with Mediterranean countries.

An Edmonton Chapter of the CMI was formed recently and has planned a winter program which will include a presentation by Richard Smith on ancient Egypt, a preview of the 1986 University of Alberta summer school in Italy by Helena Fracchia and Maurizio Gualtieri, and a talk by Charles Baker on the autopsy of the University's mummy.

Anyone who is interested may

attend the meetings, which will be held in the Provincial Museum. Membership of the CMI is open to all who wish to further the aims of the Institute; more information can be had from Edward Wilson, Helena Fracchia or Robert Buck at 432-2338. □

Talks

Anatomy

16 September, noon. Adolf Martinez-Palomo, Centro de Investigacion y de Estudios Avanzados del IPN, Mexico, "Pathogenesis of Human Amebiasis." 6-28 Medical Sciences Building.

Alberta Heritage Foundation for Medical Research

17 September, 12:30 p.m. Karin Ippen-Ihler, Department of Medical Microbiology and Immunology, College of Medicine, Texas A & M University, "Genes and Gene Products Involved in the Synthesis of F-pili." 2-27 Medical Sciences Building.

Chemical Engineering

19 September, 3:30 p.m. Andreas Acrivos, Stanford University, "The Boycott Effect—Sedimentation in Settling Vessels Having Inclined Walls." E-346 Chemical-Mineral Engineering Building. 20 September, 3 p.m. Dr. Acrivos, "The Rheology of Concentrated Suspensions." E-346 Chemical-Mineral Engineering Building.

Canadian Institute of Ukrainian Studies

20 September, 7:30 p.m. Roman Brytan, "The Azure Rose, Rediscovering Lesia Ukrainka's Unattainable Ideal." Heritage Lounge, Athabasca Hall.

Boreal Institute

25 September, 7:30 p.m. Robert Paine, Institute of Social and Economic Research, Memorial University, "Territory and Reindeer Rustling Among the Saami (Lapps)." Tory Breezeway I. Co-sponsored by Anthropology and the Provincial Museum.

East Asian Languages and Literatures

25 September, 3:30 p.m. Joseph S.M. Lau, Professor and Chairman, University of Wisconsin at Madison, "The Question of Chinese Self in the Context of Western Literature." L-2 Humanities Centre. Co-sponsored by Comparative Literature, Slavic and East European Studies and East Asian Studies Committee.

Botany

26 and 27 September. Canadian Pacific Symposium on "Applications of Biotechnology to Western Canadian Agriculture and Forestry." 432-4587.

Films

16 September, noon. Lutheran Campus Ministry South African Film Series—"Devil's Circle" and Namibians in Exile." 158A SUB. 23 September, noon. "Cry for Freedom." 034 SUB.

The Arts

SUB Theatre

13 September, 8 p.m. "2010" (1984). 15 September, 8 p.m. "The Falcon and The Snowman" (1985). 20 September, 7:30 p.m. The Canada-India Youth Society and the Edmonton Multicultural Society present "Edmonton Multicultural Youth Extravaganza." 420-6866. 21 September, 8 p.m. "Desperately Seeking Susan" (1985). 22 September, 8 p.m. "The Killing Fields" (1984). 27 to 29 September, 8 p.m. and 29 September, 2 p.m. The Azure Rose—an adaptation and translation of the Ukrainian play by Lesia Ukrainka. 426-4329 or 466-6538. Tickets at BASS.

Edmonton Chamber Music Society

2 October, 8 p.m. St. Martin in the Fields Octet. Admission by season membership only, available at SUB Box Office, Canadiana Galleries, Woodward's and the door. SUB Theatre.

Sports

21 September, 2 p.m. Football—Golden Bears vs. University of Saskatchewan. 25 September, 7:30 p.m. Hockey—Golden Bears vs. Camrose College. 28 September, 2 p.m. Football—Golden Bears vs. University of Manitoba.

Matters of Faith

Beginning 18 September, 7:30 to 9:30 p.m. "Understanding Catholicism," an 11-session series on the Catholic faith. The first session is "Scripture: Source of Revelation" by Fr. Paul Facht, omi. 102 St. Joseph's College. 433-2275.

Elvis Presley rocks again in EFS Series.

Rock 'n' Roll Returns With a Vengeance

The Edmonton Film Society, purveyor of nostalgia that it is, will positively ooze memories from 16 to 19 September. Eight rock 'n' roll movies, a cornucopia of legendary musicians (What, you don't remember Wink Martindale?) and graduates of the Mount Rushmore Academy of Acting, will be screened in the H.M. Tory Building.

The Society asks moviegoers to shoulder decorum aside and indulge in a genre that prides itself on super-surreal screenplays, amorphous plots and cut-rate production.

The pot starts boiling with "The Girl Can't Help It" and "Let's Rock." On 17 September, the first movie about rock 'n' roll, "Rock Around the Clock," will be accompanied by "Don't Knock the Rock." The rest of the series consists of "Jailhouse Rock" and "Rock, Pretty Baby" (18 September) and "Rock! Rock! Rock!" and "Let the Good Times Roll" (19 September).

