

University of British Columbia
WOMEN'S STUDIES COLLOQUIUM

Call for papers - Please post and circulate.

Gender and the Construction of Knowledge and Culture.

Proposals are invited for a Colloquium to be held at the University of British Columbia, September 29-30 (Friday evening and all day Saturday), 1989. The focus will be on feminist methodological problems in an interdisciplinary framework. Contributors and participants from a broad range of disciplines will be welcome. We hope to be able to include three keynote speakers and to combine scholarly papers with more informal workshop sessions. We invite proposals for papers of different lengths (10 to 25 minutes) and suggestions for workshops and round-table discussions, addressing the following general topics:

The Struggle for the Body: (1) Representation of Gender in Literature and the Arts.
(2) Feminist critique of science (including health issues).

Women's Ways of Knowing and Learning.

Feminist "Thealogy" and Women's Rituals in Cross-Cultural Perspective.
Feminist Praxis (in such disciplines as Law, Social Work, Medicine and Education).

Deadline for submissions accompanied by a brief C.V.: March 15, 1989
