Every Woman's Place

9926 - 112 Street
Edmonton, Alberta T5K 1L7
488-2748

Every Woman's Place, Edmonton's first successful women's centre, was officially opened on International Women's Day in March of 1982.

Every Woman's Place (EWP) occupies a comfortable old building in the Oliver area, and EWP functions as a Centre for women to meet and exchange information and support, to use as meeting and office space, to plan a wide range of activities, to develop valuable resources for women, and to serve as a Centre for feminist activities in Edmonton.

The Centre is operated by the Edmonton Every Woman's Place Society, a non-profit collective of individual women and women's groups, which welcomes participation and involvement from all interested women. Our objectives are primarily: to facilitate greater interaction between women's groups and individual women in the Edmonton area; and to promote awareness of (and action around) issues concerning the rights and status of women.

Our activities and our process are guided by feminist principles, a belief in the dignity, power, and equality of women, and a desire for cooperative action and sharing, and to improve the status of women in our society.

Every Woman's Place is operated entirely by volunteers. Our operation is funded by donations, membership fees, occasional fund-raising events, contributions from women's groups who use the Centre, and occasional grants from government sources.

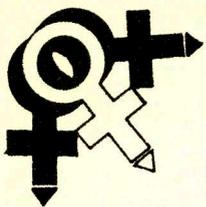

Here are some of the activities and resources which Every Woman's Place provides:

- a drop-in space for women
- a meeting space for women's groups (See Section #20 of

- this Directory for details)
- office space for women's groups (See Section #20 of this Directory for details)
- educational activities
- social activities
- information and referrals concerning women's groups, and activities and services of special interest to women in the Edmonton area
- a Newsletter
- a wonderful library containing books, periodicals, and a few audiovisual materials on issues of special interest to women
- a friendly space for women to meet and exchange information and support, and to plan activities of their choice
- Every Woman's Place also sponsors occasional workshops, lectures, socials, and other events which are held at locations other than EWP, and are open to both men and women from the general public.

Full (voting) membership is restricted to women, and use of the Centre is restricted to women and their children. Women DO NOT have to become members to use the Centre. The annual membership fee is \$25.00. Men may become Associate (non-voting) members, and groups may purchase Affiliate (non-voting) memberships. (Please refer to the membership application form on the back cover of this Directory.)

Every woman who is interested may participate in our activities, or in planning and organizing new activities at the Centre, and we encourage all interested women to attend our EWP general meetings (usually held on the 4th Friday of each month, at 7:30pm, in Every Woman's Place). We also encourage you to drop in, to make use of our information resources and meeting space, to become EWP members and volunteers, and to support EWP in any way you can.

WEBSPINNER

A non-profit, voluntary, ever-changing collective of women, formed to empower women anywhere in Alberta with communication through firsthand experience in producing a women's feminist newspaper. This is something that YOU can become involved in!

Webspinner is produced during workshops (minimum 4 consecutive days) that can be held anywhere in the province. Basic materials and tools needed are supplied. "Purpose of the workshop format is to give women 'hands-on' experience and in the process start to overcome some of the myths and fears we have about media and communication. Basic newspaper skills are also learned."

"Also available are pre-workshop workshops, held two/three weeks prior to the production workshops. Particularly valuable for a group of women planning to produce an issue of Webspinner for the first time. They provide time for the working group to get to know one another; to discuss women, media, and communication in greater depth and detail; and to talk about the 'why's' of wanting to produce an issue of the paper. This kind of time together beforehand can make the more task-oriented decisions required in the later production workshop happen more easily."

"Webspinner is not really an 'organization' in which you 'become a member.' It is more an ongoing activity where you focus your energy as much or as little as you choose and in whatever way you think is best for you. It is of interest to any feminist with a sincere desire to take the risks and participate in the sharing involved and in actively exploring alternative, woman-identified ways of communicating. This work extends to the content as well as to the group's day-to-day process of creating the paper. A strong commitment to collective working is essential. Previous experience in or knowledge of newspaper production is not required. A place to learn, share, grow, and have fun with other women."

Webspinner publishes about once every two months, from various locations in Alberta. Subscription rates: \$10.00 for 10 issues (individual); \$25.00 (institutional). Web-spinner is totally woman-supported--donations and subscriptions are most welcome!

Women everywhere are now facing the issue of pornography with a greater honesty, a willingness to examine both their own feelings and attitudes towards it, and the attitudes of men.

No one asks why people of a particular race or ethnic background strongly object to hate-filled images of themselves created by those who wish to humiliate, destroy, or dominate them. The answer would be obvious. Why, then, are women still being asked why we object to pornography?

All forms of pornography can be easily obtained in Edmonton. And whether the men who actually buy it do or don't believe that they are affected by it, it is clear that the women with whom they interact are affected--all of it objectifies, threatens, humiliates, lies about, and abuses us, and contributes to the injustice of our unequal status in society. Pornography is itself a form of violence, directed primarily against women.

But women are fighting back--both for ourselves and for our children. And we are--or will become--strong enough to defend ourselves.

(Excerpts from the pamphlet, "Pornography: Entertainment or Abuse?" published by the Social/Political Action Committee of Every Woman's Place.)