Tickets are \$5 per night (two films) are available only at the door on the night of the showings.

Each double bill will start at 7:30 p.m. □

FSIDA's Fall Deadline

At its last meeting on 30 April, the Advisory Committee for the Fund for Support of International Development Activities (FSIDA) decided to change the Fall deadline from 15 September to 15 October. All potential applicants are herewith alerted to this change. For information and application forms, communicate with the secretary, Eva M. Cherniavsky, 3-31 University Hall, 432-4588.

Study Leave

You are reminded that, in accordance with The Faculty Agreement, applications for 1986-87 study leave should be submitted, through Department Chairmen to Deans, no later than 15 October 1985. Application forms are available in Faculty offices or from the Office of the Vice-President (Academic).

Elizabeth L. Empey Lecture Series

Home Economics and Extension and the Faculty of Continuing Extension at the University of Calgary are sponsoring the third Elizabeth L. Empey Lectureship Series. The topic "Surviving Change: Coping With Stress in the 1980s" will be addressed by Hamilton McCubbin, Professor of Family Social Science, University of Minnesota. 18 September, 7:30 p.m. 432-5070.

Library Cards

Library cards for new faculty and staff may be obtained in person or via campus mail from the Fines and Library Cards Office, 1-26 Cameron Library.

New or recurring full-time, part-time and sessional faculty and staff should present letters from their department verifying their departmental affiliation and the duration of their appointment. Library cards will be issued at that time. They provide borrowing privileges in all branches of the University of Alberta system.

Library Information and Instruction

The 1985-86 library guide pamphlet is available at information desks in each library.

Direction, telephone checks of library

holdings or copies of the guide can be obtained by calling 432-4174.

From 16 September to 17 October, 45-minute instruction sessions on the use of the Library's catalogue system will be offered for new users on a drop-in basis.

St. Cecilia Orchestra Rehearsals

Due to a change in status to a community orchestra, the St. Cecilia Orchestra will be recruiting adult and student performers, particularly string players, to fill the ranks for the 1985-86 season. Conducted by Malcolm Forsyth, the St. Cecilia Orchestra has two scheduled concerts (1 December and 6 April) and an opera—Menotti's "The Consul." The Orchestra will also participate in the 20 October Violet Archer Festival at Maclab Theatre. Rehearsals take place on Tuesdays from 7 to 10 p.m. in 1-23 Fine Arts Building. Dr. Forsyth can be reached at 432-2384 or 434-2957.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Academic

Herbert T. Coultts Library Collections/Reference Librarian

Reporting to the Collections Librarian, the incumbent will participate in all activities relating to the development and management of the education collection, including selection, evaluation of collections in relation to instructional and research programs, faculty liaison, and the development of collection policy. Duties also include the provision of reference service and assisting in the orientation and instruction of Library users. In addition to an accredited MLS, requirements are: previous experience in reference or collection development in the social sciences; ability to communicate and work effectively with faculty and students; a knowledge of scholarly publishing; an innovative approach to collection development. Preference will be given to applicants with a strong subject background in education or a closely related discipline; as well as experience in collection development, or previous experience in education reference.

The successful candidate will be appointed at the Librarian I level with a

salary range of \$24,604 to \$31,268. Applicants should send curriculum vitae, transcripts of academic record, and names of three references to Peter Freeman, Chief Librarian, University of Alberta, Edmonton, Alberta T6G 2J8. Closing date is 27 September 1985.

Chembiomed Ltd.

Chembiomed Ltd. is in the process of expanding its staff in the areas of Biochemistry and Immunology. Résumés are invited from those with training at the NAIT/BSc, MSc and PhD levels. Preference will be given to those with extensive laboratory experience.

Chembiomed Ltd. is a biotechnology company engaged in research and development, marketing and sale of products in the health care area.

Résumés should be sent to Chembiomed Ltd., 11145 87 Avenue, Edmonton, Alberta T6G 0Y1.

Assistant Secretary to GFC

The Secretariat, an administrative unit of the President's Office, requires an Assistant Secretary to General Faculties Council.

Responsibilities include liaison with Faculties and senior administrative offices on GFC-related matters, including academic standing matters and course/program changes. The

Assistant Secretary drafts minutes for the GFC Executive Committee and Council, revises the GFC Policy Manual and computerized index, researches and prepares agendas and meeting material, maintains the GFC Register of Committees, responds to enquiries related to GFC policies, and provides general assistance as required to the Secretary to GFC.

The position requires a thorough knowledge of the University's policies and system of government, excellent oral and written communication skills, and ability to relate well with others. A university degree is desirable. Knowledge of DECMATE word processors and the IBM 3178 computer terminal would be an asset.

Salary range: \$25,578 to \$38,370.

Applicants should send curriculum vitae and the names of three references to: Mrs. Ellen Solomon, Secretary to GFC, 2-1C University Hall, (432-5430) before 19 September 1985.
